Brazil s European heritage tourism industry Southern Brazil s booming domestic tourism industry draws more than 500 000  
people to events such as Oktoberfest in Blumenau the site of Audrey Ricke s fieldwork Ricke s unique contribution is  
investigation of domestic tourism as sensescapes for citizens of different regions and backgrounds The sensescapes concept  
encapsulates an experience beyond the visual Ricke also introduces the economy of aesthetics framework to capture how the  
sensescapes associated with domestic tourism are mobilized to negotiate ethnic national and transnational identities The  
pathway through such sensescapes involves intersections with discourses on class and race as well Case studies are the  
German Brazilian home garden landscape Oktoberfest and folk dancing These sensory rich contact zones provide access to  
different perspectives and types of identity negotiation at multiple levels Ricke analyzes each practice to show how they  
emanate a German Brazilian warmth joy and welcome which counter an image of Germans being cold and aloof and align  
better with national imaginaries of being Brazilian This book also provides historical and contemporary insights into the  
politics of citizenship associated with cultural heritage As politics become more polarized in Brazil and elsewhere Ricke notes  
that the need to find new means of communication such as sensory experiences from domestic tourism increases Through  
identifying how this takes place such understanding can highlight the strengths and weaknesses of tourism ventures for  
promoting inclusion and national belonging and contribute to the design of equity and inclusion policies **AB Bookman's**
