Alexander Zinoviev as Writer and Thinker Philip Hanson, Michael Kirkwood, 1988-06-18 *Alexander Zinoviev as Writer and Thinker* Philip Hanson, 1988 Alexander Zinoviev as Writer and Thinker Michael Kirkwood, 1988

Philosophical Thought in Russia in the Second Half of the Twentieth Century Vladislav Lektorsky, Marina F. Bykova, 2019-01-10 *Philosophical Thought in Russia in the Second Half of the 20th Century* is the first book of its kind that offers a systematic overview of an often misrepresented period in Russia's philosophy. Focusing on philosophical ideas produced during the late 1950s to early 1990s, it reconstructs the development of genuine philosophical thought in the Soviet period and introduces those non-dogmatic Russian thinkers who saw in philosophy a means of reforming social and intellectual life. Covering such areas of philosophical inquiry as philosophy of science, philosophical anthropology, the history of philosophy, activity approach, as well as communication and dialogue studies, the volume presents and thoroughly discusses central topics and concepts developed by Soviet thinkers in that particular field. Written by a team of internationally recognized scholars from Russia and abroad, it examines the work of well-known Soviet philosophers such as Mikhail Bakhtin, Evald Ilyenkov, and Merab Mamardashvili, as well as those important figures such as Vladimir Bibler, Alexander Zinoviev, Yuri Lotman, Georgy Shchedrovitsky, Genrich Batishchev, Sergey Rubinstein, and others who have often been overlooked. By introducing and examining original philosophical ideas that evolved in the Soviet period, the book confirms that not all Soviet philosophy was dogmatic and tied to orthodox Marxism and the ideology of Marxism-Leninism. It shows Russian philosophical development of the Soviet period in a new light as a philosophy defined by a genuine discourse of exploration and intellectual progress rather than stagnation and dogmatism. In addition to providing the historical and cultural background that explains the development of the 20th-century Russian philosophy, the book also puts the discussed ideas and theories in the context of contemporary philosophical discussions, showing their relevance to nowadays debates in Western philosophy. With short biographies of key thinkers, an extensive current bibliography, and a detailed chronology of Soviet philosophy, this research resource provides a new understanding of the Soviet period and its intellectual legacy 100 years after the Russian Revolution.

The Afterlife of the 'Soviet Man' Gulnaz Sharafutdinova, 2023-01-26 Almost three decades after the collapse of the Soviet Union, today more often than ever, global media and intellectuals rely on the concept of *homo sovieticus* to explain Russia's authoritarian ills. *Homo sovieticus* or the Soviet man is understood to be a double-thinking, suspicious, and fearful conformist with no morality, an innate obedience to authority, and no public demands; they have been forged in the fires of the totalitarian conditions in which they find themselves. But where did this concept come from? What analytical and ideological pillars does it stand on? What is at stake in using this term today? *The Afterlife of the Soviet Man* addresses all these questions and even explains why, at least in its contemporary usage, this concept should be abandoned altogether. Cornwell,2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public

Mothers and Masters in Contemporary Utopian and Dystopian Literature Mary Elizabeth Theis,2009 Because advances made by science and technology far outstripped improvements in human nature utopian dreams of perfect societies in the twentieth century quickly metamorphosed into dystopian nightmares which undermined individual identity and threatened the integrity of the family Armed with technological and scientific tools totalizing social systems found in literature abolish the distinction between public and private life and thus penetrate and corrupt the very core of all utopian blueprints and visions the education of future generations At the heart of the family mothers as parents transmit their diverse cultural traditions while socializing their children and thus compete with ideologically driven systems that usurp their role as educators Mothers and Masters in Contemporary Utopian and Dystopian Literature focuses therefore on the thematic importance of this and other maternal roles for generic metamorphosis the shift to dystopia invariably is signaled by the inversion of traditional maternal roles The longevity of the utopian dystopian literary tradition and persistence of the maternal model of human relationships serve as points of reference in this post modern age of relative cultural values Meta utopian exploration of this thematic tension between utopia and dystopia reminds us that no place may not be home but we need to keep going there

Ideology in Russian Literature Richard Freeborn,Jane Grayson,2016-01-15 The contributions in this volume which is part of a series examine the connection between literature and ideas in important 19th century instances The editor contends that they demonstrate that Russian literature often subverts the ideology to suit its own autonomous needs

Modernisation in Russia since 1900 Markku Kangaspuro,Jeremy Smith,2006-12-27 Modernisation has been a constant theme in Russian

history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia

Russian Experimental Fiction Edith W. Clowes, 2014-07-14 In the three decades following Stalin's death major underground Russian writers have subverted Soviet ideology by using parody to draw attention to its basis in utopian thought Referring to utopian writing as diverse as Defoe's Robinson Crusoe Dostoevsky's Notes from Underground and Orwell's Animal Farm they have tested notions of truth reality and representation They have gone beyond their precursors by experimenting with the tensions between ludic and didactic art Edith Clowes explores these meta utopian narratives which address a wide range of attitudes toward utopia to expose the challenge that literary play poses to dogmatism and to elucidate the sense of renewal it can bring to social imagination Using both structural analysis and reception theory she introduces readers outside Russia to a fascinating body of literature that includes Aleksandr Zinoviev's The Yawning Heights Abram Terts's Liubimov Vladimir Voinovich's Moscow 2042 and Liudmila Petrushevskaia's The New Robinsons Not advocating its own utopian alternative to current social realities meta utopian fiction investigates the function of a deep human impulse to imagine project and enforce alternative social orders Clowes examines the technical innovations meta utopian writers have made in style image and narrative structure that inform fresh modes of social imagination Her analysis leads to an inquiry into the intended and real audiences of this fiction and into the ways its authors try to move them toward more sophisticated social discourse Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Unvarnishing Reality Derek C. Maus, 2012-10-15 *Unvarnishing Reality* draws original insight to the literature politics history and culture of the cold war by closely examining the themes

and goals of American and Russian satirical fiction As Derek C Maus illustrates the paranoia of nuclear standoff provided a subversive storytelling mode for authors from both nations including Thomas Pynchon Robert Coover John Barth Walker Percy Don DeLillo Kurt Vonnegut Jr Vasily Aksyonov Yuz Aleshkovsky Alexander Zinoviev Vladimir Voinovich Fazil Iskander and Sasha Sokolov Maus surveys the background of each nation s culture language sociology politics and philosophy to map the foundation on which cold war satire was built By highlighting common themes of utopianism technology and propaganda Maus effectively shows the ultimate motive of satirists on both sides was to question the various forces contributing to the cold war and to expose the absurdity of the continuous tension that pulsed between the United States and the Soviet Union for nearly half a century Although cold war literature has been studied extensively few critics have focused so keenly on comparisons of satirical fictions by Russian and American writers that condemn and subvert the polarizing ideologies inherent in superpower rivalry Such a comparison reveals thematic and structural similarities that transcend specific national and cultural origins In considering these works together Maus locates a thoroughgoing humanistic refutation of the cold war and its operative doctrines as well as a range of proposed alternatives Just as the cold war combatants ultimately reconciled in 1991 with the fall of the Soviet Union Maus seeks to bring these two literary canons together now Their thematic scope transcends cultural differences and as Maus demonstrates these writers saw that there was not only the atomic bomb to fear but also the dangers of complete national militarization and the constant polarizing threat of emergency Thus their cold war critiques still resonate today and invite further comparative studies such as this one

Russia as a Network State V. Kononenko,A. Moshes,2011-04-28 Discusses the ambiguous nature of the state in Russia focusing on elite networks and their role in policy processes This book examines the paradoxical dualism of state institutions and ruling networks providing answers as to why some decisions are not implemented and why the state exists despite the systemic inefficiency of its institutions

Ideas Against Ideocracy Mikhail Epstein,2021-09-09 Winner of the Aldo and Jeanne Scaglione Prize for Studies in Slavic Languages and Literatures awarded by the Modern Languages Association This groundbreaking work by one of the world s foremost theoreticians of culture and scholars of Russian philosophy gives for the first time a systematic examination of the development of Russian philosophy during the late Soviet period Countering the traditional view of an intellectual wilderness under the Soviet regime Mikhail Epstein provides a comprehensive account of Russian thought of the second half of the 20th century that is highly sophisticated without losing clarity It provides new insights into previously mostly ignored areas such as late Soviet Russian nationalism and Eurasianism religious thought cosmism and esoterism and postmodernism and conceptualism Epstein shows how Russian philosophy has long been trapped in an intellectual prison of its own making as it sought to create its own utopia However he demonstrates that it is time to reappraise Russian thought now freed from the bonds of Soviet totalitarianism and ideocracy but nevertheless dangerously engaged into new nationalist aspirations and metaphysical radicalism We are left with not only a new and exciting

interpretation of recent Russian intellectual history but also the opportunity to rethink our own philosophical heritage

Under Eastern Eyes Arnold McMillin, 1992-01-20 This collection of essays concerns perceptions of the West as reflected in the work of Russian writers of the Third Wave of emigration The authors include several well known writers such as Aksenov Gladilin Zinik and Loseff as well as Soviet and Western scholars and the result is both varied and surprising in the light it throws on the Russian mentality on the phenomenon of exile and on aspects of the West It will interest students of contemporary literature of the Soviet mentality and of exile in general
