Animal Suffering:

Animal Suffering Florence Burgat, Emilie Dardenne, 2023-08-22 This interdisciplinary volume deals with the most painful situations encountered by animals in the wild or under human guardianship. It seeks to illustrate some remarkable cases and present a general picture of the commodification of animals. This volume starts with an exploration of the capture of animals intended for European zoological parks, the treatment of animals in South Korea, pig farming in China, and animal testing in Europe. It goes on to explore animal politics with a focus on Europe. The moral problems posed by the different types of harm caused to animals are then approached from the vantage point of moral philosophy. Finally, the points of view of veterinary sciences and applied ethics related to animal emotions, suffering, and death complete the picture. *Why Animal Suffering Matters* Andrew Linzey, 2013-11-01 How we treat animals arouses strong emotions. Many people are repulsed by photographs of cruelty to animals and respond passionately to how we make animals suffer for food, commerce, and sport. But is this as some argue a purely emotional issue? Are there really no rational grounds for opposing our current treatment of animals? In *Why Animal Suffering Matters*, Andrew Linzey argues that when analyzed impartially, the rational case for extending moral solicitude to all sentient beings is much stronger than many suppose. Indeed, Linzey shows that many of the justifications for inflicting animal suffering in fact provide grounds for protecting them. Because animals lack reason or souls or language, harming them is not an offense. Linzey suggests that just the opposite is true: that the inability of animals to give or withhold consent, their inability to represent their interests, their moral innocence, and their relative defenselessness all compel us not to harm them. Andrew Linzey further shows that the arguments in favor of three controversial practices—hunting with dogs, fur farming, and commercial sealing—cannot withstand rational critique. He considers the economic, legal, and political issues surrounding each of these practices, appealing not to our emotions but to our reason, and shows that they are rationally unsupportable and morally repugnant. In this superbly argued and deeply engaging book, Linzey pioneers a new theory about why animal suffering matters, maintaining that sentient animals like infants and young children should be accorded a special moral status. **Animal Suffering** Marian Dawkins, 2012-12-06 I wrote this book because I believe that the welfare of animals is a very important subject but one about which there is a lot of confusion and muddled thinking. I wanted to greatly write a book which straightened out some of the confusion by looking in detail at one particular problem: how to recognize animal suffering. The book is written for anyone interested in animals and the controversies over how human beings should treat them. I have tried to convince people who might otherwise feel that science had only a rather sinister connection with animal welfare that the scientific study of animal suffering has in fact a major and positive contribution to make. It can give us an insight into what animals experience, and this in turn may help us to alleviate their suffering. At the same time, I have tried to write a book that will be of at least some use to scientists. The chapters which follow provide an outline of the biological approach to animal welfare. I have also attempted to show sceptics that it is possible to study animal

suffering without sacrificing standards of scientific procedure Perhaps some may even come to share my belief that the study of the subjective experiences of animals is one of the most fascinating areas in the whole of biology as well as being of great practical and ethical importance

The Palgrave Handbook on the Problem of Animal Suffering in the Philosophy of Religion B. Kyle Keltz, 2025-07-28 Atheists argue that animal pain disease suffering and death cause a problem for theism because they believe that an all knowing all powerful and all good God would not use millions of years of animal suffering just to make a world suitable for humans Animal suffering was not a concern for theism through the medieval period but it has been increasingly discussed in philosophy of religion since modern times and there is especially a large and growing amount of literature on this subject that has been published in the last few decades This handbook serves as a guide for those interested in the literature on the problem by bringing together experts in the philosophy of religion theology environmental ethics and the philosophy of animal minds It not only presents major formulations of the problem of animal suffering and major theodicies but it also discusses metaethical issues regarding animal suffering the question of animal consciousness and self awareness and their implications for animal suffering and what implications available theodicies might have for animal ethics

Animal Suffering: Philosophy and Culture E. Aaltola, 2012-07-31 Exploring how animal suffering is made meaningful within Western ramifications the book investigates themes such as skepticism concerning non human experience cultural roots of compassion and contemporary approaches to animal ethics At its center is the pivotal question What is the moral significance of animal suffering

Animal Suffering and Public Relations Núria Almiron, 2023-08-18 Animal Suffering and Public Relations conducts an ethical assessment of public relations mainly persuasive communication and lobbying as deployed by some of the main businesses involved in the animal industrial complex the industries participating in the systematic and institutionalised exploitation of animals Society has been experiencing a growing ethical concern regarding human abuse of other animals This is a trend first promoted by the development of animal ethics which claims any sentient being because of sentience deserves moral consideration and more recently by other approaches from the social sciences including critical animal studies In this volume we aim to start an entirely unaddressed discussion within the field of public relations The need to problematise the ethics of persuasion when nonhuman animal suffering is involved particularly the impact of persuasion and lobbying on compassion towards other animals in the cases of food experimentation entertainment and environmental management This book provides an interdisciplinary theoretical discussion illustrated with international case studies from experts in strategic communication public relations lobbying and advocacy animal ethics philosophy of law political philosophy and social psychology This unique book merges the fields of critical public relations animal ethics and critical animal studies and will be of direct appeal to a wide range of researchers academics and doctoral students across related fields The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Thomism

and the Problem of Animal Suffering B. Kyle Keltz, 2020-06-12 The problem of animal suffering is the atheistic argument that an all knowing all powerful and all good God would not use millions of years of animal suffering disease and death to form a planet for human beings This argument has not received as much attention in the philosophical literature as other forms of the problem of evil yet it has been increasingly touted by atheists since Charles Darwin While several theists have attempted to provide answers to the problem they disagree with each other as to which answer is correct Also some of these theists have given in to the problem and believe it entails that God is limited in certain ways B Kyle Keltz seeks to provide a classical answer to the problem of animal suffering inspired by the medieval philosopher theologian Thomas Aquinas In doing so Keltz not only utilizes the wisdom of Aquinas but also contemporary insights into non human animal minds from contemporary philosophy and science Keltz provides a compelling neo Thomistic answer to the problem of animal suffering and explains why the classical God of theism would create a world that includes animal death

Animal Suffering and the Darwinian Problem of Evil John R. Schneider, 2020-03-26 This book will be of interest to college faculty and advanced students interested in the relationship between religion and science particularly at Christian colleges and seminaries Its value is to offer an innovative Christian theological approach to the daunting problem that Darwinian animal suffering poses to belief in God

Eastern Orthodox Christianity and Animal Suffering Christine Nellist, 2018-10-25 This book is the first academic work in Eastern Orthodox theological literature on the subject of animal suffering and human soteriology It represents a natural progression of the contemporary Eastern Orthodox academic debate on the environment and will be of interest not only to academic scholars in theology religion philosophy and ethics but also to the wider Christian and secular communities Using Biblical and Patristic teachings together with new social science research and contemporary science it presents arguments that animal suffering is against God's Will and that the abuse or misuse of animals or indifference to animal suffering will result in negative consequences for human salvation The book posits a revisionist interpretation of the Noahic narrative when addressing the challenging question of why God allows the dispensation of animals as food and offers compelling arguments on why the contemporary animal food production industries and animal testing model should be rejected

Physiology and Behaviour of Animal Suffering Neville G. Gregory, 2008-04-15 Suffering is a state of mind that is difficult to measure and analyse in human beings and considerably more so in animals It is related to the environment in which we live and our physical and mental states Understanding the physiology of suffering in animals is crucial in assessing animal welfare Written by an expert in applied welfare aspects of physiology this book is the first to address the physiological aspects of suffering in animals It explores the different causes of suffering physical discomfort thirst and hunger the responses in the body that lead to suffering and it offers insight into how suffering can be managed The second book in a major new animal welfare series Draws together information that is scattered across the literature Written for the specialist and non specialist alike Includes colour pictures This book is part of the UFAW Wiley Blackwell Animal Welfare

Book Series This major series of books produced in collaboration between UFAW The Universities Federation for Animal Welfare and Wiley Blackwell provides an authoritative source of information on worldwide developments current thinking and best practice in the field of animal welfare science and technology For details of all of the titles in the series see www.wiley.com/go/ufaw

Why Animal Suffering Matters Andrew Linzey, 2009-09-17 When these considerations are fully taken into account it becomes as difficult to justify the infliction of suffering on animals as it is to do so in the case of human infants Linzey invites the reader to examine the rational case and then see how it can be applied to a detailed analysis of three practical issues hunting with dogs fur farming and commercial sealing He examines the economic legal and political considerations while retaining an ethical focus BOOK JACKET

Relations. Beyond Anthropocentrism. Vol. 3, No. 1 (2015). Wild Animal Suffering and Intervention in Nature: Part II AA. VV., 2016-04-19T16:40:00+02:00 Relations Beyond Anthropocentrism is a peer refereed journal of trans anthropocentric ethics and related inquiries The main aim of the journal is to create a professional interdisciplinary forum in Europe to discuss moral and scientific issues that concern the increasing need of going beyond narrow anthropocentric paradigms in all fields of knowledge The journal accepts submissions on all topics which promote European research adopting a non anthropocentric ethical perspective on both interspecific and intraspecific relationships between all life species humans included and between these and the abiotic environment

Animal Suffering, Human Rights, and the Virtue of Justice Per Bauhn, 2023-03-29 In this book Per Bauhn does three things First he outlines some aspects of contemporary philosophical views on animals and morality including the criticism of speciesism and the animal rights argument Second he criticizes these views arguing that we cannot escape a speciesist perspective on morality and that there are no good reasons why we should believe that non human animals have moral rights Third he argues that cruelty against non human animals is morally wrong but not because animal rights are being violated but because human agents who inflict cruelty on non human animals are failing their duty to develop in themselves the virtue of justice This latter argument is reminiscent of Immanuel Kant's idea that we have only indirect duties towards animals but unlike that idea Bauhn's argument does not depend on any causal hypothesis that humans who are cruel to animals are likely to be cruel also to their fellow humans Instead Bauhn's argument relies on the fact that being cruel to non human animals and other innocent beings is conceptually and logically inconsistent with the virtue of justice a virtue which agents are rationally required to develop in themselves

The Routledge Handbook of Animal Ethics

Bob Fischer, 2019-12-06 There isn't one conversation about animal ethics Instead there are several important ones that are scattered across many disciplines This volume both surveys the field of animal ethics and draws professional philosophers graduate students and undergraduates more deeply into the discussions that are happening outside of philosophy departments To that end the volume contains more nonphilosophers than philosophers explicitly inviting scholars from other fields such as animal science ecology economics psychology law environmental science and applied biology among others to bring their own disciplinary resources to bear on matters that affect animals The Routledge Handbook of Animal Ethics is composed of 44 chapters all appearing in print here for the first time and organized into the following six sections I Thinking About Animals II Animal Agriculture and Hunting III Animal Research and Genetic Engineering IV Companion Animals V Wild Animals Conservation Management and Ethics VI Animal Activism The chapters are brief and they have been written in a way that is accessible to serious undergraduate students regardless of their field of study The volume covers everything from animal cognition to the state of current fisheries from genetic modification to intersection animal activism It is a resource designed for anyone interested in the moral issues that emerge from human interactions with animals

The Intrinsic Value of Nature Leena Vilkkä, 1997 What is intrinsic value What is the origin of value Are people always superior to nature This book is a philosophical analysis of the human relationship to the non human world It is a pioneering study of the philosophy of nature conservation in relation to the discussion of intrinsic value Vilkkä develops a naturalistic or naturocentric theory of value that is based on ethical extensionism and pluralism Vilkkä analyzes natural values and environmental attitudes zoocentrism biocentrism and ecocentrism This book forms a taxonomy for nature having intrinsic value The theory of intrinsic value is based on naturocentric and naturogenic values The book questions the thesis of weak anthropocentrism that denies the existence of naturogenic values In Vilkkä's theory animals and nature are the origin of value She defends the existence of zoogenic and biogenic values in the non human world and discusses the possibility of ecogenic value nature as a whole having value independent of human or animal minds Vilkkä analyzes the goodness and rights of nature the problem of priorities and ecological humanism A naturocentric recommendation is that the well being of animals and nature should have priority over human values at least in some real decision contexts Ecological humanism recommends an attitude of respect for people animals and nature The book includes an extensive glossary index and bibliography

Problems of Evil and the

Power of God James A. Keller, 2007-01-01 Why do bad things happen even to good people If there is a God why aren't God's existence and God's will for humans more apparent And if God really does miracles for some people why not for others This book examines these three problems of evil suffering divine hiddenness and unfairness if miracles happen as believers claim to explore how different ideas of God's power relate to the problem of evil *Animal Suffering: Philosophy and Culture* E. Aaltola, 2012-07-31 Exploring how animal suffering is made meaningful within Western ramifications the book investigates themes such as skepticism concerning non-human experience cultural roots of compassion and contemporary approaches to animal ethics At its center is the pivotal question What is the moral significance of animal suffering *Animals and Animality in the Babylonian Talmud* Beth A. Berkowitz, 2018-04-19 Animals and Animality in the Babylonian Talmud selects key themes in animal studies animal intelligence morality sexuality suffering danger personhood and explores their development in the Babylonian Talmud Beth A. Berkowitz demonstrates that distinctive features of the Talmud the new literary genre the convergence of Jewish Christian and Zoroastrian cultures the Talmud's remove from Temple-centered biblical Israel led to unprecedented possibilities within Jewish culture for conceptualizing animals and animality She explores their development in the Babylonian Talmud showing how it is ripe for reading with a critical animal studies perspective When we do we find waiting for us a multi-layered surprisingly self-aware discourse about animals as well as about the anthropocentrism that infuses human relationships with them For readers of religion Judaism and animal studies her book offers new perspectives on animals from the vantage point of the ancient rabbis *Making a Stand for Animals* Oscar Horta, 2022-06-23 Engaging and thought-provoking this book examines how humans see and treat other animals and argues that we should extend equal consideration and respect to all beings human and nonhuman alike Our world is plighted by isms such as racism and sexism but we may have overlooked a very important one speciesism Speciesism is a form of discrimination against those who don't belong to a certain species It drives us to see nonhuman animals as objects rather than individuals with their own interests and with the ability to feel and suffer This book questions all of the assumptions speciesism is based upon It raises many challenging questions over humans' very complicated attitudes toward other animals Thinking about how animals are used as well as the suffering of wild animals and what the future may be for all beings this book calls for society to seriously take into account the interests of all animals For all who care about animals or simply how to make the world a better place this book is essential reading
