The International Aluminium Cartel Marco Bertilorenzi, 2015-09-16 Aluminium was one of most cartelised industries in the international economic panorama of the 20th century Born following the discovery of electrolytic smelting process in 1886 this industry even in its infancy established a cartel which characterised its history until nearly 1980 Managers of the aluminium industry from various historical eras and countries shared the same vision about the development of their industry to keep prices as stable as possible in order to encourage expansions and to provide return on investments Price instability which characterised the trade of other commodities was unknown to the aluminium industry This book neither argues that cartels are fundamentally evil nor attempts to demonstrate that cartels are optimal business organisations It instead provides an in depth and frank analysis of the internal working of industrial organisations and of the interplay between cartels and political powers and institutions The International Aluminium Cartel offers explanations for the construction and collapse of cartels descriptions of their operations and an historical interpretation of their experiences Incorporating information gleaned from a unique collection of private and public archives from several countries this unique study will appeal to a wide variety of readers including academics interested in industrial and business history

La littérature africaine moderne au sud du Sahara Denise Coussy, 2000-01-01 Les littératures en provenance de l'Afrique francophone et anglophone au sud du Sahara ont longtemps fait l'objet d'études distinctes Depuis quelques années ce cloisonnement a tendance s'estomper La multiplicité des traductions effectuées dans les deux sens a singulièrement largi le lectorat des œuvres africaines et tabli des passerelles entre les pays D'autre part les récents bouleversements advenus en Afrique ont fait disparaître des zones d'ombre littéraires en particulier celle de l'Afrique du Sud longtemps sous le boisseau et qui prend maintenant sa place et une des toutes premières dans le concert des voix africaines Sans faire de distinction entre les langues employées savoir l'anglais et le français cet ouvrage entend démontrer que l'Afrique a trouvé un langage commun pour célébrer des victoires similaires et pour déplorer des défaits non moins identiques En dépit des modes différents de colonisation qu'a subis l'Afrique les romanciers poètes et dramaturges de chaque pays ont adopté le même cheminement faire retour sur le passé pour tenter de comprendre les raisons de l'anomie actuelle Il s'ensuit une littérature à la fois tragique et comique où les motifs du Monde qui s'effondre de Chinua Achebe ou du Pleurer rire de Henri Lopes s'interpellent en de

multiples variantes d'un bout à l'autre du continent. Partout jaillit une littérature de la célébration et de la dérision où lieux et gens tentent de fonctionner en symbiose entre sacré et profane. Cette dualité affecte videmment le verbe et on voit de plus en plus le classicisme bien tempéré des premières œuvres s'imprégner de la vivacité de l'expression populaire moderne mais aussi des complexités du discours littéraire actuel. Tous ces jeux de miroir autorisent l'Afrique donner enfin d'elle-même l'image complexe mais cohérente qui lui a tant si longtemps déniée.

Satané Dieu Jean-Louis Fournier, 2005-03-02 Dieu a fini le monde. Il a ses 150 trimestres, il peut prendre sa retraite. Il choisit de loger avec Saint Pierre au dernier étage d'une tour au-dessus des hommes. Parfois il joue au domino avec Saint Pierre mais souvent il s'ennuie. Il entend les voisins du dessous s'amuser. Il est jaloux, leur bonheur lui fait mal. Il va alors mettre au point les petites et les grosses vacheries qui vont gâcher la vie quotidienne des hommes : les moustiques, la famine, la rouille, les arêtes, le lundi, l'acné, le contrôle, les guêpes, TF1, la peste, la surpopulation, l'enfant qui pleure, le cholestérol. Chaque nuit Dieu et Saint Pierre s'amuse, maintenant comme des petits diables. Après avoir créé le paradis sur terre, Dieu était en train d'inventer l'enfer.

Design History Beyond the Canon Jennifer Kaufmann-Buhler, Victoria Rose Pass, Christopher Wilson, 2019-02-07 *Design History Beyond the Canon* subverts hierarchies of taste which have dominated traditional narratives of design history. The book explores a diverse selection of objects, spaces and media ranging from high design to mass produced and mass marketed objects as well as counter cultural and sub cultural material. The authors' research highlights the often marginalised role of gender and racial identity in the production and consumption of design, the politics which underpins design practice and the role of designed objects as pathways of nostalgia and cultural memory. While focused primarily on North American examples from the early 20th century onwards, this collection also features essays examining European and Soviet design history as well as the influence of Asia and Africa on Western design practice. The book is organised in three thematic sections: Consumers, Intermediaries and Designers. The first section analyses a range of designed objects and spaces through the experiences and perspectives of users. The second section considers intermediaries from both technology and cultural industries as well as the hidden labour within the design process itself. The final section focuses on designers from multiple design disciplines including high fashion, industrial design, interior design, graphic design and design history pedagogy. The essays in all three sections utilise different research methods and a wide range of theoretical approaches including feminist theory, critical race theory, spatial theory, material culture studies, science and technology studies and art history. *Design History Beyond the Canon* brings together the most recent research which stretches beyond the traditional canon and looks to interdisciplinary methodologies to better understand the practice and consumption of design.

A Velvet Empire David Todd, 2023-09-26 How France's elites used soft power to pursue their imperial ambitions in the

nineteenth century After Napoleon's downfall in 1815 France embraced a mostly informal style of empire one that emphasized economic and cultural influence rather than military conquest A Velvet Empire is a global history of French imperialism in the nineteenth century providing new insights into the mechanisms of imperial collaboration that extended France's power from the Middle East to Latin America and ushered in the modern age of globalization David Todd shows how French elites pursued a cunning strategy of imperial expansion in which conspicuous commodities such as champagne and silk textiles together with loans to client states contributed to a global campaign of seduction French imperialism was no less brutal than that of the British But while Britain widened its imperial reach through settler colonialism and the acquisition of far flung territories France built a velvet empire backed by frequent military interventions and a broadening extraterritorial jurisdiction Todd demonstrates how France drew vast benefits from these asymmetric imperial like relations until a succession of setbacks around the world brought about their unravelling in the 1870s A Velvet Empire sheds light on France's neglected contribution to the conservative reinvention of modernity and offers a new interpretation of the resurgence of French colonialism on a global scale after 1880 This panoramic book also highlights the crucial role of collaboration among European empires during this period including archrivals Britain and France and cooperation with indigenous elites in facilitating imperial expansion and the globalization of capitalism
