The Semantics of Form in Arabic in the Mirror of European Languages David Justice, 1987-01-01 Justice's first aim in this volume is to demystify the Arabic language which is widely perceived as difficult to learn and has been characterised as ambiguous and confusingly polysemous The central concern of this three dimensional portrait of Classical Arabic is a version of the Sapir Whorf hypothesis that language is a determinant of other aspects of culture But rather than focusing on the possible influences of language on thought Justice is interested in connections between language and language use or langue and parole Among the topics treated are the difficulty of Arabic morphosyntax and Whorfian semantics the role of duality in Arabic iconicity a population profile of vocabulary the syntactic cut of Arabic and the relation between causatives and verbs that ascribe qualities to an object This erudite and thought provoking volume will be of interest not only to Arabists but to linguistic anthropologists in general *Arabic Grammar and Linguistics* Yasir Suleiman, 2013-01-11 This book explores aspects of the Arabic Grammatical Tradition and Arabic Linguistics from both a theoretical and descriptive perspective It also touches on issues of relevance to other disciplines particularly Qur'anic exegesis and jurisprudence The links between the fields of language and religion are historically strong in the Arabic and Islamic traditions as so much time and effort was spent by grammarians in interpreting the precise meanings of two of the main sources of Islamic jurisprudence the Quran and Hadith Prof Suleiman has assembled an international team of experts in this area and presents a thorough review of the sources and arguments The book will be of interest to all students researchers and teachers of Arabic Language and Culture **Studies in Arabic Syntax and Semantics** Ariel A. Bloch, 1991 In view of the great upsurge of interest in syntax in recent years it is remarkable that there are so few studies of Arabic syntax and the works of a diachronic orientation are virtually nonexistent The main portion of this book is historical dealing with fundamental mechanisms of syntactic and semantic change Here Bloch has made a substantial contribution to the historical syntax of Arabic Throughout the book the phenomena are viewed from a broad perspective that takes into account evidence not only from all periods and genres of Arabic Ancient Poetic Koranic Classical Middle Modern Literary and Colloquial but also from

other Semitic and occasionally non Semitic In the second printing are almost exclusively corrections of misprints and other minor alterations made
