A Castle On The Rhine:

The Castles of the Rhine Robert R. Taylor, 2009-08-04 Far from being mere antiquarian or sentimental curiosities the rebuilt or reused fortresses of the Rhine reflect major changes in Germany and Europe during the nineteenth and early twentieth centuries Taylor begins *The Castles of the Rhine* with a synopsis of the major political social and intellectual changes that influenced castle rebuilding in the nineteenth century He then focuses on selected castles describing their turbulent histories from the time of their original construction through their destruction or decay to their rediscovery in the 1800s and their continued preservation today Reading this book is equivalent to looking at history through a romantic nationalist kaleidoscope Amply illustrated with maps and photographs *The Castles of the Rhine* is a wonderful companion for anyone with dreams or experience of journeying along the Rhine
