Paul's Letter to the Romans and Roman Imperialism Ian E Rock, 2017-05-25 Ian E Rock demonstrates that the Letter to the Romans may be seen as an attempt by a subordinate group to redress actual and potential issues of confrontation with the Empire and to offer hope even in the face of death Paul demonstrates that it is God's peace and not Rome's peace that is important that loyalty to the exalted Jesus as Lord and to the kingdom of God not Jupiter and Rome leads to salvation that grace flows from Jesus as Christ and Lord and not from the benefactions of the Emperor If the resurrection of Jesus the crucified criminal of the Roman Empire demonstrates God's power over the universe and death the very instrument of Roman control then the Christ believer is encouraged to face suffering and death in the hope of salvation through this power Paul's theology emerges from and is inextricably bound to the politics of his day the Scriptures of his people and to the critical fact that the God who is One and Lord of all is still in charge of the world *Roads to Decolonisation* Amy Duvenage, 2024-04-16 Roads to Decolonisation An Introduction to Thought from the Global South is an accessible new textbook that provides undergraduate students with a vital introduction to theory from the Global South and key issues of social justice arming them with the tools to theorise and explain the social world away from dominant Global North perspectives Arranged in four parts it examines key thinkers activists and theory work from the Global South theoretical concepts and socio historical conditions associated with race and racism gender and sexuality identity and unbelonging in a globalised world and decolonisation and education challenges to dominant Euro American perspectives on key social justice issues linking decolonial discourses to contemporary case studies Each chapter offers an overview of key thinkers and activists whose work engages with social justice issues many of whom are under represented or left out of undergraduate humanities and social sciences textbooks in the North This is essential reading for students of the humanities and social sciences worldwide as well as scholars keen to embed Southern thought in their curricula and pedagogical practice The Globalization of World Politics John Baylis, Steve Smith, Patricia Owens, 2020 The best selling introduction to international relations offers the most comprehensive coverage of the key theories and global issues in world politics written by the leading experts in the field **Globe Fearon Global Studies: Teacher's resource manual**, 1997 A Companion to Contemporary Design since 1945 Anne Massey, 2019-03-26 A critical overview of contemporary design and its place within the broader context of art history A Companion to Contemporary Design since 1945 introduces readers to a collection of specially commissioned essays exploring the complex areas of design that emerged through the latter half of the twentieth century design history design methods design studies and more recently design thinking The book delivers a thoughtful overview of all design disciplines and also strives to stimulate inter disciplinary debate and examine unconsidered convergences among design applications in different fields By offering a new perspective on design the articles assembled here present a challenging account of the boundaries between design history and its cognate disciplines especially art history

The volume comprises five sections Time Place Space Objects and Audiences that discuss environments for design and how we interact with designed objects and spaces Notable features include 24 new essays reflecting the current state of design history and theory and examining developments on a global basis Contributions by eminent scholars and practitioners from around the globe Enriched throughout with illustrations A Companion to Contemporary Design since 1945 provides a new and thought provoking revision of our conception and understanding of contemporary design that will be essential reading for students at both undergraduate and graduate levels as well as researchers and teachers working in design history theory and practice and in related fields
