Cork In Bottle:

Cork in Bottle Macdonald Hastings, 1954 **To Cork Or Not To Cork** George M. Taber, 2009-12-08 Explores the controversy about corking and wine bottle sealing that has spawned a heated debate throughout the oenological community tracing the history of the cork while evaluating the merits and shortcomings of other seal contenders *Abridgments of Specifications Relating to Preparing and Cutting Cork* Anonymous, 2023-03-25 Reprint of the original first published in 1872 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost

Developing Thinking in Algebra John Mason, Alan Graham, Sue Johnston-Wilder, 2005-03-15 This is an incredibly interesting and thought provoking book Intended for anyone interested in developing their own mathematical thinking or of the students they teach whether at a primary level or right through to FE The book is a delightful blend of theory and practice encouraging the reader to participate to solve problems and to develop their own thinking Peter Hall Imberhorne School East Grinstead Mason Graham and Johnston Wilder have admirably succeeded in casting most of school algebra in terms of generalisation activity not just the typical numerical and geometric pattern based work but also solving quadratics and simultaneous equations graphing equations and factoring The authors raise our awareness of the scope of generalization and of the power of using this as a lens not just for algebra but for all of mathematics Professor Carolyn Kieran Departement de Mathematiques Universite du Quebec a Montreal Algebra has always been a watershed for pupils learning mathematics This book will enable you to think about yourself as a learner of algebra in a new way and thus to teach algebra more successfully overcoming difficulties and building upon skills that all learners have This book is based on teaching principles developed by the team at The Open University's Centre for Mathematics Education which has a 20 year track record of innovative approaches to teaching and learning algebra Written for teachers working with pupils aged 7-16 it includes numerous tasks ready for adaption for your teaching and discusses principles that teachers have found useful in preparing and conducting lessons This is a must have resource for all teachers of mathematics primary or secondary and their support staff Anyone who wishes to create an understanding and enthusiasm for algebra based upon firm research and effective practice will enjoy this book This book is the course reader for The Open University Course ME625 Developing Algebraic Thinking *The Glass of Wine* James F. Shackelford, Penelope L. Shackelford, 2017-12-27 The first book to focus on the role of glass as a material of critical importance to the wine industry For centuries glass has been the material of choice for storing shipping and sipping wine How did that come to pass and why To what extent have glassmaking and wine making co evolved over the centuries The first book to focus on the role of glass as a material of critical importance to the wine industry The Glass of Wine answers these and other fascinating questions The authors deftly interweave compelling historical technical and esthetic narratives in their exploration of glass as the vessel of choice for holding storing and consuming wine

They discuss the traditions informing the shapes and sizes of wine bottles and wine glasses and they demystify the selection of the right glass for red versus white varieties as well as sparkling and dessert wines. In addition they review the technology of modern glassmaking and consider the various roles glass plays in wineries especially in the enologist's laboratory. And they consider the increasing use of aluminum and polymer containers and its potential impact on the central role of glass as the essential material for wine appreciation. The first book focusing on the role of glass and its central importance to the wine industry. Written by a glass scientist at UC Davis home of the premier viticulture and enology program in North America. Interlards discussions of the multi billion dollar glass and wine industries with valuable technical insights for scientists, engineers and wine enthusiasts alike. Illustrates the wide spectrum of bottles, carafes, decanters and drinking glasses with an abundance of exquisite full color photos. Both an authoritative guide and a compelling read. *The Glass of Wine* tells the story of the centuries old marriage between an endlessly fascinating material and a celebrated beverage. It is sure to have enormous appeal among ceramic and glass professionals, wine makers and oenophiles of all backgrounds. Anthropocene Theater and the Shakespearean Stage William H. Steffen,2023 Anthropocene Theater and the Shakespearean Stage revises the anthropocentric narrative of early globalization from the perspective of the non human world in order to demonstrate Nature s agency in determining ecological economic and colonial outcomes It welcomes readers to reimagine theater history in broader terms and to account for more non human and atmospheric players in the otherwise anthropocentric history of Shakespearean performance This book analyses plays horticultural manuals cosmetic recipes Puritan polemics and travel writing in order to demonstrate how the material practices of the stage both catalyze and resist early forms of globalization in an ecological arena William Steffen addresses the role of an understudied ecological performance history in determining Shakespeare s iconic cultural status and models how non human players have undermined Shakespeare s authoritative role in colonial discourse Finally this book makes a celebratory argument for the humanities in the age of climate change and invites interdisciplinary engagement a research community that is compelled to
