The Poetics and Politics of Gardening in Hard Times Naomi Milthorpe, 2019-09-25 How do poets, writers, and cultural critics contend with and represent the garden or their own gardening as they are changed by austerity? Gardening under austerity encompasses a diversity of places, spaces, practices, and actors: suburban allotments and zoological gardens, Victory diggers and urban foragers, human gardeners and the unruly more-than-human world. Theorizing the politics, poetics, and practices of austerity gardening in twentieth and twenty-first century Anglophone cultural texts, *The Poetics and Politics of Gardening in Hard Times* explores the variegated impact of austerity in conjunction with the representation of the garden in the national context of England in the mid-century and how garden imagery is embedded within and illuminates the political, economic, and social contexts of literary production.

Garden Neighborhoods of San Francisco Richard Brandt, 2021-05-13 San Francisco is not known for detached houses with landscaped setbacks lining picturesque park-side streets. But between 1905 and 1924, thirty-six such neighborhoods called residence parks were proposed or built in the city. Hundreds like them were constructed across the country, yet they are not well known or understood today. This book examines the city planning aspects of residence parks in a new way, with tracing how developers went about the business of building them on different sites and for different markets, and how they kept out black and Asian residents.

Chiswick House Gardens David Jacques, 2022-03-01 The grounds at Chiswick House are amongst the most iconic of all the historic gardens of Europe In the 1720s they reflected Lord Burlington's innovative ideas on Palladianism and antique gardens whilst the area transformed by William Kent to give a rustic appearance in the early 1730s has been recognised as one of or perhaps the birthplace of the landscape garden The grounds were periodically brought to the forefront of taste reaching another high point as the venue for spectacular garden parties under the 6th Duke of Devonshire As a garden of many periods it has given rise to passionate national debates since World War II on the principles of restoration and as a public park it has been an important project assisted by the National Lottery Heritage Fund Its renewed high state of keeping and its tranquil beauty belies its deep history of intellectual debate social tensions and practical difficulties The book concentrates on the four main periods when Chiswick gardens were in the national spotlight two when being in the forefront of taste and two concerning the restorations the first being in the 1950s when the whole question of garden restoration was entirely new The second restoration on and off since 1988 intersects with the development of a philosophical stance and national policy on the restoration of parks and gardens There is much of interest for art and architectural historians garden historians social historians and those local and international visitors who enjoy the finest public park in West London **A**
