Broadcasting Around The World:

Broadcasting Around the World William E. McCavitt,1981 **Broadcasting to the World** ,1992 **The 1992 World Administrative Radio Conference** ,1992 U.S. International Broadcasting Into the War Zones United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on International Operations and Organizations, Human Rights, Democracy, and Global Women's Issues,2010 The Handbook of Election News Coverage Around the World Jesper Strömbäck,Lynda Lee Kaid,2009-09-10 The Handbook of Election Coverage Around the World focuses on the news coverage of national elections in democracies around the globe It brings together and compares election news coverage within a single framework offering a systematic consideration of various factors Considering the prominence and power of the press in the election process this volume will offer unique breadth in its global consideration of the topic The volume will appeal to scholars in political communication political science mass media and society and others studying elections and media coverage around the world History of International Broadcasting James Wood,1992 Vol 1 The following topics are dealt with radio instrument foreign policy information broadcasting radio telephony and wartime broadcasting **Broadcasting Board of Governors** United States. Congress. House. Committee on Foreign Affairs,2013 Radio Broadcasting to Cuba United States. Congress. Senate. Committee on Foreign Relations,1983 Public Service Broadcasting Great Britain. Parliament. House of Lords. Select Committee on Communications,2009 This report responds to the current crisis in public service broadcasting particularly in the advertiser funded television sector This has been caused by three factors 1 the move from analogue to digital broadcasting means that established forms of support are losing value 2 viewers are increasingly taking advantage of technological developments that provide alternatives to conventional broadcasting such as the internet and the many commercial channels 3 the speed and severity of the current economic recession The Committee believes that the commercially funded public broadcasters ITV Channel Four Five and BSkyB should continue to provide an alternative to the BBC which should not become an even more dominant provider of public service programming Market forces will not resolve the crisis and intervention is justified to ensure sufficient public service provision that the market will nor provide free for the public There is a need for financial clarity on the financial position of all the public service broadcasters and Channel Four s position should be independently reviewed A partnership between Channel 4 and BBC Worldwide rather than a full merger would be a quicker means of making extra resources available to Channel 4 The BBC s other partnership proposals are welcomed An element of contestable funding should be introduced such funding to come from a the underspend on the digital switchover b continuance of funding from the licence fee after 2012 when the switchover programme ends c the use of at least part of analogue spectrum revenue after 2012 Ultimately part of the licence fee could be used to support public service content provision outside the BBC USIA World ,1995 **Principles and Practice of Sport Management** Lisa P. The Wireless World Simon J.

Potter, David Clayton, Friederike Kind-Kovacs, Vincent Kuitenbrouwer, Nelson Ribeiro, Rebecca Scales, Andrea Stanton, 2022-08-18 *The Wireless World* sets out a new research agenda for the history of international broadcasting and for radio history more generally. It examines global and transnational histories of long distance wireless broadcasting combining perspectives from international history, media and cultural history, the history of technology and sound studies. It is a co-written book, the result of more than five years of collaboration. Bringing together their knowledge of a wide range of different countries, languages and archives, the co-authors show how broadcasters and states deployed international broadcasting as a tool of international communication and persuasion. They also demonstrate that by paying more attention to audiences, programmes and soundscapes, historians of international broadcasting can make important contributions to wider debates in social and cultural history. Exploring the idea of a wireless world, a globe connected both in imagination and reality by radio, *The Wireless World* sheds new light on the transnational connections created by international broadcasting. Bringing together all periods of international broadcasting within a single analytical frame, including the pioneering days of wireless, the Second World War, the Cold War and the decades since the fall of the Berlin Wall, the study reveals key continuities and transformations. It looks at how wireless was shaped by internationalist ideas about the use of broadcasting to promote world peace and understanding, at how empires used broadcasting to perpetuate colonialism, and at how anti-colonial movements harnessed radio as a weapon of decolonization. [The United States Government Manual](#) United States. Office of the Federal Register, 2008. [The Eternal Church](#) Bill Hamon, 2011-07-28 Hamon takes readers on a journey throughout the history of the church. Beginning at the origination of the church in the 1st Century, he proceeds to its deterioration during the Middle Ages, to the restoration of the church from the time of the Reformation to the present.

[Broadcasting on the Short Waves, 1945 to Today](#) Jerome S. Berg, 2008-10-24 Shortwave broadcasting originated in the 1920s when stations used the new technology to increase their range in order to serve foreign audiences and reach parts of their own country not easily otherwise covered. The early days of shortwave radio were covered in *On the Short Waves* 1923-1945 Broadcast Listening in the Pioneer Days of Radio, published by McFarland in 1999 (paperback 2007). Then two companion volumes were published, picking up the story after World War II. They were *Listening on the Short Waves 1945 to Today* McFarland 2008 (paperback 2010) which focuses on the shortwave listening community and the present. *Broadcasting* title about the stations themselves and their environment. The heart of the book is a detailed year by year account of the shortwave bands in each year from 1945 to 2008. It reviews what American listeners were hearing on the international and domestic shortwave bands, describes the arrivals and departures of stations, and recounts important events. The book describes the several categories of broadcasters: international, domestic, private, religious, clandestine, and pirate. It explains the impact of relay stations, frequency management, and jamming. It also addresses the considerable changes in shortwave broadcasting since the end of the Cold War. The book is richly illustrated and indexed and features a bibliography and
