

Double Entry Journal

The Double Entry Journal allows students to record their responses to text as they read. In the left-hand page or column, the student copies or summarizes text which is intriguing, puzzling, or moving, or which connects to a previous entry or situation. In the right-hand page or column, the student reacts to the quotation or summary. The entry may include a comment, a question, a connection made, an analysis. Entries are made whenever a natural pause in the reading occurs, so that the flow is not interrupted constantly.

Have a minimum of three entries per Reading Assignment. Be sure to make note of the page number that the quote appeared.

Sherfield, 1996-10-23 *The Taoist Canon* Kristofer Schipper, Franciscus Verellen, 2019-09-01 Taoism remains the only major religion whose canonical texts have not been systematically arranged and made available for study This long awaited work a milestone in Chinese studies catalogs and describes all existing texts within the Taoist canon The result will not only make the entire range of existing Taoist texts accessible to scholars of religion it will open up a crucial resource in the study of the history of China The vast literature of the Taoist canon or Daozang survives in a Ming Dynasty edition of some fifteen hundred different texts Compiled under imperial auspices and completed in 1445 with a supplement added in 1607 many of the books in the Daozang concern the history organization and liturgy of China's indigenous religion A large number of works deal with medicine alchemy and divination If scholars have long neglected this unique storehouse of China's religious traditions it is largely because it was so difficult to find one's way within it Not only was the rationale of its medieval classification system inoperable for the many new texts that later entered the Daozang but the system itself was no longer understood by the Ming editors hence the haphazard arrangement of the canon as it has come down to us This new work sets out the contents of the Daozang chronologically allowing the reader to follow the long evolution of Taoist literature Lavishly illustrated the first volume ranges from antiquity through the Middle Ages while the second spans the modern period Within this frame texts are grouped by theme and subject Each one is the subject of a historical abstract that identifies the text's

contents date of origin and author Throughout the first two volumes introductions outline the evolution of Taoism and its spiritual heritage A third volume offering biographical sketches of frequently mentioned Taoists multiple indexes and an extensive bibliography provides critical tools for navigating this guide to one of the fundamental aspects of Chinese culture

Shakespeare's First Reader Jason Scott-Warren,2019-09-20 Richard Stonley has all but vanished from history but to his contemporaries he would have been an enviable figure A clerk of the Exchequer for more than four decades under Mary Tudor and Elizabeth I he rose from obscure origins to a life of opulence his job a secure bureaucratic post with a guaranteed income was the kind of which many men dreamed Vast sums of money passed through his hands some of which he used to engage in moneylending and land speculation He also bought books lots of them amassing one of the largest libraries in early modern London In 1597 all of this was brought to a halt when Stonley aged around seventy seven was incarcerated in the Fleet Prison convicted of embezzling the spectacular sum of 13 000 from the Exchequer His property was sold off and an inventory was made of his house on Aldersgate Street This provides our most detailed guide to his lost library By chance we also have three handwritten volumes of accounts in which he earlier itemized his spending on food clothing travel and books It is here that we learn that on June 12 1593 he bought the Venus Adhony per Shakspere the earliest known record of a purchase of Shakespeare s first publication In Shakespeare s First Reader Jason Scott Warren sets Stonley s journals and inventories of goods alongside a wealth of archival evidence to put his life and library back together again He shows how Stonley s books were integral to the material worlds he inhabited and the social networks he formed with communities of merchants printers recusants and spies Through a combination of book history and biography Shakespeare s First Reader provides a compelling bio bibliography the story of how one early modern gentleman lived in and through his library

Origins of the Organic Agriculture Debate Thomas R. DeGregori, 2008-02-28 Origins of the Organic Agriculture Debate takes an historical look at two contrasting streams of ideas The first view comprises the flow of ideas in chemistry and biology that have created the conditions for modern medicine modern food production and the biotechnological revolution The second view is the vitalist reaction to the rise of modern science and the resulting rejection of modern agriculture Contemporary proponents of organic agriculture and the anti genetically modified food movement believe that pure food confers some special kind of virtue both on those who produce it and those who consume it They fail to acknowledge that organic chemistry genetics and molecular biology have been as essential to twentieth century advances in agriculture such as plant breeding and are instrumental to ensuring that there is enough food for everyone Origins of the Organic Agriculture Debate Begins with an exploration of the factors involved in our modern fear of technology a fear which forms the foundation for anti technology beliefs and practices Argues that vitalism is at the core of an array of contemporary anti science and anti technology movements Helps readers fully understand the ferocity with which certain beliefs about homeopathic medicine and the organic are held against all evidence to the contrary Explains the history of nitrogen in life and in agriculture countering myths of scarce resources and beliefs about the sufficiency of organic nitrogen to feed the world's population Purports that technology creates resources debunking the idea that resources are natural fixed and finite Updates and clarifies issues discussed in the author's previous works *A Theory of Technology* 1985 *Agriculture and Modern Technology* 2001 and *The Environment Our Natural Resources and Modern Technology* 2002 We need to better understand the forces of scientific and technological change if we are to control the negative elements of these forces continue to advance the development of science and technology and facilitate fuller participation in the benefits of our advancing capability to further the human endeavor Origins of the Organic Agriculture Debate will provide a basis for this understanding
