Self Help Groups

SHG is group of rural poor who have volunteered to organise themselves into a group for eradication of poverty of the members. They agree to save regularly and convert their savings into a Common Fund known as the Group corpus. The members of the group agree to use this common fund and such other funds that they may receive as a group through a common management. The group formation will keep in view the following broad guidelines :

Generally a self-help group may consist of 10 to 20 persons. However, in difficult areas like deserts, hills and areas with scattered and sparse population and in case of minor irrigation and disabled persons, this number may be from 5-20. The difficult areas have to be identified by the State Level SGSY Committee and the above relaxation in membership will be permitted only in such areas.

Generally all members of the group should belong to families below the poverty line. However, if necessary, a maximum of 20% and in exceptional cases , where essentially required, upto a maximum of 30% of the members in a group may be taken from families marginally above the poverty line living contiguously with BPL families and if they are acceptable to the BPL members of the group. This will help the families of occupational groups like agricultural labourers, marginal farmers and artisans marginally above the poverty line, or who may have been excluded from the BPL list to become members of the Self Help Group. However, the APL members will not be eligible for the subsidy under the scheme. The group shall not consist of more than one member from the same family. A person should not be a member of more than one group. The BPL families must actively participate in the management and decision making, which should not ordinarily be entirely in the hands of APL families. Further, APL members of the Self Help Group shall not become office bearers(Group Leader, Assistant Group Leader or
