Common Sense as a Paradigm of Thought Tim Delaney, 2018-12-07 The notion of common sense and abiding by its implications is something that seemingly everyone agrees is a good way of making behavioral decisions and conducting one s daily activities This holds true whether one is a liberal moderate or conservative young or old and regardless of one s race and ethnicity gender or sexual orientation If utilizing common sense is such a good idea why then do so many people seem to violate it This is just one of many significant questions surrounding the idea of common sense explored and discussed in this book This volume presents common sense as

The Diversity of Darkness and Shameful Behaviors Tim Delaney, 2022-05-06 The premise of The Diversity of Darkness and Shameful Behaviors is to emphasize the need for enlightened rational thinking as a paradigm of thought as the culture of shamelessness continues to grow and cast its repulsive dark shadow over those who embrace enlightened reason and basic human rights for all Diversity of Darkness is an innovative work and represents the third book of a trilogy written by the author that underscores the reality that there are many shamefully hateful and deadly behavioral threats that have jeopardized the very notions of civility decency and justice around the world This unique book utilizes evidence based approaches in the examination of human behaviors in society that have become increasingly shameful and tolerated among a growing number of enablers Key features include a combination of academic analyses that draw on numerous and specific examples of the diversity of darkness that encompasses the world along with a balanced practical everyday life approach to the study of the socio political world we live in through the use of contemporary culture references and featured popular culture boxes Social scientists social thinkers and the general audience alike will be intrigued by the diversity of topics covered including anti civil rights movements the rise of supremacist groups hate crimes mass shootings and active shootings terrorism war and genocide an increase in shameful behaviors and attempts to shame others and attacks on science reason and rationality We should realize that humanity has the intellect to accomplish great feats but heed the growing culture of shamelessness irrationality and the diversity of darkness

Social Deviance Tim Delaney, 2017-06-16 The topic of social deviance is inherently intriguing People in general and college students in particular find the topic of deviant behavior fascinating This can be explained at least in part by a combination of the subject matter itself our own past deviant behaviors and our willingness and desire to evaluate and comment on the behaviors of others While the topic of deviant behavior seems straightforward at the surface the study of social deviance reveals how complicated it really is Although Social Deviance utilizes a textbook style approach in its coverage of deviant behavior this comprehensive straightforward and student friendly book maintains student interest because of the author's use of real life phenomena and current examples Each chapter includes chapter objectives an introductory story a glossary of key terms discussion questions and boxed material The boxed materials include A Closer Look box that zooms in on topics that warrant deeper explanation and a Connecting Social Deviance and Popular Culture box that shows how contemporary forms of popular culture illustrate deviant behavior

Marxism and the Movies Mary K. Leigh, Kevin K. Durand, 2013-11-04 The work of Karl Marx is revered in social philosophy political science and literary criticism but there is an area where Marxism seems not to have penetrated That area is the study of popular culture especially the cinema where Marxism provides a useful lens through which seemingly disparate films can be explored As a whole the new essays assembled here approach a wide cross section of cinematic history and provide analysis of blockbusters cult hits comedies suspenseful dramas and history making films within a framework of power power relations and class struggle The collection brings to popular culture studies the same scholarly weight that attends the work of Aristotle or Plato or Derrida and at the same time presents that scholarship in an accessible style
