Arguing With Lacan

David Pettigrew, François Raffoul

Arguing With Lacan:

Arguing with Lacan Joseph H. Smith, 1991 The writings of Jacques Lacan have been seminal in the ongoing debate on the place of language in the construction of reality and the self In this book psychoanalyst Joseph H Smith summarizes portions of his own and Lacan's readings of Freud on the unconscious and shows that the differences between Lacan's theories and American ego psychology are far less absolute than Lacan would have us believe Lacan's claim that the unconscious is structured like a language Smith asserts is supported both by Freud's writings and by ego psychology The final chapter about Eve draws on Kristeva's multitextual play on Lacanian phallogocentrism

Disseminating Lacan David Pettigrew, François Raffoul, 1996-04-11 The distinguishing feature of Disseminating Lacan is its decidedly interdisciplinary approach This book brings together diverse research efforts which have remained until now isolated in their respective subject matter areas The essays selected here exhibit a threefold discursive movement of dissemination which is implicit in Lacan's texts First they bring to light the way in which Lacan's text has been formed through diverse borrowings from various theoretical discourses such as sociology linguistics and philosophy Second they trace how Lacan's text in turn has engaged affected and transformed those theoretical disciplines Third they suggest some possible critical readings of Lacan from various perspectives and concerns These critiques far from refuting Lacan's undeniable contribution to psychoanalysis and to the intellectual world enrich and advance Lacanian discourse The book features four prominent French Lacanians Juan David Nasio Joël Dor Moustapha Safouan and Mikkel Borch Jacobsen Essays by two of them Nasio and Dor appear here in English for the first time Additionally the volume features authors who have established and continue to guide Lacanian studies in the United States and it introduces emerging voices in Lacanian studies

Time in Practice Mary Lynne Ellis, 2023-11-30 Time in Practice Temporality Intersubjectivity and Listening Differently is an original exploration of diverse ways in which individuals live time consciously and unconsciously Challenging the psychoanalytic emphasis on the past as determinative Mary Lynne Ellis explores the significance of present and future dimensions of individuals' experiences which catalyses change in the analytical relationship Through critical analyses of the theorizing of Freud Jung Klein Winnicott and Lacan Ellis highlights the limitations of spatial metaphors binaries of inner/outer in addressing the socio-political and historical specificity of patients' experiences including questions of identity and discrimination She explores how intersectional and interdisciplinary perspectives allow for the development of new interpretations of temporality intersubjectivity language embodiment in analytical practices Ellis reflects on the dynamism of conceptualizations emergent in autobiography fiction phenomenological and postmodern philosophy gender post-colonial queer and cultural studies for contemporary relational psychoanalytic practices This revised and updated edition includes discussion of experiences of loss vulnerability mortality inequalities and powerlessness associated with the profound impact of the spread of the coronavirus climate change and the Ukraine war It also includes a new chapter on mourning time and identities The book will be of interest to psychotherapists

art therapists counsellors psychologists and those working in the fields of gender sexuality class race and post colonial studies literature and allied disciplines

Arguing With the Phallus Jan Campbell, 2000-05 What can psychoanalysis offer contemporary arguments in the fields of feminism queer theory and postcolonialism Jan Campbell introduces and analyses the way that psychoanalysis has developed and made problematic models of subjectivity linked to issues of sexuality ethnicity gender and history Via discussions of such influential and diverse figures as Lacan Irigaray Kristeva Dollimore Bhabha Morrison and Walker Campbell uses psychoanalysis as a mediatory tool in a range of debates across the human sciences whilst also arguing for a transformation of psychoanalytic theory itself Alert to the issues at stake in either a wholesale acceptance or rejection of psychoanalysis Campbell offers the possibility of a re negotiated interpretation of the symbolic system as a necessary and valuable intervention in cultural theory

An Introductory Dictionary of Lacanian Psychoanalysis Dylan Evans, 2006-06-19 Jacques Lacan's thinking revolutionised the theory and practice of psychoanalysis and had a major impact in fields as diverse as film studies literary criticism feminist theory and philosophy Yet his writings are notorious for their complexity and idiosyncratic style Emphasising the clinical basis of Lacan's work An Introductory Dictionary of Lacanian Psychoanalysis is an ideal companion to his ideas for readers in every discipline where his influence is felt The Dictionary features over 200 entries explaining Lacan's own terminology and his use of common psychoanalytic expressions details of the historical and institutional context of Lacan's work reference to the origins of major concepts in the work of Freud Saussure Hegel and other key thinkers a chronology of Lacan's life and works

The Ethics of Resistance Drew M. Dalton, 2018-08-23 Opening a new debate on ethical reasoning after Kant Drew Dalton addresses the problem of the absolute in ethical and political thought Attacking the foundation of European philosophical morality he critiques the idea that in order for ethical judgement to have any real power it must attempt to discover and affirm some conception of the absolute good Without rejecting the essential role the absolute plays within ethical reasoning Dalton interrogates the assumed value of the absolute Dalton brings some of the most influential contemporary philosophical traditions into dialogue with each other speculative realists like Badiou and Meillassoux phenomenologists including Husserl Heidegger and Levinas German Idealists especially Kant and Schelling psychoanalysts Freud and Lacan and finally post structuralists specifically Foucault Deleuze and Ranciere The relevance of these thinkers to concrete socio political problems is shown through reflections on the Holocaust suicide bombings the rise of neo liberalism and neo nationalism as well as rampant consumerism and racism This book re defines ethical reasoning as that which refuses absolutes and resists what Milton's devil in Paradise Lost called the tyranny of heaven Against traditional ethical reasoning Dalton sees evil not as a moral failure but as the result of an all too easy assent to the absolute an assent which can only be countered through active resistance For Dalton resistance to the absolute is the sole channel through which the good can be defined

Witnessing Sadism in Texts of the American South Claire Raymond, 2019-10-28 Looking at works by Carrie Mae Weems Toni Morrison Emily Dickinson Flannery O'Connor Dorothy Allison Carson McCullers and Zora Neale Hurston Claire Raymond uncovers a pattern of femininity constructed around representations of sadistic violence in American women's literature and photography from the late nineteenth and twentieth centuries Dickinson's poetry is read through its relationship to the Southern Agrarian critics who championed her work While the representations of violence found in Carrie Mae Weems's installation From Here I Saw What Happened and I Cried Morrison's Beloved Dickinson's poetry O'Connor's A View of the Woods and A Good Man Is Hard to Find Allison's Bastard Out of Carolina McCullers' Ballad of the Sad Café and Hurston's Mules and Men are diverse in terms of artistic presentation all allude to or are set in the antebellum and Jim Crow South In addition all involve feminine characters whose subjectivity is shaped by the practice of seeing acts of violence inflicted where there can be no effective resistance While not proposing an equivalence between representing violence in visual images and written text Raymond does suggest that visual images of violence can be interpreted in context with written evocations of violent imagery Invoking sadism in its ethical sense of violence enacted on a victim for whom self defense and recourse of any kind are impossible Raymond's study is ultimately an exploration of the idea that a femininity constructed by the positioning of feminine characters as witnesses to sadistic acts is a phenomenon distinctly of the American South that is linked to the culture's history of racism

Lacan and the Biblical Ethics of Psychoanalysis Itzhak Benyamini, 2023-12-08 In this fascinating and ground breaking book Itzhak Benyamini uses discourse analysis to lay out the way Lacan constructed his own intellectual discourse informed by Judeo Christianity Offering an understanding of Lacan's emergence and intellectual struggles with significant contemporary intellectuals the author builds a panoramic view of the entire psychoanalytic discourse at the time of the foundational post Freudian generation By engaging in close reading of texts and seminars given by Lacan between the 1930s and 50s Benyamini uncovers the coming into being of Lacan's key concepts The Mirror Stage the Imaginary the Real the Symbolic the Name of the Father the Other jouissance and das Ding The author argues that Lacan wished to regulate this process of conceptualization by connecting the concepts of the Father and the Other with themes from the Judeo Christian tradition especially the Biblical one to create a clinical ethic that does not reflect a worldview or ideology and is guided solely by the analysand's unconscious desire

Critical Visions Anthony Elliott, 2019-04-10 Originally published in 2003 Critical Visions develops a wide ranging analysis of key issues and debates in contemporary social theory Drawing social theory cultural studies and psychoanalysis together in a bold configuration the book challenges the widespread view that social theory seems to have lost its way as a result of the diversification of conceptual approaches The book includes critical readings of the terrain of contemporary social theory and theorists Questions relating to the globalization of risk citizenship morality and ethics politics and norms and sexuality and desire are all explored

Lacanian Treatment Yehuda Israely, 2020-07-26 Secret wishes forbidden pleasures and painful memories hide below the false bottom of consciousness How do we decipher the desire and pleasure located between the words spoken in psychotherapeutic treatment and how can we identify and interpret them This book

following the author's previous work which focused mainly on Lacanian theory is dedicated to the practice of psychological treatment. Given its general clarity, the book can also be useful to those who are not deeply versed in Lacanian thinking. How does one interpret symptoms, dreams and other expressions of the unconscious? What is transference and how is it put to work in treatment? How do we work with anxiety, depression, suicidal tendencies and other types of distress? What is the Lacanian approach to these things? How does diagnosis relate to how we orient the treatment? And finally, what is the secret of termination of the treatment which happens to coincide with the analyst's training process?

Lacan and the Political

Yannis Stavrakakis, 2002-09-11 The work of Jacques Lacan is second only to Freud in its impact on psychoanalysis. Yannis Stavrakakis clearly examines Lacan's challenging views on time, history, language, alterity, desire and sexuality from a political standpoint. It is the first book to provide an overview of the social and political implications of Lacan's work as a whole for students coming to Lacan for the first time. The first part of *Lacan and the Political* offers a straightforward and systematic assessment of the importance of Lacan's categories and theoretical constructions for concrete political analysis. The second half of the book applies Lacanian theory to specific examples of widely discussed political issues such as Green ideology, the question of democracy and the hegemony of advertising in contemporary culture.

Lacanian Fantasy

Kirk Turner, 2022-08-02 *Lacanian Fantasy* addresses the question of how fantasy developed as a psychological concept, particularly as influenced by Sigmund Freud and Jacques Lacan. Kirk Turner moves thematically from childhood to adulthood and chronologically from Freud's earliest theories to Lacan's most complex statements on fantasy towards the end of his career. He explores not only the variations that the concept has undergone throughout its history from Ancient Greek discourse around phantasia to the present day, but also the changing consequences of its applications. *Lacanian Fantasy* includes further insights on our current predicament, the age of the social media image and fantasy in the uncertain, locked-down world of a pandemic. Spanning numerous examples both historical and recent, this book explores relatable forms of fantasy life. In bridging psychology and philosophy as well as gender and sexuality studies, it ultimately opens new perspectives on fantasy. This book will be of interest to psychoanalytic practitioners and humanities scholars as well as students interested in critical theory.

Psychoanalysis, Philosophy and Myth in Contemporary Culture

Angie Voela, 2017-08-09 This book examines the use of myth in contemporary popular and high culture and proposes that the aporetic subject, the individual that does not know, is the ideal contemporary subject. Using several contemporary novels, films and theatrical plays that illustrate aporia, such as *Percy Jackson and the Lightning Thief* (Riordan 2007), *Tron: Legacy* (Koninski 2010), *Welcome to Thebes* (Buffini 2010), *The Photographers* (Koundouros 1998), *Prometheus* (2012) and *Prometheus Retrogressing* (Sfikas 1998), Angie Voela introduces common ground between Lacanian psychoanalysis and some of Freud's most ardent critics, Michel Foucault and Jean Baudrillard, as well as the cultural philosopher Bernard Stiegler. These unprecedented systematic comparisons broaden the scope and impact of Lacanian psychoanalysis in interdisciplinary debates of philosophy.

and culture and Voela argues that apart from dealing with the past psychoanalysis must also deal more explicitly with the present and the future She presents a unique inquiry into modern subjectivity that will be of great interest to scholars of psychoanalysis philosophy film literature and contemporary culture **Traumatic Neurosis Revisited** Leslie

Chapman, 2025-06-15 This book argues that Freud's theory of the traumatic neuroses can provide a conceptual bridge between the Lacanian idea of an inaugural or founding trauma that constitutes the human subject and the more popular idea that trauma is brought about by external events for example war or sexual violence It proposes a new reading of Freud's theory which draws on Lacanian concepts including the Real jouissance the idea of suture and Lacan's deconstruction of Freud's drive theory It also argues for a cybernetic reading of Lacan's theory of language which he outlined in his second Seminar and for a reappraisal of Freud's concept of Nachträglichkeit as a way to facilitate a better understanding of the retroactive nature of trauma and its relation to language and the drive In doing so it offers a challenge to key assumptions underpinning the dominant discourse of trauma which is exemplified in what the author terms the PTSD paradigm In particular it challenges the idea that trauma is something that simply happens to human beings and that its effects that can be eradicated through the construction of various forms of trauma narrative for example in psychotherapy and different types of collective histories In the development of this argument the author also draws on the work of Jean Laplanche which has previously been under utilised in mainstream Lacanian theory and practice This book sheds new light on the relationship between the traumatic effects of the signifier and the impact of the external world It will be of interest to practitioners as well as to students and scholars of psychoanalysis and philosophy **Reading Lena Dunham's Girls** Meredith

Nash, Imelda Whelehan, 2017-06-23 In this book leading and emerging scholars consider the mixed critical responses to Lena Dunham's TV series *Girls* and reflect on its significance to contemporary debates about postfeminist popular cultures in a post recession context The series features both familiar and innovative depictions of young women and men in contemporary America that invite comparisons with *Sex and the City* It aims for a refreshed authentic expression of postfeminist femininity that eschews the glamour and aspirational fantasies spawned by its predecessor This volume reviews the contemporary scholarship on *Girls* from its representation of post millennial gender politics to depictions of the messiness and imperfections of sex embodiment and social interactions Topics covered include Dunham's privileged role as author auteur actor sexuality body consciousness millennial gender identities the politics of representation neoliberalism and post recession society This book provides diverse and provocative critical responses to the show and to wider social and media contexts and contributes to a new generation of feminist scholarship with a powerful concluding reflection from Rosalind Gill It will appeal to those interested in feminist theory identity politics popular culture and media *The Lived Body* Gillian A.
