Coping With Sexism In The Military:

Coping with Sexism in the Military Mary V. Stremlow, 1990-01-01 Discusses sexism in the military and how to deal with it
Gender and the Military Helena Carreiras, 2006-09-27 Women in the military and their relationship with war often provoke controversial reactions that reveal entrenched stereotypes and cultural values central to many societies This is the first comparative cross national study of the participation of women in the armed forces of NATO countries
Women in the United States Military Judith Bellafaire, 2011-01-26 Women's participation in the U S Armed Forces has grown over time in response to the national need for their services Throughout each era of American history patriotic women volunteered to serve their country in a wide variety of official and unofficially sanctioned capacities When there was a call to duty the United States Armed Forces always relied upon women to be a part of the effort This book provides information to enable students and scholars to understand the effect women have had on wars that have shaped the United States

Racism in Contemporary America Meyer

Weinberg, 1996-05-23 Racism in Contemporary America is the largest and most up to date bibliography available on current research on the topic It has been compiled by award winning researcher Meyer Weinberg who has spent many years writing and researching contemporary and historical aspects of racism Almost 15 000 entries to books articles dissertations and other materials are organized under 87 subject headings In addition there are author and ethnic racial indexes Several aids help the researcher access the materials included In addition to the subject organization of the bibliography entries are annotated whenever the title is not self explanatory An author index is followed by an ethnic racial index which makes it convenient to follow a single group through any or all the subject headings This is a source book for the serious study of America's most enduring problem as such it will be of value to students and researchers at all levels and in most disciplines

Gender Camouflage Francine J. D'Amico, Laurie L. Weinstein, 1999-03 Controversy about women in the military continues yet women's relations with the military go far beyond whether they serve in the ranks Gender Camouflage brings together a diverse array of authors to explore the controversy surrounding women's military service to examine the invisibility of civilian women who support the institution and to expose the military's efforts to camouflage their support and contributions Contributors first consider nurses servicewomen military academy students female veterans and lesbians The focus then shifts to military wives women employed by the DoD and female civilian military instructors whose work is less visible but no less essential to the institution The book also examines the experiences of women outside of the military such as comfort women near U S bases women engaged in peacework and women workers affected by military spending in the

federal budget Analytic chapters are juxtaposed with first person narratives by women who have actually been there including a member of the first gender integrated class at West Point the first female civilian instructors at the U S Naval Academy and an African American Air Force Nurse Corps veteran Contributors include Connie Reeves Georgia Clark Sadler Gwyn Kirk and Joan Furey Sexism and the War System Betty A. Reardon,1996-05-01 This work integrates feminist scholarship with peace research to draw attention to the fundamental relationship between sexism and militarism The author sees an unhealthy imbalance of male principles in modern society leading to war aggression greed and other embodiments of masculinity The United States Marine Corps in Books and the Performing Arts Richard L. Hemenez,2001 This enormous annotated bibliography of the Marine Corps details fiction nonfiction stage poetry music movie and television references to the Marine Corps It covers over 2 500 books 500 plus Hollywood films 80 made for television movies 100 fictional television programs articles parts of books dissertations chronologies dictionaries and oral histories Beginning with an introduction that focuses on the history of the Marine Corps this work serves as research into such subjects as duty stations ships posts heroes and their heroics uniforms boot camp and equipment Listed in the film section are over 100 former Marines who are film and television actors Reflecting the comprehensiveness of the book there are over 15 000 subject headings totaling over 25 000 indexed items The researcher and the research librarian will appreciate the depth and the breadth of the book

Women Marines in the Korean War Era Peter A. Soderbergh,1994-09-30 This is the story of that small band of women who wore U S Marine uniforms during the Korean War These women are a lost generation of women Marines who stepped into the breach between two wars and preserved the opportunity to be a Marine for those who were as yet unborn They were in fact a thin green line and they stood fast just like Marines are taught to do *Military Ethics* N. Fotion, Gerard Elfstrom,2020-12-22 Many people believe that the violent and disruptive nature of war makes a military ethic impossible The authors of this book originally published in 1986 however develop an ethical system that aims to control the military monster at least to some degree rather than one that preaches to it idealistically with little or no effect Military ethics they believe must be an ethics for peacetime as well as an ethics for war an ethics for soldiers in the field as well as an ethics for political leaders and their book is designed to meet these needs It presents a practical utilitarian approach an ethics of what is possible rather than what is ideal drawing on real military experience and different from any other work previously published The authors argue that both the pacifists who claim that the horrible and ungovernable nature of war makes it morally wrong and the realists who believe that wars must be fought but fought without moral scruple are mistaken They show that careful attention to the actual circumstances in which individual combatants function and the social institutions shaping their action allows genuine moral constraint With its emphasis on real problems Military Ethics will be of practical help to policy makers and military personnel at all levels as well as being of great interest to students of applied philosophy and ethics
