Van Belle, 2014-05-29 Scholars of international relations and international communications view the extent of media freedom from country to country as a key comparative indicator either by itself or in correlation with other indices of national political and economic development This indicator serves as a bellwether for gauging the health and spread of democracy Historical Guide to World Media Freedom brings together comprehensive historical data on media freedom since World War II providing consistent and comparable measures of media freedom in all independent countries for the years 1948 to the present The work also includes country by country summaries analyses of historical and regional trends in media freedom and extensive reliability analyses of media freedom measures The book s detailed information helps researchers connect historical measures of media freedom

to Freedom House's annual Freedom of the Press survey release enabling them to extend their studies back before the 1980s when Freedom House began compiling global press freedom measures. Key Features A to Z country by country summaries of the ebb and flow of media freedom are paired with national media freedom measures over time. Introductory chapters discuss such topics as the theoretical premises behind the nature and importance of media freedom, historical trends and the challenges of coding for media freedom in a way that ensures consistency for comparison. Concluding material covers the historical patterns in media freedom, how media freedom tracks with other cross-national indicators and more. Television, Tabloids, and Tears Jane Shattuc, 1995. I am Biberkopf. Rainer Werner Fassbinder declared aligning himself with the protagonist of his widely seen television adaptation of Berlin Alexanderplatz. The statement provoked an unprecedented national debate about what constituted an acceptable German artist and who has the power to determine art. More than any recent German director, Fassbinder embodied this debate and Jane Shattuc shows us how much this can tell us not just about the man and his work but also about the state of culture in Germany. It is fascinating in itself that Fassbinder, a highly controversial public figure.

Broadcasting Freedom Arch Puddington, 2021-05-11. Among America's most unusual and successful weapons during the Cold War were Radio Free Europe and Radio Liberty (RFE/RL). It had its origins in a post-war America brimming with confidence and secure in its power. Unlike the Voice of America, which conveyed a distinctly American perspective on global events, RFE/RL served as surrogate home radio services and a vital alternative to the controlled party-dominated domestic press in Eastern Europe. Over twenty stations featured programming tailored to individual countries. They reached millions of listeners ranging from industrial workers to dissident leaders such as Lech Wałęsa and Václav Havel. Broadcasting Freedom draws on rare archival material and offers a penetrating insider history of the radios that helped change the face of Europe. Arch Puddington reveals new information about the connections between RFE/RL and the CIA, which provided covert funding for the stations during the critical start-up years in the early 1950s. He relates in detail the efforts of Soviet and Eastern Bloc officials to thwart the stations; their tactics ranged from jamming attempts, assassinations of radio journalists, the infiltration of spies onto the radios' staffs and the bombing of the radios' headquarters. Puddington addresses the controversies that engulfed the stations throughout the Cold War, most notably RFE/RL broadcasts during the Hungarian Revolution that were described as inflammatory and irresponsible. He shows how RFE/RL prevented the Communist authorities from establishing a monopoly on the dissemination of information in Poland and describes the crucial roles played by the stations as the Berlin Wall came down and the Soviet Union broke apart. Broadcasting Freedom is also a portrait of the Cold War in America. Puddington offers insights into the strategic thinking of the RFE/RL leadership and those in the highest circles of American government, including CIA directors, secretaries of state and even presidents.
