Bronzes Antiques And Their Values:

Antique Gems Their Origin, Uses, and Value as Interpretes of Ancient History and as Illustrative of Ancient Art by C. W. King Charles William King,1860 **Antiques, Genuine and Spurious** Frederick Litchfield,1924 **The Connoisseur** ,1903 **Stone Vessels and Values in the Bronze Age Mediterranean** Andrew Bevan,2007-08-13 The societies that developed in the eastern Mediterranean during the Bronze Age produced the most prolific and diverse range of stone vessel traditions known at any time or anywhere in the world Stone vessels are therefore a key class of artefact in the early history of this region As a form of archaeological evidence they offer important analytical advantages over other artefact types virtual indestructibility a wide range of functions and values huge variety in manufacturing traditions as well as the subtractive character of stone and its rich potential for geological provenancing In this 2007 book Andrew Bevan considers individual stone vessel industries in great detail He also offers a highly comparative and value led perspective on production consumption and exchange logics throughout the eastern Mediterranean over a period of two millennia during the Bronze Age ca 3000 1200 BC **Ravenna and the Traditions of Late Antique and Early Byzantine Craftsmanship** Salvatore Cosentino,2020-08-10 In the last twenty years scholarship on late antique and early medieval Ravenna has resulted in a certain number of publications mainly focused on the fields of architecture mosaics and archaeology On the contrary much less attention has been paid on labour both manual and intellectual as well as the structure of production and objects derived from manufacturing activities despite the fact that Ravenna is the place which preserves the highest number of historical evidence among all centres of the late Roman Mediterranean Its cultural heritage is vast and composite ranging from papyri to inscriptions from ivories to marbles as well as luxury objects pottery and coins Starting from concrete typologies of hand manufactured goods existing in the Ravennate milieu the book aims at exploring the multifaceted traditions of late antique and early Byzantine handicraft from the fourth to the eighth century AD Its perspective is to pay attention more on patronage social taste acculturation workers and the economic industry of production which supported the demand circulation and distribution of artefacts than on the artistic evaluation of the objects themselves **Aegean Bronze Age Art** Carl Knappett,2020-06-25 How do we interpret ancient art created before written texts Scholars usually put ancient art into conversation with ancient texts in order to interpret its meaning But for earlier periods without texts such as in the Bronze Age Aegean this method is redundant Using cutting edge theory from art history archaeology and anthropology Carl Knappett offers a new approach to this problem by identifying distinct actions such as modelling combining and imprinting whereby meaning is scaffolded through the materials themselves By showing how these actions work in the context of specific bodies of material Knappett brings to life the fascinating art of Minoan Crete and surrounding areas in novel ways With a special focus on how creativity manifests itself in these processes he makes an argument for not just how creativity emerges through specific material engagements but also why creativity might be especially valued at particular moments

Antiques ,1927 **Recasting the Past: The Art of Chinese Bronzes, 1100-1900** Pengliang Lu,2025-02-28 Bronze vessels were the ultimate emblems of power in ancient China Beginning in the twelfth century the rediscovery of ancient bronzes as evidence of an earlier golden age led to a revival of bronze casting This publication is the first comprehensive study of these later Chinese bronzes in archaic styles which were commissioned by emperors and officials from the twelfth through the nineteenth centuries to assert political legitimacy and alignment with traditional values Redressing the misconception that these works were mere imitations of the ancient vessels they emulated Recasting the Past demonstrates that they were in fact creative reinterpretations of antique shapes and decorative motifs that were fundamentally new creations with their own aesthetic and functional character Featuring nearly two hundred objects many never before published including ceremonial bells incense burners flower vases ritual vessels and writing utensils Pengliang Lu explores their cultural and political significance from the Song dynasty through the Qing dynasty and shows their enormous influence on Chinese art and culture **Magazine Antiques** ,1927 **The Examiner** ,1852 *The Dublin University Magazine* ,1861 **University Magazine** ,1861 中国青铜器,1922 **The heart of heaven** 中国青铜器,1922 *Word Becomes Image: Openwork vessels as a reflection of Late Antique transformation* Hallie G.
