Eliot Trumbull, 1969-01-01 AT first the two yards were as much alike as the two houses each house being the exact copy of the other They were just two of those little red brick dwellings that one is always seeing side by side in the outskirts of a city and looking as if the occupants must be alike too But these two families were quite different Mr Gilton who lived in one was a pretty cross sort of man and was quite well to do as cross people sometimes are He and his wife lived alone and they did not have much going out and coming in either Mrs Gilton would have liked more of it but she had given up thinking about it for her husband had said so many times that it was women s tomfoolery to want to have people whom you weren t anything to and who weren t anything to you ringing your doorbell all the time and bothering around in your dining room which of course it was and she would have believed it if a woman ever did believe anything a man says a great many times In the other house there were five children and as Mr Gilton said they made too large a family and they ought to have gone somewhere else Possibly they would have gone had it not been for the fence but when Mr Gilton put it up and Mr Bilton told him it was three inches too far on his land and Mr Gilton said he could go to law about it expressing the idea forcibly Mr Bilton was foolish enough to take his advice The decision went against him and a good deal of his money went with it for it was a long teasing lawsuit and instead of being three inches of made ground it might have been three degrees of the Arctic Circle for the trouble there was in getting at it So Mr Bilton had to stay where he was It was then that the yards began to take on those little differences that soon grew to be very marked Neither family would plant any vines because they would have been certain to heedlessly beautify the other side and consequently the fence in all its primitive boldness stood out uncompromisingly and the one or two little bits of trees grew carefully on the farther side of the enclosure so as not to be mixed up in the trouble at all But Mr Gilton s grass was cut smoothly by the man who made the fires while Mr Bilton only found a chance to cut his himself once in two weeks Then by and by Mr Gilton bought a red garden bench and put it under the tree that was nearest to the fence No one ever went out and sat on it to be sure but to the Bilton children it represented the visible flush of prosperity Particularly was Cora Cordelia wont to peer through the fence and gaze upon that red bench thinking it a charming place in which to play house ignorant of the fact that much of the red paint would have come off on her back Cora Cordelia was the youngest of the five All the rest had very simple names John Walter Fanny and Susan but

when it came to Cora Cordelia luxuries were beginning to get very scarce in the Bilton family and Mrs Bilton felt that she must make up for it by being lavish in one direction or another She had wished to name Fanny Cora and Susan Cordelia but she had yielded to her husband and called one after his mother and one after herself and then gave both her favorite names to the youngest of all Cora Cordelia was a pretty little girl prettier even than both her names put together **Cousin Phillis and Other Stories** Elizabeth Gaskell,2010-03-11 I see her now cousin Phillis The westering sun shone full upon her and made a slanting stream of light into the room within Elizabeth Gaskell has long been one of the most popular of Victorian novelists yet in her lifetime her shorter fictions were equally well loved and they are among the most accomplished examples of the genre The novella length Cousin Phillis is a lyrical depiction of a vanishing way of life and a girl's disappointment in love deceptively simple its undercurrent of feeling leaves an indelible impression The other five stories in this selection were all written during the 1850s for Dickens's periodical Household Words They range from a quietly original tale of urban poverty and a fallen woman in Lizzie Leigh to an historical tale of a great family in Morton Hall echoes of the French Revolution the bleakness of winter in Westmorland and a tragic secret are brought vividly to life Heather Glen reflects on the stories original periodical publication and on the nineteenth century development of the short story in her Introduction to these immensely readable and sophisticated tales ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more **Short Story Index** ,2004 **Natalie, and Other Stories** Frances Hodgson Burnett,2025-06-26 Reprint of the original first published in 1879 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

Ethical Detective Rachel Haliburton, 2018-02-28 Detective fiction and philosophy 3 4 moral philosophy in particular 3 4 may seem like an odd combination Working within the framework offered by neo Aristotelian virtue ethics this book makes the case that moral philosophers ought to take murder mysteries seriously seeing them as a source of ethical insight and as a tool that can be used to spark the ethical imagination Detective fiction is a literary genre that asks readers to consider questions of good and evil justice and injustice virtue and vice and is consequently a profoundly and inescapably ethical genre Moreover in the figure of the detective readers are presented with an accessible role model who demonstrates the virtues of honesty courage and a commitment to justice that are required by those who want to live well as a virtue ethicist would understand it This book also offers a critique of contemporary moral philosophy and considers what features a neo Aristotelian conception of autonomy might display **The Sociolinguistics of Narrative** Joanna Thornborrow, Jennifer Coates, 2005-06-30 This book aims to appraise sociolinguistic work devoted to the form and function of storytelling and to examine in detail the ways in which narrative constitutes a fundamental discursive resource across a range of contexts The chapters presented here bring together some of the most recent work in the theory and practice of narrative analysis from a broad sociolinguistic perspective They address some of the questions left implicit whenever stories are brought within the analytic frame of sociolinguistics What exactly do we mean by story what kind of social and contextual variations can determine the production and shape of situated stories and what are the core elements of narrative as a discursive unit and interactional resource how is the relationship between narrative discourse and social context articulated in the construction of cultural identities The data come both from institutional settings such as workplaces courtrooms schools and the media as well as from informal everyday settings
