Core Competencies for Psychiatric Education Linda Boerger Andrews, John W. Burruss, 2008-05-20 The Accreditation Council for Graduate Medical Education endorsed six General and five Psychiatric Competencies to be attained by psychiatric residents As a result these General Patient Care Medical Knowledge Practice Based Learning and Improvement Interpersonal and Communication Skills Professionalism and Systems Based Practice and Psychiatric Brief Therapy Cognitive Behavioral Therapy Psychodynamic Psychotherapy Psychotherapy Combined With Psychopharmacology and Supportive Therapy Competencies are now being phased in for all core residency training programs in the United States This volume coauthored by the director and the associate director of general psychiatric residency education at Baylor College of Medicine is a practical guide for educators working to incorporate the Competencies into their residency programs It will help training directors and others involved in designing and implementing residency programs to ensure that residents develop all of the Competencies to the level expected of a new practitioner as

required by ACGME The book Lists the specific knowledge skills and attitudes that must be taught for each of the Competencies and provides example components for each These lists were developed by various groups of experts Describes techniques for effectively providing feedback to residents Chapter titles include How Residents Learn and Develop Competence and How to Assess Learning and Competence Includes example goals and objectives for didactic courses and rotations as well as ACGME s Toolbox of Assessment Methods Offers handy to do lists for the program director rotation coordinator and course director as well as an appendix section that contains forms for verifying resident experience evaluating psychotherapy supervision conducting semiannual evaluations and evaluating residents progress Core Competencies for Psychiatric Education is an indispensable guide for anyone trying to learn how best to teach and assess competency based psychiatric curricula

Core Competencies for Psychiatric Practice Stephen C. Scheiber, Thomas A. Kramer, ABPN, 2008-08-13 The practice of medicine has changed radically during the past few decades Patients better informed than ever now demand more of their physicians viewing them as partners rather than revering them as sole decision makers In this environment nonnegotiable core competencies ever evolving and measured by certification recertification and more recently maintenance of certification are more important than ever Written from the perspective of those responsible for educating and certifying the next generations of psychiatrists this groundbreaking compendium by distinguished contributors offers for the first time a concise look at the final product of the June 2001 Invitational Core Competencies Conference sponsored by the American Board of Psychiatry and Neurology ABPN as regards psychiatry with a future comparable publication focusing on neurology Divided into four parts Part I sets the stage for the current concept of physician competence by presenting a brief history of medical competence explaining the logic behind the development of the current competence outline Part II provides two different views of how to look at core competencies how competence is defined by the Royal College of Physicians and Surgeons of Canada and based on some of their work what is currently being done in the United States Part III discusses the organizing principles identified in 1999 by the Accreditation Council for Graduate Medical Education ACGME and the American Board of Medical Specialties ABMS that frame all of our conversations about competence as currently delineated for psychiatrists across the six core competency categories Patient Care Medical Knowledge Interpersonal and Communications Skills Practice Based Learning and Improvement Professionalism and Systems Based Practice Also presented are discussions of when in a physician s career these competencies should be assessed and what methodologies would be appropriate for that assessment Part IV discusses how the psychiatry core competencies are changing board certification and recertification Also presented are informed predictions about the changes that medical school faculty and residency training directors will have to make and how practitioners will have to change behaviors to maintain their board certification Concluding with an appendix outlining the six core competencies for psychiatry this invaluable resource will both help psychiatric residents and their faculty and

training directors understand the core competencies important to the ABPN and provide practitioners with a view of what will be contained in their upcoming maintenance of certification programs now being designed **Psychiatry** Paul Harrison, John Geddes, Michael Sharpe, 2011-11-15 Unsure how to do psychiatry Wondering what psychiatry is all about Want just the key facts Lecture Notes Psychiatry provides essential practical and up to date information for students who are learning to conduct psychiatric interviews and assessments understand the core psychiatric disorders their aetiology and evidence based treatment options It incorporates the latest NICE guidelines and systematic reviews and includes coverage of the Mental Capacity Act and the new Mental Health Act Featuring case studies throughout it is perfect for clinical preparation with example questions to ask patients during clinical rotations Each chapter features bulleted key points while the summary boxes and self test MCQs ensure Lecture Notes Psychiatry is the ideal resource whether you are just beginning to develop psychiatric knowledge and skills or preparing for an end of year exam **Oxford Textbook of Old Age**

Psychiatry Tom Denning, Alan Thomas, Robert Stewart, John-Paul Taylor, 2021 Part of the authoritative Oxford Textbooks in Psychiatry series Oxford Textbook of Old Age Psychiatry Third Edition has been thoroughly updated to reflect the developments in old age psychiatry since publication of the Second Edition in 2013 and remains an essential reference for anyone interested in the mental health care of older people **A Short Introduction to Psychiatry** Linda Gask, 2004-06-22

A Short Introduction to Psychiatry is designed to give readers a clear picture of the profession of psychiatry as it is today as well as an understanding of the subject from which to develop further study The author describes the development of the profession the route to qualification and the scope of contemporary practice including the work done by psychiatrists in a range of specialisms from child psychiatry to addiction services and forensic psychiatry Drawing on the experience of people who have been through psychiatric treatment the book also explores what psychiatry is like from the patient's user's perspective Many criticisms have been levelled against the profession and the author Linda Gask summarizes key debates which have been and continue to be played out between psychiatry's critics and its defenders A Short Introduction to Psychiatry is for anyone looking into psychiatry for the first time whether with a view to training or out of more general interest
