Alexander Cameron Rutherford A Gentleman Of Strathcona:

Alexander Cameron Rutherford Douglas R. Babcock,1980 *A Gentleman of Strathcona* Douglas R. Babcock,1980
Alexander Cameron Rutherford Douglas R. Babcock,Friends of Rutherford House,1989 *Alberta Premiers of the Twentieth Century* University of Regina. Canadian Plains Research Center,2004 From the optimism associated with provincial status in 1905 through the trials of Depression and war the boom times of the post war period and the economic vagaries of the 1980s and the 1990s the twentieth century was a time of growth and hardship development and change for Alberta and its people And during the century twelve men from a variety of political parties and from very different backgrounds led the government of this province The names of some like William Aberhart Ernest Manning and Peter Lougheed are still household names while others like Arthur Sifton Herbert Greenfield and Richard Reid have been all but forgotten Yet each in his unique way for better or for worse helped to mould and steer the destiny of the province he governed These are their stories Government and Politics in Alberta Allan Tupper,Roger Gibbins,1992 Alberta s politics are changing in response to powerful economic social and political forces The contributors focus on developments since the election of the Progressive Conservatives in 1971 *A Business History of Alberta* Henry Cornelius Klassen,1999 Klassen looks at the role businesses have played in the economic political and social development of the province since the earliest European traders Relying heavily on analysis and case studies he considers the birth of business firms and the subsequent effects they have had on broader political and cultural matters Canadian card order number C99 910550 7 Annotation copyrighted by Book News Inc Portland OR **Will the Real Alberta Please Stand Up?** Geo Takach,2010-12-01 One little question propels both author and reader on a genre bending quest to find the elusive essence of a Canadian province built on sturdy stereotypes of oil spoiled beef eating bible thumping rednecks devoid of class or culture Through essay interview colourful observation and whatever other expos it takes to amplify the hyperbolic absurdity of seeking a simple answer to an incendiary question Geo Takach spotlights the cultural complexity of this perplexing province Readers will be delightfully edified after a dizzying romp around Wild Rose Country with Geo and a cast of citizens and celebs alive and dead I Was There Ellen Schoeck,2006-10-01 I Was There shares the insights and experiences of the generations of students professors and staff who lived and worked at the U of A for the past 100 years First person stories and period photographs present a unique insight into university lore from the vantage point of those who were most intimately involved in making the university what it is today the students and alumni Foreword by Hon Jim Edwards PC *From Seminary to University* Aaron Hughes,2020-05-12 This book provides the first historical examination of the study of religion in Canada While secular departments of religious studies would not emerge in Canada until the late 1960s the teaching of religion under the guise of divinity theology the Bible and moral philosophy has been omnipresent for much of the country s history The gradual transformation from the teaching of religious truths at denominational theological colleges to the non denominational and

secular study of religion at universities was a lengthy and complicated one From Seminary to University examines this transformation against a much broader backdrop It is not simply the history of individual departments scattered across the nation Instead the story reveals the many non academic forces that made those departments possible such as the creation of the United Church of Canada the adoption of multiculturalism and the introduction of the Charter of Rights and Freedoms In recounting this transformation From Seminary to University illuminates an important part of Canadian history **Forging Alberta's Constitutional Framework** Richard Connors, John M. Law, University of Alberta. Centre for Constitutional Studies, 2005-11 Forging Alberta's Constitutional Framework analyzes the principal events and processes that precipitated the emergence and formation of the law and legal culture of Alberta from the foundation of the Hudson's Bay in 1670 until the eve of the centenary of the Province in 2005 The formation of Alberta's constitution and legal institutions was by no means a simple process by which English and Canadian law was imposed upon a receptive and passive population Challenges to authority latent lawlessness interaction between indigenous and settler societies periods pre and post 1905 of jurisdictional confusion and demands for individual group and provincial rights and recognitions are as much part of Alberta's legal history as the heroic and mythic images of an emergent and orderly Canadian west patrolled from the outset by red coated mounted police and peopled by peaceful and law abiding subjects of the Crown Papers focus on the development of criminal law in the Canadian west in the nineteenth century the Natural Resources Transfer Agreement of 1930 the National Energy Program of the 1980s Federal Provincial relations and the role and responsibilities of the offices of Justices of the Peace and of the Lieutenant Governor and the legacies of the Lougheed and Klein governments Foundations of Justice David Mittelstadt, 2005 Based on original research this exhaustive volume provides a rich background to Alberta's historic courthouses Covering in detail all of Alberta's historic courthouses built between 1874 and 1950 this book considers many facets of these unique and significant structures **The Limits of Labour** David Bright, 2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright explores the various levels of class formation and class identity in the city to argue that Calgary's reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left the labour movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of Social Credit Using Calgary as a model The Limits of Labour reasserts the need to place class formation at the heart of the development of western

Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s **The World is My Classroom** Joanne Benham Rennick, Michel Desjardins, 2013-01-01 International education and learn abroad programs have received heightened interest in the knowledge economy and universities are keen to create successful programs for students The World Is My Classroom presents diverse perspectives on these experiential learning programs and ways of globalizing Canadian classrooms Examining themes such as global education global citizenship and service learning it sheds light on current debates that are of concern for faculty members administrators international partners and students alike The World Is My Classroom is the first book to examine pedagogical questions about the internationalization and globalization of higher education from an explicitly Canadian perspective It features original reflections from students on their experiences in learn abroad programs as well a foreword by Craig and Marc Kielburger founders of Free the Children and Me to We on the benefits of international learning experiences Universities considering developing enhancing and refining their learning abroad programs as well as students considering these programs and experiences will find this an insightful and useful book
