Contentious Republicans James E. Sanders, 2004-02-03 Shows how Afro Colombians Indians and white peasants helped construct a democratic political culture in 19th century Colombia and ways in which the loss of some aspects of this mass based democracy fed into the pervasive violence of the *Contentious Republicans* James E. Sanders, 2000 *Popular Politics and Rebellion in Mexico* Zachary Brittsan, 2015-06-15 The political conflict during Mexico's Reform era in the mid nineteenth century was a visceral battle between ideologies and people from every economic and social class As *Popular Politics and Rebellion in Mexico* develops the story of this struggle the role of one key rebel Manuel Lozada comes into focus The willingness of rural peasants to take up arms to defend the Catholic Church and a conservative political agenda explains the bitterness of the War of Reform and the resulting financial and political toll that led to the French Intervention Exploring the activities of rural Jalisco's residents in this turbulent era and Lozada's unique position in the drama Brittsan reveals the deep roots of colonial religious and landholding practices exemplified by Lozada that stood against the dominant political current represented by Benito Juarez and liberalism *Popular Politics and Rebellion in Mexico* also explores the conditions under which a significant segment of Mexican society aligned itself with conservative interests and French interlopers revealing this constituency to be more than a collection of reactionary traitors to the nation To the contrary armed rebellion or at least the specter of force protected local commercial interests in the short run and enhanced the long term prospects for political autonomy Manuel Lozada's story adds a necessary layer of complexity to our understanding of the practical and ideological priorities that informed the tumultuous conflicts of the mid nineteenth century **A Global History of**

Violence against Women in and beyond Conflict Julia Carolin Sachseder, 2022-09-16 Violence against Women in and beyond Conflict explores the processes and structures that underlie and contribute to sexual violence and internal displacement in armed conflict utilizing extensive ethnographic research to provide cutting edge insights The author argues that the key to understanding violence against women lies at the intersection of transnational capital race and gender that not only contribute to its production but also to its persistence The book uses the Colombian armed conflict as the primary case study but develops a broader framework for theorizing the relationship between the global political economy the history of coloniality and intersectional constructions of gender and race with regard to conflict and violence It offers an understanding of violence against women as not isolated from but part and a symptom of a larger system of political social and economic inequality that is rooted in colonialism and exploited and exacerbated by transnational capital relations The author also shows how the state and non state actors most prominently paramilitaries are involved in this relationship of violence The book highlights implications for meaningful and sustainable peace in post conflict contexts This book will be of great interest to students and scholars of international relations gender studies and conflict studies as well as policymakers non governmental organizations and practitioners interested in conflict and security

In Place of Mobility Kyle E. Harvey,2024-12-03 In the mid nineteenth century decades after independence in Latin America borderlands presented existential challenges to consolidating nation states In Place of Mobility examines how and why these spaces became challenging to governments and what their meaningfulness is for our understanding of the development of a global world by examining one of those spaces the Trans Andean an Argentine Chilean borderland connected by the Andes mountains and centered on the Argentine region of Cuyo It answers these questions by interweaving three narratives Chilean migration to western Argentina mountain crossing Argentine rebels and the formation of plans for railroads to cross the mountains Out of these narratives emerges a twofold argument that on the one hand locates the causes and stakes of foundational national conflicts in Argentina in a Pacific facing Trans Andean and on the other hand sees the Trans Andean as part of mid nineteenth century globalization

thus connecting national conflicts nonnational geographies and globalization As a result this book challenges dominant narratives about social and political conflicts at this formative moment in Argentine and Latin American history while opening up discussion on the methodologies and meaningfulness of transnational borderlands and global histories

The Politics and Performance of Mestizaje in Latin America Paul K Eiss, Joanne Rapport, 2018-12-07 The term mestizaje is generally translated as race mixture with races typically understood as groups differentiated by skin color or other physical characteristics Yet such understandings seem contradicted by contemporary understandings of race as a cultural construct or idea rather than as a biological entity How might one then approach mestizaje in a way that is not definitionally predicated on race or at least on a modernist formulation of race as phenotypically expressed biological difference The contributors to this volume provide explorations of this question in varied Latin American contexts Mexico Guatemala Bolivia Colombia Peru from the 16th century to the present They treat mestizo acts neither as expressions of pre existing social identities nor as ideologies enforced from above but as cultural performances enacted in the in between spaces of social and political life Moreover they

show how mestizo acts not only express or reinforce social hierarchies but institute or change them seeking to prove or to dismantle genealogies of race blood sex and language in public and political ways The chapters in this book originally published as a special issue of Latin American and Caribbean Ethnic Studies

multiculturalism in Latin America the emergence of modern blackness in Jamaica and the rise of Barack Obama in the United States showing how blackface remains embedded in cultural entertainment Contending that the Americas are linked by repeating nationalist fictions of postracialism colorblindness and myths of racial democracy Roper assesses how acts of impersonation mediate the ongoing power of these narratives and enable people to comprehend advancements and reversals in racial equality Rather than simply framing blackface as liberatory or oppressive Roper traces its emergence from a shared history of slavery and the varied politics of racial enjoyment throughout the hemisphere
