Copol Kids Draw Cartoons:

The Cute and the Cool Gary Cross, 2004-04-01 The twentieth century was by any reckoning the age of the child in America Today we pay homage at the altar of childhood heaping endless goods on the young reveling in memories of a more innocent time and finding solace in the softly backlit memories of our earliest years We are the proclamation goes just big kids at heart And accordingly we delight in prolonging and inflating the childhood experiences of our offspring In images of the naughty but nice Buster Brown and the coquettish but sweet Shirley Temple Americans at mid century offered up a fantastic world of treats toys and stories creating a new image of the child as cute Holidays such as Christmas and Halloween became blockbuster affairs vehicles to fuel the bedazzled and wondrous innocence of the adorable child All this Gary Cross illustrates reflected the preoccupations of a more gentle and affluent culture but it also served to liberate adults from their rational and often tedious worlds of work and responsibility But trouble soon entered paradise The cute turned into cool as children following their parental example embraced the gift of fantasy and unrestrained desire to rebel against the saccharine excesses of wondrous innocence in deliberate pursuit of the anti cute Movies comic books and video games beckoned to children with the allures of an often violent sexualized and increasingly harsh worldview Unwitting and resistant accomplices to this commercial transformation of childhood adults sought over and over again in repeated and predictable cycles to rein in these threats in a largely futile jeremiad to preserve the old order Thus the cute child deliberately manufactured and cultivated has ironically fostered a profoundly troubled ambivalence toward youth and child rearing today Expertly weaving his way through the cultural artifacts commercial currents and parenting anxieties of the previous century Gary Cross offers a vibrant and entirely fresh portrait of the forces that have defined American childhood The "I" of the Beholder Annemarie Roeper, 2007 In this book the author describes the complexity of the Self as the source of all human behavior She will try to outline the structure of the Self its normal growth and development and the role of interaction with other living things in this process Ms Roeper sees the Self as a unit within us which includes input from the brain and all other functions of the body This book explores how the inclusion of the concept of soul or psyche or Self can change the methods priorities and goals of society and parenting This in turn could change how each child and ourselves are viewed and have an impact on our every action and reaction whether in the boardroom the bedroom or the classroom The book begins with a Foreword Preface and Introduction Chapters are 1 The Self Its Existence and Its Power 2 The Birth of the Self 3 The Curriculum of Growth of the Self 4 The Growing Self and Its Continuing Encounter with the World The Evolution of the Curriculum of Growth of the Self 5 Relationships and the Self 6 Learning about an Expanded Reality 7 Legitimacy 8 The New Children and the Unexpected New Perspective 9 Self Actualization and Interdependence 10 Qualitative Assessment An Alternative to the iq Test 11 My Own Personal Journey and 12 Growing Up Gifted References and endnotes are included Attitude 3 Ted Rall, 2006 This is a caustic collection of the top political and social e cartoonists of today It offers the best
