African Afterthoughts:

African Afterthoughts Philip Euen Mitchell, Sir Philip Euen Mitchell, 1954 **Mau Mau - Twenty Years after** Robert Buijtenhuijs, 2016-04-11 No detailed description available for Mau Mau Twenty Years after *Decolonization And The State In Kenya* David F. Gordon, 2019-04-11 In this book the author examines the efforts of the colonial regime to shape the process of decolonization in Kenya from the end of World War II until independence in 1963 focusing on the conflict between the state's two imperatives promoting economic development and establishing and maintaining control Dr Gordon reviews the different political *The White Spaces of Kenyan Settler Writing* Terrence L. Craig, 2017-03-27 The White Spaces of Kenyan Settler Writing provides an overview of Kenyan literature by white writers in the half century before Independence in 1964 Such literature has been overshadowed by that of black writers to the point of critical ostracism It deserves attention for its own sake as the expression of a community that hoped for permanence but suffered both disappointment and dispossession It deserves attention for its articulation of an increasingly desperate colonial and Imperial situation at a time when both were being attacked and abandoned in Africa as in other colonies elsewhere and when a counter discourse was being constructed by writers in Britain as well as in Africa Kenya was likely the best known twentieth century colony for it attracted publicity for its iconic safaris and its Happy Valley scandals Yet behind such scenes were settlers who had taken over lands from the native peoples and who were trying to make a future for themselves based on the labour willing or forced of those people This situation can be seen as a microcosm of one colonial exercise and can illuminate the historical tensions of such times The bibliography is an attempt to collect the literary resources of white Kenya in this historically significant period

African Democracy Thompson, Gardner, 2016-04-17 The concepts of democracy and good governance have been at the centre of criticism of governments all over the world What democracy entails however has never been agreed most notably on the African continent African politicians who have been criticised for reigning over undemocratic regimes have insisted that the West judges them by criteria that don't apply to African circumstances Is there such a thing as African democracy Informed and intrigued by two events that happened in different eras in different countries Gardner Thompson has written an in depth historical examination of the nature of imported democracy as practised in the East African countries of Uganda where he worked as a young History teacher in the 70s Kenya and Tanzania The events were the 1971 Amin capture of power from Milton Obote in Uganda and the post election violence that rocked Kenya in 2007 2008 pitting then incumbent Mwai Kibaki against his erstwhile colleague Raila Odinga along what many read to be tribal lines Dividing the book into three sections Thompson treats democracy in the three former colonies from the perspectives of pre independence colonialism the transition to independence and governance since independence Reflecting indigenous history the colonial past and evolving culture flawed but functioning forms of government have emerged in the three states History of English Drama 1660-1900 Nicoll, Allardyce Nicoll, 2009-08-16 Nicoll's History which tells the story of English drama from the reopening of

the theatres at the time of the Restoration right through to the end of the Victorian period was viewed by Notes and Queries 1952 as a great work of exploration a detailed guide to the untrodden acres of our dramatic history hitherto largely ignored as barren and devoid of interest **International Firms and Labour in Kenya 1945-1970** Alice Amsden,2013-01-11 First Published in 1971 This volume is an historical look at Kenyan international firms and labour starting in 1945 and ending at the years of independence and the introduction of collective bargaining in 1967 *The Culture of Colonialism* T. O. Beidelman,2021-12-22 What did it mean to be an African subject living in remote areas of Tanganyika at the end of the colonial era For the Kaguru of Tanganyika it meant daily confrontation with the black and white governmental officials tasked with bringing this rural people into the mainstream of colonial African life T O Beidelman s detailed narrative links this administrative world to the Kaguru s wider social cultural and geographical milieu and to the political history ideas of indirect rule and the white institutions that loomed just beyond their world Beidelman unveils the colonial system s problems as it extended its authority into rural areas and shows how these problems persisted even after African independence

Uganda: A Modern History Jan Jelmert Jørgensen,2023-10-09 Uganda A Modern History 1981 provides a comprehensive political social and economic history of Uganda from the beginnings of colonial rule in 1888 It focuses particularly on the development of the Ugandan economy and demonstrates how the economy became structurally dependent on world capitalism during the colonial period and how this has affected its subsequent development The book also deals with the political and social tendencies which shaped Ugandan society in both the colonial and postcolonial period The first four chapters examine the initial colonial occupation and the colonial state s role in the rural nexus of chiefs peasants and migrant workers They also look at the colonial state and the context of the wider national regional and international economy and analyse the African nationalist response and the formation of political parties to take control of the postcolonial state The second part of the book considers the political alliances and economic strategies of the Obote regime and the events of Amin s military regime The epilogue looks at events since the fall of the Amin regime and suggests ways in which Uganda may be able to tackle its underlying economic problems **The Statesman's Year-Book** S. Steinberg,2016-12-26 The classic

reference work that provides annually updated information on the countries of the world **The Kingdom of Toro in Uganda** Kenneth Ingham,2023-10-27 First published in 1975 The Kingdom of Toro in Uganda describes the foundation of the Toro kingdom in the nineteenth century by the rebel prince Kaboyo and investigates how Kasagama Kaboyo s grandson was able to recreate with little local support a kingdom far more extensive than Kaboyo had ever envisaged His personal authority was established by his insistence that its root were traditional thus satisfying the requirements of indirect rules at a time when this ill defined concept served both as the shibboleth and the escape clause for an overstretched British colonial administration Although Kasagama s son Rukidi was able to combine authority with personal popularity and to take advantage of colonial innovations without losing control of his kingdom the ending of colonial rule brought an end to Toro as

he knew it In an independent Uganda the particularism stressed by Toro s rulers could not survive This book will be of interest to students of history colonialism African studies and ethnic studies *Land, Freedom and Fiction* David Maughan Brown,2017-06-15 This now classic work examines the contrasting ways in which the Mau Mau struggle for land and independence in Kenya was mirrored and usually distorted by successive generations of English and white Kenyan authors as well as by indigenous Kenyan novelists Against the turbulent background of the Mau Mau Uprising Dr Maughan Brown explores the relationship between history literary creation and the myths that societies cultivate Spanning the breadth of colonial and post colonial African literature his subjects range from the colonialist authors Robert Ruark and Elspeth Huxley to the post independence novels of Meja Mwangi and Ngugi wa Thiong o Maughan Brown s book is invaluable on many levels He presents a concise account of the uprising and its place in Kenyan identity and significantly increases our understanding of settler attitudes and the role of literature within colonial ideology *Land Freedom and Fiction* succeeds in showing the subtle insights a materialist approach can bring to the study of literature ideology and society **Imperialism, Academic and Nationalism** Apollos O. Nwauwa,2013-05-13 Using British Colonial Office papers the archives of colonial governments in Africa and the writings of African nationalists Dr Nwauwa examines the long history of the demand for the establishment of universities in Colonial Africa to which the authorities finally agreed after World War II *Catalog of Copyright Entries* Library of Congress. Copyright Office,1978 *The Publishers' Trade List Annual* ,1904 International Firms and Labour in Kenya: 1945-70 Alice Hoffenberg Amsden,1971 Study of the impact of multinational enterprise on labour relations in Kenya between 1945 and 1970 and the role played by the kenyan employers organization describes racial discrimination prevalent prior to accession to independence covers subsequent developments in respect of minimum wages trade unions collective bargaining strike activity etc and comments on relevant labour legislation ILO mentioned Bibliography pp 169 to 181 and references *Saben's Commercial Directory and Handbook of Uganda* ,1960 The British Empire and the Second World War Ashley Jackson,2006-03-09 In 1939 Hitler went to war not just with Great Britain he also went to war with the whole of the British Empire the greatest empire that there had ever been In the years since 1945 that empire has disappeared and the crucial fact that the British Empire fought together as a whole during the war has been forgotten All the parts of the empire joined the struggle and were involved in it from the beginning undergoing huge changes and sometimes suffering great losses as a result The war in the desert the defence of Malta and the Malayan campaign and the contribution of the empire as a whole in terms of supplies communications and troops all reflect the strategic importance of Britain s imperial status Men and women not only from Australia New Zealand and India but from many parts of Africa and the Middle East all played their part Winston Churchill saw the war throughout in imperial terms *The British Empire and the Second World War* emphasises a central fact about the Second World War that is often forgotten Britain and Kenya's Constitutions, 1950-1960 , Shrouded Witness Francis Omondi,2025-06-30 The history of Christianity in Africa has often

been told as a story of Western missions. As such, the contributions of local converts in shaping mission praxis and impacting the success of Christian witness on African soil has often been ignored. In this study, Dr. Francis Omondi seeks to rectify historic omissions by exploring the role of African converts such as Reuben Omulo in establishing the Anglican Church in the Nyanza Province of western Kenya. Utilizing Johannes Kritzinger's encounterological approach, Omondi presents the growth of the church in Central Nyanza as the result of complex and dynamic encounters between Luo culture and Church Mission Society (CMS) theology. Examining seven areas of belief and praxis such as contextual understanding, interpretation of religious and cultural tradition, and perspectives on the role of religious leaders, he explores how CMS missionaries were impacted and ultimately transformed through their encounters with the Luo people and vice versa. Filled with practical implications for the church in Kenya and beyond, this study highlights the radical and often surprising power of encounter as the gospel becomes incarnate in all cultures and all places.
