Last Outlaws Peter Josyph, 2025-06-27 This work is the most extensive examination to date of the Pulitzer Prize winning novelist's collaboration with director Ridley Scott on realizing McCarthy's controversial screenplay *The Counselor* and it takes an equally close look at McCarthy's final masterwork *The Passenger* Having interpreted in music painting film lectures and three previous books the man he calls our Rhode Island Shakespeare the author draws on a wide range of sources from theatre cinema philosophy and literature for an unsparing critique of what he calls Late McCarthy and of trends in recent Cormac McCarthy criticism

Cormac McCarthy and the Ghost of Huck Finn Leslie Harper Worthington, 2012-01-09 Mark Twain once wrote We are nothing but echoes Despite this pronouncement Twain's voice continues to reverberate in the 21st century Twain's *Adventures of Huckleberry Finn* helped define modern American literature creating The Huck Finn Tradition in contemporary writing This volume discusses the intertextual connections between Twain's iconic novel and eight works by celebrated American author Cormac McCarthy including *Suttree* *The Orchard Keeper* *Blood Meridian* *All the Pretty Horses* *The Crossing* *Cities of the Plain* *No Country for Old Men* and *The Road* By chronicling the diverse scholarly comparisons between Twain and McCarthy and exploring the echoes of Twain and Huck Finn in McCarthy's writing this study reveals how McCarthy has not only absorbed Twain's tradition but transformed it with consequences that surpass the work of other Twain heirs

Hypermasculinities in the Contemporary Novel Josef Benson, 2014-07-16 Issues of race gender women's rights masculinity and sexuality continue to be debated on the national scene These subjects have also been in the forefront of American literature particularly in the last fifty years One significant trend in contemporary fiction has been the failure of the heroic masculine protagonist In *Hypermasculinities in the Contemporary Novel* Cormac McCarthy Toni Morrison and James Baldwin Josef Benson examines key literary works of the twentieth century notably *Blood Meridian* 1985 *All the Pretty Horses* 1992 *Song of Solomon* 1977 and *Another Country* 1960 Benson argues that exaggerated masculinities originated on the American frontier and have transformed into a definition of ideal masculinity embraced by many southern rural American men Defined by violence racism sexism and homophobia these men concocted or perpetuated myths about African Americans to justify their mistreatment and mass murder of black men after Reconstruction As Benson illustrates the protagonists in these texts fail to perpetuate hypermasculinities and as a result a sense of ironic heroism emerges from the narratives Offering a unique and bold argument that connects the masculinities of cowboys and frontier figures with black males *Hypermasculinities in the Contemporary Novel* suggests alternative possibilities for American men going forward Scholars and students of American literature and culture African American literature and culture and queer and gender theory will find this book illuminating and persuasive

Cormac McCarthy K. Lincoln, 2008-12-22 This book is a guide to Cormac McCarthy's canon from *The Road* to *All the Pretty Horses* delving into the dominant themes in his work his influences from Faulkner to Dante and the current cultural debates his books have figured into

[Religion in Cormac McCarthy's Fiction](#) Manuel Broncano, 2013-11-20 This book addresses the religious scope of Cormac McCarthy's fiction one

of the most controversial issues in studies of his work Current criticism is divided between those who find a theological dimension in his works and those who reject such an approach on the grounds that the nihilist discourse characteristic of his narrative is incompatible with any religious message McCarthy's tendencies toward religious themes have become increasingly more acute revealing that McCarthy has adopted the biblical language and rhetoric to compose an apocryphal narrative of the American Southwest while exploring the human innate tendency to evil in the line of Herman Melville and William Faulkner both literary progenitors of the writer Broncano argues that this apocryphal narrative is written against the background of the Bible a peculiar Pentateuch in which Blood Meridian functions as the Book of Genesis the Border Trilogy functions as the Gospels and No Country for Old Men as the Book of Revelation while The Road is the post apocalyptic sequel This book analyzes the novels included in what Broncano defines as the South Western cycle from Blood Meridian to The Road in search of the religious foundations that support the narrative architecture of the texts **Mere Reading** Lee Clark Mitchell, 2017-04-20 Argues through close readings of twentieth century American novels for a return to the foundations of literary study **Catholicism and American Borders in the Gothic Literary Imagination** Farrell O'Gorman, 2017-11-15 In Catholicism and American Borders in the Gothic Literary Imagination Farrell O Gorman presents the first study of the recurrent role of Catholicism in a Gothic tradition that is essential to the literature of the United States In this tradition Catholicism is depicted as threatening to break down borders separating American citizens or some representative American from a larger world beyond While earlier studies of Catholicism in the American literary imagination have tended to highlight the faith's historical association with Europe O Gorman stresses how that imagination often responds to a Catholicism associated with Latin America and the Caribbean On a deeper level O Gorman demonstrates how the Gothic tradition he traces here builds on and ultimately transforms the persistent image in modern Anglophone literature of Catholicism as a religion without a country indeed a religion inimical to nationhood O Gorman focuses on the work of J Hector St John de Crèvecoeur Herman Melville Kate Chopin William Faulkner Flannery O'Connor Walker Percy Cormac McCarthy and selected contemporary writers including Toni Morrison These authors representing historical periods from the early republic to the present day have distinct experiences of borders within and around their nation and hemisphere itself an ever emergent America As O Gorman carefully documents they also have distinct experiences of Catholicism and distinct ways of imagining the faith often shaped at least in part within the Church itself In their narratives Catholicism plays a complicated and profound role that ultimately challenges longstanding notions of American exceptionalism and individual autonomy This analysis contributes not only to discourse regarding Gothic literature and nationalism but also to a broader ongoing dialogue regarding religion secularism and American literature Evil and Creation David Luy, Matthew Levering, George Kalantzis, 2020-12-02 My help comes from the Lord maker of heaven and earth Evil is an intruder upon a world created by God and declared good Scripture emphasizes this laments are regularly juxtaposed with declarations of God as creator But

evil is not merely a problem for the doctrine of creation Rather the doctrine of creation provides a hopeful response to evil In *Evil and Creation* David J Luy Matthew Levering and George Kalantzis collect essays investigating how the doctrine of creation relates to moral and physical evil Essayists pursue philosophical and theological analyses of evil rather than neatly solving the problem of evil itself Including contributions from Constantine Campbell Paul Blowers and Paul Gavrilyuk this volume draws upon biblical and patristic voices to produce constructive theology considering topics ranging from vanity in Ecclesiastes and its patristic interpreters to animal suffering Readers will gain a broader appreciation of evil and how to faithfully respond to it as well as a renewed hope in God as creator and judge Failed Frontiersmen James J.

Donahue,2015-02-04 In *Failed Frontiersmen* James Donahue writes that one of the founding and most persistent mythologies of the United States is that of the American frontier Looking at a selection of twentieth century American male fiction writers E L Doctorow John Barth Thomas Pynchon Ishmael Reed Gerald Vizenor and Cormac McCarthy he shows how they reevaluated the historical romance of frontier mythology in response to the social and political movements of the 1960s particularly regarding the Vietnam War civil rights and the treatment of Native Americans Although these writers focus on different moments in American history and different geographic locations the author reveals their commonly held belief that the frontier mythology failed to deliver on its promises of cultural stability and political advancement especially in the face of the multicultural crucible of the 1960s *Cultural Frames Framing Culture American Literatures Initiative* **Priest,**

Prophet, Pilgrim Todd Edmondson,2014-02-14 *Priest Prophet Pilgrim* Types and Distortions of Spiritual Vocation in the Fiction of Wendell Berry and Cormac McCarthy provides a reading of characters in the novels and short stories of two important contemporary American writers through the lens of spiritual theology Applying the work of Rowan Williams Nicholas Lash and others Edmondson constructs a theological framework that takes seriously the notion of Christian spirituality not as an invitation to flee from this world but rather as a way of life that seeks reconciliation and joy within this world encountering and embracing God's presence within everyday existence in the contexts of such realities as corporeality communities and the created order as a whole This framework is then applied to the fiction of two American authors Wendell Berry and Cormac McCarthy By comparing these writers the characters they create and the worldviews that shape their narratives *Priest Prophet Pilgrim* demonstrates in ways that can be applied to other works and other characters how the reading of fiction can inform the pursuit of the spiritual life Space, Gender, and the Gaze in Literature and Art Ágnes

Zsófia Kovács,László B. Sári,2017-01-06 This volume explores how the concepts of space and gaze are tied in with social constructions of gender relations It discusses the gendered body the queer gaze the relationship between body and memory the memory of war monstrosity and also domestic and hybrid spaces as key concepts The arguments within the book connect core theoretical issues of gender and space to well known literary texts and contexts like the poems of Sylvia Plath and the novels of Don DeLillo Toni Morrison and Cormack McCarthy The collection will be of interest to university students and

instructors alike as an extended introduction to critical and theoretical discourses on gender and space In Search of Humanity Andrea Radasanu, 2015-03-18 This collection of essays offered in honor of the distinguished career of prominent political philosophy professor Clifford Orwin provides a wide context in which to consider the rise of humanity as one of the chief modern virtues A relative of and also a replacement for formerly more prominent other regarding virtues like justice and generosity humanity and later compassion become the true north of the modern moral compass Contributors to this volume consider various aspects of this virtue by comparison with what came before and with attention to its development from early to late modernity and up to the present Possibility's Parents Margaret Seyford Hrezo, Nicholas Pappas, 2019-10-23 This book links the questions people ask about why things exist why the world is the way it is and whether and how it is possible to change their society or world with the societal myths they develop and teach to answer those questions and organize and bring order to their communal lives It also is about the need for change in western societies current organizing concept classical Lockean liberalism Despite the attempts of numerous insightful political thinkers the myth of classical liberalism has developed so many cracks that it cannot be put back together again If not entirely failed it is at this point unsalvageable in its present form Never the thought of just one person the liberal model of individual religious political and economic freedom developed over hundreds of years starting with Martin Luther's dictum that every man should be his own priest Although classical liberalism means different things to different people at its most basic level this model sees human beings as individuals who exist prior to government and have rights over government and the social good That is the individual right always trumps the moral and social good and individuals have few obligations to one another unless they actively choose to undertake them Possibility's Parents argues that Lockean liberalism has reached the end of its logic in ways that make it unable to handle the western world's most pressing problems and that novelists whose writing includes the form and texture of myth have important insights to offer on the way forward
