The Columbia History of American Television Gary Edgerton, 2007-10-12 Television is a form of media without equal It has revolutionized the way we learn about and communicate with the world and has reinvented the way we experience ourselves and others More than just cheap entertainment TV is an undeniable component of our culture and contains many clues to who we are what we value and where we might be headed in the future Media historian Gary R Edgerton follows the technological developments and increasing cultural relevance of TV from its prehistory before 1947 to the Network Era 1948 1975 and the Cable Era 1976 1994 He begins with the laying of the first telegraph line in 1844 which gave rise to the idea that images and sounds could be transmitted over long distances He then considers the remodeling of television's look and purpose during World War II the gender racial and ethnic components of its early broadcasts and audiences its transformation of postwar America and its function in the political life of the country He talks of the birth of prime time and cable the influence of innovators like Sylvester Pat Weaver Roone Arledge and Ted Turner as well as television's entrance into the international market describing the ascent of such programs as Dallas and The Cosby Show and the impact these exports have had on transmitting American culture abroad Edgerton concludes with a discerning look at our current Digital Era 1995 present and the new forms of instantaneous communication that continue to change America's social political and economic landscape Richly researched and engaging Edgerton's history tracks television's growth into a convergent technology a global industry a social catalyst a viable art form and a complex and dynamic reflection of the American mind and character It took only ten years for television to penetrate thirty five million households and by 1983 the average home kept their set on for more than seven hours a day The Columbia History of American Television illuminates our complex relationship with this singular medium and provides historical and critical knowledge for understanding TV as a technology an industry an art form and an institutional force

Democratic Communications James F. Hamilton, 2009-08-01 This is the first book to take issue with the long standing assumptions about alternative media and democratic communications and place them in a detailed cultural and historical context Ranging from prophecy in sixteenth century England to the self managed projects of critical literacy and social change of today it assesses the historical heritage present conditions and future possibilities of today's remade media landscape for democratic communications

Methods of Historical Analysis in Electronic Media Donald G. Godfrey, 2006-08-15 Methods of Historical Analysis in Electronic Media provides a foundation for historical research in

electronic media by addressing the literature and the methods traditional and the eclectic methods of scholarship as applied to electronic media It is about history broadcast electronic media history and history that has been broadcast and also about the historiography research written and the research yet to be written Divided into five parts this book addresses the challenges in the application of the historical methods to broadcast history reviews the various methods appropriate for electronic media research based on the nature of the object under study suggests new approaches to popular historical topics takes a broad topical look at history in broadcasting and provides a broad overview of what has been accomplished a historian s challenges and future research Intended for students and researchers in broadcast history *Methods of Historical Analysis in Electronic Media* provides an understanding of the qualitative methodological tools necessary for the study of electronic media history and illustrates how to find primary sources for electronic media research *Residual Media* Charles R. Acland,2007 In a society that awaits the new in every medium what happens to last year s new From player pianos to vinyl records and from the typewriter to the telephone *Residual Media* is an innovative approach to the aging of culture and reveals that ultimately new cultural phenomena rely on encounters with the old *Journalism History and Digital Archives* Henrik Bødker,2020-12-17 This book showcases various ways in which digital archives allow for new approaches to journalism history The chapters in this book were selected based on three overall objectives 1 research that highlights specific concerns within journalism history through digital archives 2 discussions of digital methodologies as well as specific applications that are accessible for journalism scholars with no prior experiences with such approaches and 3 that journalism history and digital archives are connected in other ways than through specific methods i e that the connection raises larger questions of historiography and power The contributions address cases and developments in Asia South and North America and Europe and range from long range big data machine leaning and topic modelling studies of journalistic characteristics and meta journalistic discourses to critiques of archival practices and access in relation to gender social movements and poverty The chapters in this book were originally published as a special issue of *Digital Journalism* **Censoring Sex** John E. Semonche,2007-07-20 In this gracefully written accessible and entertaining volume John Semonche surveys censorship for reasons of sex from the nineteenth century up to the present He covers the various forms of American media books and periodicals pictorial art motion pictures music and dance and radio television and the Internet The tale is varied and interesting replete with a stock of colorful characters such as Anthony Comstock Mae West Theodore Dreiser Marcel Duchamp Opie and Anthony Judy Blume Jerry Falwell Alfred Kinsey Hugh Hefner and the Guerilla Girls Covering the history of censorship of sexual ideas and images is one way of telling the story of modern America and Semonche tells that tale with insight and flair Despite the varieties of censorship running from self censorship to government bans a common story is told Censorship whether undertaken to ward off government regulation to help preserve the social order or to protect the weak and vulnerable proceeds on the assumption that the censor knows best and that limiting the choices of media consumers is

justified At various times all of the following groups were perceived as needing protection from sexually explicit materials children women the lower classes and foreigners As social and political conditions changed however the simple fact that someone was a woman or a day laborer did not support stereotyping that person as weak or impressionable What would remain as the only acceptable rationale for censorship of sexual materials was the protection of children and unconsenting adults For each mode of media Semonche explains via abundant examples how and why censorship took place in America Censoring Sex also traces the story of how the cultural territory contested by those advocating and opposing censorship has diminished over the course of the last two centuries Yet Semonche argues the censorship of sexual materials that continues in the United States poses a challenge to the free speech that is part of the foundation upon which the nation is built Indeed in an era in which sexual images are pervasive and the need for reliable information about sex and sexuality is growing he questions the remaining rationales for censorship and the justification for placing obscenity outside the protection of the U S Constitution

Radio's Second Century John Allen Hendricks, 2020-03-13 Winner of the 2022 Broadcast Education Association Book Award One of the first books to examine the status of broadcasting on its one hundredth anniversary *Radio's Second Century* investigates both vanguard and perennial topics relevant to radio's past present and future As the radio industry enters its second century of existence it continues to be a dominant mass medium with almost total listenership saturation despite rapid technological advancements that provide alternatives for consumers Lasting influences such as on air personalities audience behavior fan relationships and localism are analyzed as well as contemporary issues including social and digital media Other essays examine the regulatory concerns that continue to exist for public radio commercial radio and community radio and discuss the hindrances and challenges posed by government regulation with an emphasis on both American and international perspectives Radio's impact on cultural hegemony through creative programming content in the areas of religion ethnic inclusivity and gender parity is also explored Taken together this volume compromises a meaningful insight into the broadcast industry's continuing power to inform and entertain listeners around the world via its oldest mass medium radio

News for All the People Joseph Torres, Juan González, 2012-09-11 From colonial newspapers to the Internet age America's racial divisions have played a central role in the creation of the country's media system just as the media has contributed to and every so often combated racial oppression This acclaimed book called a masterpiece by the esteemed scholar Robert W McChesney and chosen as one of 2011's best books by the Progressive reveals how racial segregation distorted the information Americans have received even as it depicts the struggle of Black Latino Asian and Native American journalists who fought to create a vibrant yet little known alternative democratic press Written in an exciting story driven style and replete with memorable portraits of journalists both famous and obscure *News for All the People* is destined to become the standard history of the American media

Radio William A. Richter, 2006 From payola to podcasting from the advertising office to the DJ booth to the station antenna *Radio A Complete Guide to the Industry* offers a

concise one stop introduction to all aspects of the radio industry Readers are taken on a lively tour of radio s history from the early experiments with wireless to today s satellite and digital radio Industry veteran William A Richter brings readers inside the typical station to explain who does what and how all the pieces fit together The book also includes some brief interviews from working professionals for more perspective Richter explains how ratings work gives an overview of the major industry players and guides readers through FCC regulations and other ethical and legal issues that impact radio Written in a crisp easy style and including glossaries in each chapter Radio is well suited for a range of courses on radio It is a valuable resource for anyone interested in radio from aspiring college DJs to general managers of radio stations

Electronic Media
Norman J. Medoff, Barbara Kaye, 2013-03-20 Electronic Media connects the traditional world of broadcasting with the contemporary universe of digital electronic media It provides a synopsis of the beginnings of electronic media in broadcasting and the subsequent advancements into digital media Underlying the structure of the book is a See It Then See It Now See It Later approach that focuses on how past innovations lay the groundwork for changing trends in technology providing the opportunity and demand for change in both broadcasting and digital media FYI and Zoom In boxes point to further information tying together the immediate and long ranging issues surrounding electronic media Career Tracks feature the experiences of industry experts and share tips in how to approach this challenging industry Check out the companion website at <http://www.routledge.com/cw/medoff/9780240812564> for materials for both students and instructors

The Concise Encyclopedia of American Radio Christopher H. Sterling, Cary O'Dell, 2010-04-12 The average American listens to the radio three hours a day In light of recent technological developments such as internet radio some argue that the medium is facing a crisis while others claim we are at the dawn of a new radio revolution The Concise Encyclopedia of American Radio is an essential single volume reference guide to this vital and evolving medium It brings together the best and most important entries from the three volume Museum of Broadcast Communications Encyclopedia of Radio edited by Christopher Sterling Comprised of more than 300 entries spanning the invention of radio to the Internet The Concise Encyclopedia of American Radio addresses personalities music genres regulations technology programming and stations the golden age of radio and other topics relating to radio broadcasting throughout its history The entries are updated throughout and the volume includes nine new entries on topics ranging from podcasting to the decline of radio The Concise Encyclopedia of American Radio include suggestions for further reading as complements to most of the articles biographical details for all person entries production credits for programs and a comprehensive index

The Electronic Church in the Digital Age
Mark Ward Sr., 2015-11-10 This two volume set investigates the evangelical presence in America as experienced through digital media examining current evangelical ideologies regarding education politics family and government Evangelical broadcasting has greatly expanded its footprint in the digital age This informative text acquaints readers with how the electronic church of today spreads its message through Internet podcasts social networking religious radio programs and

televised sermons how mass media forms the institution's modern identity and what the future of the industry holds as mobile church apps Christian based video games and online worship become the norm The work split into two volumes reveals the ways that the Christian broadcast community affects evangelical traditions and influences American society in general Volume 1 explores how electronic media shapes today's Christian subculture while the second volume describes how the electronic church impacts the wider American culture analyzing what key figures in evangelical mass media are saying about today's religious political economic and social issues The set concludes by addressing criticism about religious media and the prospects of American public discourse to accommodate both secular and religious voices *The Next Better Place* Michael C. Keith, 2004-01-01 In 1959 at the age of eleven Michael Keith ditched his relatively stable life with his mother and sisters in Albany New York and surreptitiously set off hitchhiking out West with his estranged alcoholic dad His memoir told without sentimentality in the funny world wise voice of the young boy he once was describes the bizarre characters they encounter in the rundown rooming houses and homeless missions of Pittsburgh and Ft Worth where they hole up as Michael's father works odd jobs to make enough money for them to move on in the carnivals of the Midwest and the casinos of Las Vegas where Michael dreams of Hollywood stardom and in every two bit town along the way where they attend AA meetings just for a cup of coffee and a decent doughnut *The Next Better Place* explores the fine line between wanderlust and compulsion between running away and arriving and will resonate for anyone who has enjoyed the work of Tobias Wolff Jack Kerouac and William Kennedy *Film* William H. Phillips, 2009-01-02 This clear well illustrated text takes the reader through the basics of film analysis drawing on a wide range of film for discussion Questions of genre and the contexts and meanings of film are considered *Music in the Air* Mark Ward Sr., 2017-08-14 The old gospel song invited listeners to turn their radios on and hear the music in the air Now return to the eventful days when Americans could turn the lights down low and listen to the Master's radio through this colorful and inspiring history of Christian music and ministry during the golden age of gospel radio Learn the stories behind such legendary groups as Blackwood Brothers Statesmen Gaithers Back to the Bible Quartet Old Fashioned Revival Hour Quartet Haven of Rest Quartet and Stamps Quartet Follow the careers of the great songwriters of the radio days men such as Albert Brumley Merrill Dunlop John W Peterson and Stuart Hamblen Read about the evangelists who pioneered Christian broadcasting such as Billy Graham Charles Fuller Jack Wyrzten Percy Crawford Paul Myers Torrey Johnson Walter Maier Theodore App and Paul Vader And learn the stories behind the greatest gospel songs of the country from Some Golden Daybreak to Beyond the Sunset plus more than 100 others *Alphabet to Internet* Irving Fang, 2014-11-13 What Greek philosopher thought writing would harm a student's memory Was the poet Byron's daughter the first computer programmer Who plays more video games women over 18 or teenage boys In *Alphabet to Internet Media in Our Lives* Irving Fang looks at each medium of communication through the centuries asking not only What happened but also How did society change because of this new communication medium and How are we different as a result Examining the

impact of different media on a broad historical scale among them mass printing the telegraph film the internet and advertising Alphabet to Internet takes us from the first scratches of writing and the origins of mail to today s video games the widespread and daily use of smartphones and the impact of social media in political uprisings across the globe A timeline at the end of each chapter places events in perspective and allows students to pinpoint key moments in media history Now in its third edition Alphabet to Internet presents a lively thoughtful and accessible introduction to media history

Adopting the Track of Phrase: An Mental Symphony within **Broadcast Century And Beyond A Biography Of American Broadcasting**

In some sort of used by screens and the ceaseless chatter of quick connection, the melodic elegance and psychological symphony created by the written word usually fade in to the background, eclipsed by the relentless sound and disruptions that permeate our lives. Nevertheless, set within the pages of **Broadcast Century And Beyond A Biography Of American Broadcasting** a wonderful literary value overflowing with raw emotions, lies an immersive symphony waiting to be embraced. Constructed by an outstanding musician of language, that captivating masterpiece conducts readers on a psychological journey, well unraveling the concealed tunes and profound influence resonating within each cautiously constructed phrase. Within the depths with this moving assessment, we can examine the book is central harmonies, analyze their enthralling publishing fashion, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
