Committee on Transportation and Infrastructure. Subcommittee on Economic Development, Public Buildings, and Emergency Management, 2005 *Strategic Giving* Peter Frumkin, 2008-09-15 The philanthropic landscape is changing dramatically as a new generation of wealthy donors seeks to leave its mark on the public sphere Peter Frumkin reveals in *Strategic Giving* why these donors could benefit from having a comprehensive plan to guide their giving And with this thoughtful and timely book he provides the much needed framework to understand and develop this kind of philanthropic strategy After listening for

years to scores of individual and institutional funders discuss the challenges of giving wisely Frumkin argues here that contemporary philanthropy requires a thorough rethinking of its underlying logic Philanthropy should be seen he contends as both a powerful way to meet public needs and a meaningful way to express private beliefs and commitments He demonstrates that finding a way to simultaneously fulfill both of these functions is crucial to the survival of philanthropy and its potential to support pluralism in society And he goes on to identify the five essential elements donors must consider when developing a philanthropic strategy the vehicle through which giving will flow the way impact will be achieved the level of engagement and profile sought the time frame for giving and the underlying purpose of the gift Frumkin's point is that donors must understand strategic giving as the integration of these five critical dimensions to giving Essential reading for donors researchers and anyone involved with the world of philanthropy Strategic Giving provides a new basis for understanding philanthropic effectiveness and a promising new way for philanthropy to achieve the legitimacy that has at times eluded it

Japanese Corporate Philanthropy Nancy R. London, 1991 Over the past decade Japanese corporations have made a series of large news generating gifts to a variety of United States universities museums and research institutions Many of these gifts have differed in both nature and magnitude from the contributions made by Japanese companies domestically The stir generated by such corporate grants is evidenced on the one hand by the influx into Japan of American European and Asian fundraisers seeking grants for their organizations and on the other hand by the intensifying debate within Japan about the appropriate role for Japanese institutions as international corporate philanthropists and citizens As with every facet of the complex United States Japan relationship cultural disparities make the American and Japanese approaches to philanthropy quite different creating the potential for friction and disappointment in this realm as surely as in the realm of trade and international business This book examines major legal and functional aspects of Japanese corporate philanthropy and attempts to place them in their cultural setting Drawing on her experience as an attorney and five years in Japan Ms London aims to make Japanese corporate grantmaking more comprehensible not only to Americans but also to Japanese as they begin to focus more attention on the role and meaning of corporate philanthropy

The New Corporate Philanthropy Frank Koch, 2012-12-06 Somehow it surprises me that this book wasn't written earlier but I'm glad it wasn't. If it had been Frank Koch probably wouldn't have sensed the vacuum that has existed and this practical book wouldn't have come to be. I'd like to stress practical. The book describes in a comprehensive and more importantly practical way how every corporation can marshal its financial support employee talents and other resources to make a meaningful impact on society. I happen to be one of those corporate executives who believes that a business has a responsibility to make such an impact. My brother Peter agrees. Our father and uncle set an example for us and the tradition goes back to our great uncles and their uncle Levi Strauss himself. For more than 125 years Levi Strauss Co has shown that social responsibility is good business and in recent years that it is also compatible with dynamic growth. We are proud of that tradition and what it produced but I think the modern era of social responsibility or corporate citizenship at Levi's got its impetus in 1968 with my association with the National Alliance of Businessmen. It was there that I saw what other companies were doing innovative ways to train to transport to provide jobs. It opened my eyes to areas in which business could become involved areas I never before thought of as business responsibilities even areas where it could have an impact.

Giving to Help, Helping to Give Tade Akin Aina, 2013-08-01 The past decade has seen a flowering of philanthropic activities across many parts of Africa. Unlike before this flowering has the distinct character of African agency energy and engagement. Philanthropy is no longer about narratives of passive poor and miserable Africans receiving help from rich fortunate and often Western outsiders. The emerging narratives about philanthropy in Africa are about an increasingly confident and knowledgeable assertion of African capacities to give not only to help but also to transform and seek to address the root causes of injustice want ignorance and disease. The narratives are also about the increasing questioning of the role and place of Africans in the world's philanthropic traditions and what constitutes African specificities but also African differences and varieties. This book is about African philanthropic experiences their varieties challenges and opportunities. It is about documenting investigating describing questioning and reflecting on philanthropy in Africa. Because Africa is not a monolithic entity with one single history cultural political and economic experience this ground breaking book rightly tackles the varied modes forms vehicles and means in which the philanthropic experiences are expressed in Africa. It is a pioneering and ambitious effort in a field and community of practice that is new both in terms of scholarship and in professional practice. Many of the chapters boldly engage the burden of reflections questions ambivalences and ambiguities.
