happiness in the flourishing female dominated traditions of local Islamic women's mosques Daoist nunneries and Catholic convents in China These women passionately often against unimaginable odds defended sites of prayer education and congregation as their spiritual home and their promise of heaven but also as their rightful claim to equal entitlements with men

Grassroots Values and Local Cultural Heritage in China Harriet Evans, Michael Rowlands, 2021-10-06 The recent heritage boom in China is transforming local social economic and cultural life and reshaping domestic and global notions of China's national identity Based on long term ethnographic fieldwork conducted largely by young anthropologists in China *Grassroots Values and Local Cultural Heritage in China* departs from the dominant top down UNESCO influenced narrative of cultural heritage preservation and approaches the local not as a fixed definition of place but as a shifting site of negotiation between state entrepreneurial transcultural and local community interests The volume takes readers along an unusual trajectory between a disadvantaged neighborhood in central Beijing metropolitan centers in Anhui and Sichuan Quanzhou in the southeast and Yunnan in the southwest before finally ending at the great Samye Monastery in Tibet Across these sites the contributors converge in apprehending the grassroots as an arena of everyday life and belonging underpinning ordinary social interactions and cultural practices as diverse as funeral rituals Tibetan Buddhist pilgrimages and encounters between young contemporary artists and the Bloomsbury Group In examining the diversity of local cultural practices and knowledge that underpin ideas about cultural value this volume argues that grassroots cultural beliefs are essential to the liveability and sustainability of life and living heritage

Typology of Asian Societies Takashi Inoguchi, 2022-11-19 This book is about generating types of societies by the degree of individuals satisfaction with life domains aspects and styles via factor analysis It adopts an evidence based approach in typologizing and a bottom up rather than a top down perspective Thus the book's position is against Hegel freedom for one person Marx the Asiatic mode of production Weber Protestant ethics and the spirit of capitalism Wittfogel Asiatic autocracy and Rostow Western led modernization These classical and modern authors tend to see Asian societies with somewhat fixated eyes and categorize Asian societies in a top down manner When random sampled respondents are questioned about their satisfaction with daily life in terms of life domains aspects and styles public policy and institutions as well as survival and social relations are inevitably touched upon the latter two being the key dimensions common to the World Values Survey and other cultural surveys This book proposes a new mode of typologizing societies Asian or non Asian not immediately familiar to human geographers cultural anthropologists or sociologists but revealing many complex unknowns with the easy to learn typologizing method
