

demonstrated during the Grand Mosque occupation in Mecca in 1979 when the Saudis had to bring in riot control troops from France to put down the revolt.

As against the author's much exaggerated topic of Iran exporting its revolution, there seem to be strong indications that the Gulf war has forced Iran to depend more upon offering itself as an example than exporting its revolution. It is perhaps inevitable that Iran will continue to stand as a source of inspiration. After all, its leaders espouse an ideology that is native to all Muslims. In fact there seems to be evidence that Iranian efforts in actively exporting their revolution have been actually cooled down in order to discourage the Gulf states from arming Iraq in the war. Still, Iran remains as a great source of inspiration for Islamic revolutionaries in other countries.

The image of Iran as presented in the last chapter becomes a radically different one from that in the rest of the book. The first fourteen chapters give the impression of building a crescendo on the threat of Khomeini's regime and the Iranian revolution in the Persian Gulf, and the upheavals that this revolution has caused in the region. Then Ramazani gets to the last chapter where he makes a complete volte-face. Here, quoting Khomeini as saying that the success of the Iranian revolution depends on good relations with the rest of the world, the author's statements that "Iran's barks are worse than its bites," and that Iranian official rhetoric is more belligerent than its intentions, and that the Western accusations of Iranian involvement in violence and destabilizing acts have been overwhelmingly based on circumstantial evidence, bring an unexpected sigh of relief to the reader. This change of tone is incongruent with the one maintained in the previous chapters.

In conclusion, the faulty logic, the analytical shallowness, the limited sources used, and the author's tendency to exaggerate militate against the scholarly value of this book.
