Contexts of Kinship. - An Essay in the Family Sociology of the Gonja Esther N.. Goody, 1973 Understanding Reproduction in Social Contexts Caitlin Killian, 2025-06-12 In today's post-Roe world U.S. maternal mortality is on the rise and laws regarding contraception involuntary sterilization access to reproductive health services and criminalization of people who are gestating are changing by the minute Using a reproductive justice framework *Understanding Reproduction in Social Contexts* walks students through the social landscape around reproduction through the life course Chapters by cutting edge reproductive scholars practitioners and advocates address the social control of fertility and pregnancy the promises and perils of assisted reproductive technologies experiences of pregnancy miscarriage abortion and birth and how individuals make sense of and respond to the cultural social and political forces that condition their reproductive lives The book takes an intersectional approach and considers how gender sexuality fatness disability class race and immigration status impact both an individual's health and the healthcare they receive The inclusion of timely topics such as increased legal limitations on abortion transpeople and reproduction and new developments in assisted reproduction and family formation speaks to the current generation of students An essential text for undergraduate and graduate courses on families gender public health reproduction and sexuality **Ghosts of Memory** Janet Carsten, 2008-04-15 *Ghosts of Memory* provides an overview of literature on relatedness and memory and then moves beyond traditional approaches to the subject exploring the subtle and complex intersections between everyday forms of relatedness in the present and memories of the past Explores how various subjects are located in personal and familial histories that connect to the wider political formations of which they are a part Closely examines diverse and intriguing case studies e.g. Catholic residents of a decayed railway colony in Bengal and sex workers in London Brings together original essays authored by contemporary experts in the field Draws on anthropology literature memory studies and social history **De Gruyter Handbook of Business Families** Michael Carney, Marleen Dieleman, 2023-01-30 The management field increasingly recognizes that most firms in the world are family firms and that these entities operate differently from the non-family firms on which most of our current management theories are based The *De Gruyter Handbook of Business Families* brings together work from leading academics who explore emerging research themes relevant to business families particularly drawing in new insights from adjacent disciplines that can advance the family business field The handbook challenges the traditional notion of the single firm single family that has characterized most early research on family business Recognizing that families may simultaneously own or control multiple businesses as well as substantial wealth beyond these firms in the form of financial and non-financial assets this handbook focuses on business families rather than the narrower construct of family business The contributions in this handbook explore the

relatively neglected dynamics between individuals with family ties that shape the interaction between family and business business families with multiple businesses how business families adopt formal rules and processes around their joint activities and the institutionalization of wealth and business families in society The De Gruyter Handbook of Business Families fills a gap in the family business research literature and is an essential reference work for researchers and graduate level students in the area of business families

Culture and Cognition J. W. Berry, P. R. Dasen, 2019-03-04 Originally published in 1974 studies of cultural influences on cognition carried out from a variety of theoretical and methodological stances were collected for the first time in this volume The editors placed particular emphasis on selecting material by authors from many countries who had been working with people from a wide range of cultures In a general introduction they provide an historical overview of the major issues and draw together the most recent attempts to bring methodological sophistication to this difficult area of enquiry Suggestions for future research on basic problems are to be found in an epilogue along with a consideration of some possible applications of these studies to problems of education and social change A comprehensive bibliography with over 600 entries is included in the volume

The SAGE Handbook of Child Research Gary B Melton, Asher Ben-Arieh, Judith Cashmore, Gail S. Goodman, Natalie K. Worley, 2013-12-18 It is refreshing to see a book such as this which is both broad in its conceptualization of the field of child research and deep in its focus The volume s editors are paragons of awareness when it comes to the need for interdisciplinary research and theory to illuminate the lives and experience of children James Garbarino Loyola University Chicago Covers a satisfying and unprecedentedly wide range of research relating to childhood The contributors include many eminent international scholars of childhood making the book a valuable resource for child researchers Child advocates will also find the book to be invaluable in their efforts to improve children s well being and to change policies and practices for the better Anne Smith University of Otago A really scintillating collection that will provide a lasting perspective on child studies stimulating and comprehensive Jonathan Bradshaw University of York In keeping with global changes in children s social and legal status this Handbook includes examination of children as family members friends learners consumers people of faith and participants in law and politics The contributors also discuss the methodological and ethical requirements for research that occurs in natural settings and that enables children themselves to describe their perspective The book is divided into three parts Part I Setting Specific Issues in Child Research Part II Population Specific Issues in Child Research Part III Methods in Research on Children and Childhood

The Gender/sexuality Reader Roger N. Lancaster, Micaela Di Leonardo, 1997 Textbook on gender **The Northern Routes to Kingship** Dagfinn Skre, 2025-01-31 This book argues that tribal Scandinavia was set on the route to kingship by the arrival in the AD 180s 90s of warrior groups that were dismissed from the Roman army after defeating the Marcomanni by the Danube Using a range of evidence this book details how well equipped and battle seasoned warriors familiar with Roman institutions and practices seized land and established lordly centres It shows how these new lords acquired wealth by stimulating the production of commodities for trade with peers and Continental associates Romans included to reward retainers and bestow on partners In these transcultural circumstances lords and their retainers nurtured artisanal production of exquisite quality and developed a heroic ethos and refined hall etiquette The topic of warfare created by the volatile politics of lordly cooperation and competition is also explored Venturing substantially beyond the usual scope of syntheses of this period this book looks at how the break up of the Western Roman Empire and the rise of Great tribes such as the Franks and Goths influenced lords and tribal leaders across Scandinavia to form kingdoms emulating what they for centuries had considered the superior polity the Roman Empire This book's fresh take on disputed research topics will inspire scholars students and interested readers to delve further into this pivotal period of European history Critical Inuit Studies Pamela R. Stern, Lisa Stevenson, 2006-12-01 Critical Inuit Studies offers an overview of the current state of Inuit studies by bringing together the insights and fieldwork of more than a dozen scholars from six countries currently working with Native communities in the far north The volume showcases the latest methodologies and interpretive perspectives presents a multitude of instructive case studies with individuals and communities and shares the personal and professional insights from the fieldwork and thought of distinguished researchers The wide ranging topics in this collection include the development of a circumpolar research policy the complex identities of Inuit in the twenty first century the transformative relationship between anthropologist and collaborator the participatory method of conducting research the interpretation of body gesture and the reproduction of culture the use of translation in oral history memory and the construction of a collective Inuit identity the intricate relationship between politics indigenous citizenship and resource development the importance of place names housing policies and the transition from igloos to permanent houses and social networks in the urban setting of Montreal **Religious Conversions in the Mediterranean World** N. Marzouki, O. Roy, 2013-08-22 While globalization undermines ideas of the nation state in the Mediterranean conversions reveal how religion can unsettle existing political and social relations Through studies of conversions across the region this book examines the challenges that conversions represent for national legal and policy ways of dealing with religious minorities *Anthropological Theory* Robert Alan Manners, David Kaplan, Anthropological theory has been much discussed in recent years yet the crucial

questions still remain how can it be defined how is it developed how is it to be applied and how can one confirm it The editors of Anthropological Theory answer these questions by presenting essays relating to various aspects of anthropological theory Their selections from widely scattered and often difficult to obtain sources present a comprehensive set of writings that describe the current position and issues involved in theory The development of field work in anthropology generated a tremendous emphasis on empirical data and research The plethora of information awaiting collection and the enthusiasm with which the field embraced it so immersed anthropologists that they were unable to relate this new information to the field as a whole Manners and Kaplan believe that this lack of generalization had a profoundly negative effect upon the discipline Therefore they look closely into the relationship between field work and theory in an opening essay and go on to present material that demonstrates the value and the necessity of theory in anthropology Essays by anthropologists and other social scientists deal with explanation evolution ecology ideology structuralism and a number of other issues reflecting throughout the editors conviction that anthropology is a science the goal of which is to produce generalizations about sociocultural phenomena The book provides necessary perspective for examining and evaluating the crucial intellectual concerns of modern anthropology and will therefore be important for the work of every anthropologist Robert A Manners 1913 1996 received his Ph D from Columbia University and carried on field work in the Caribbean among American Indians in the Southwest and in East Africa He wrote numerous articles and reviews for anthropological journals as well as many books He was professor of anthropology Brandeis University where he started up the department David Kaplan is professor emeritus of anthropology at Brandeis University He has contributed articles and reviews to various journals He has also done field work in Mexico and his areas of specialty include economic anthropology method and theory and peasant culture of Mesoamerica

Changing Families Bob Simpson, 2020-08-26 Recent decades have seen spectacular increases in the levels of divorce and separation across the Western world This important development is having a radical impact on the conduct and nature of family relationships This book offers an original investigation of these critical transformations through an ethnographic analysis of post divorce family life in Britain and provides insightful answers to vexing questions such as What cultural values and ideologies motivate and shape concerns over relationships when marriage ends Which relationships continue and why What cultural values underpin the financial transactions that take place or more commonly fail to take place after divorce Drawing on extensive interviews with those most affected by divorce the author argues that the positive sentiments traditionally associated with the notion of kinship are wholly inadequate when it comes to understanding divorce but that kinship can provide an illuminating window through which to consider the breakdown of marital relations This book represents a significant contribution to current debates over the changing form and expression of relationships in Western society in the late twentieth century

AIDS in the Shadow of Biomedicine Isak Niehaus, 2018-12-15 The Bushbuckridge region of South Africa has one of the highest rates of HIV infection in the world Having first arrived in the area in the early

1990s the disease spread rapidly and by 2008 life expectancies had fallen by 12 years for men and 14 years for women Since 2005 public health facilities have increasingly offered free HAART highly active antiretroviral therapy treatment offering a degree of hope but uptake and adherence to the therapy has been sporadic and uneven Drawing on his extensive ethnographic research carried out in Bushbuckridge over the course of 25 years Isak Niehaus reveals how the AIDS pandemic has been experienced at the village level Most significantly he shows how local cultural practices and values have shaped responses to the epidemic For example while local attitudes towards death and misfortune have contributed to the stigma around AIDS kinship structures have also facilitated the adoption and care of AIDS orphans Such practices challenge us to rethink the role played by culture in understanding and treating sickness with Niehaus showing how an appreciation of local beliefs and customs is essential to any effective strategy of AIDS treatment Overturning many of our assumptions on disease prevention the book is essential reading for practitioners as well as researchers in global health anthropology sociology epidemiology and scholars interested in public health and administration in sub Saharan Africa

Discourse and Psychology Saumya Sharma,2019-09-06 This book presents a unique understanding of the interdependence between language and psychology and how one's speech is shaped by and in turn shapes one's thoughts beliefs and emotions Drawing on the tenets of discourse analysis and psychology it presents a comprehensive guide to a new and burgeoning area in linguistics and critical theory The volume focusses on individual and group behaviour to show how identity formation is as much dependent on the psychological state as on social surroundings and context It introduces various concepts from the sociocognitive framework discursive and critical psychology highlighting the myriad ways of approaching the complex interface between text sociocultural factors and cognitive processes An indispensable guide to the complex world of language and the unconscious the volume will be of interest to students and scholars of linguistics applied linguistics sociolinguistics psychology and behavioural science language and critical theory It is also a must read for the general reader interested in language communication and social intelligence

Geographies of Migration Richard Wright,2018-02-02 Migration is an enormously broad topic of academic enquiry engaging researchers from many different social science disciplines A wide variety of contributors from across the globe capture some of the methodological and conceptual range of migration research in the discipline of Geography today This volume covers a large area geographically and in the expanse of subject areas involved eighteen chapters investigate migration from to or within at least fifteen countries with several sections spanning multiple places and scales Many chapters are deeply concerned with vulnerable populations which is not only a characteristic of much immigration scholarship but also one that connects with other areas of geography The study of geographical assertions of sovereign power via the discourses of disorder chaos and crisis shows that in these transnational times national power is being violently reasserted on within and beyond international borders Other important topics covered include migration and climate change illegality security government policy labor family and sexual orientation This book was

previously published as a special issue of Annals of the Association of American Geographers *Lesbian Motherhood* Róisín Ryan-Flood, 2009-05-27 This book studies the growing number of lesbian women embarking on parenthood after coming out Theoretical debates about lesbian motherhood often consider its assimilative or transgressive dimensions This book offers a different approach contextualising lesbian motherhood in relation to sexual citizenship and hegemonic discourses of kinship

Bioarchaeologists Speak Out Jane E. Buikstra, 2018-10-26 Bioarchaeologists who study human remains in ancient historic and contemporary settings are securely anchored within anthropology as anthropologists yet they have not taken on the pundits the way other subdisciplines within anthropology have Popular science authors frequently and selectively use bioarchaeological data on demography disease violence migration and diet to buttress their poorly formed arguments about general trends in human behavior and health beginning with our earliest ancestors While bioarchaeologists are experts on these subjects bioarchaeology and bioarchaeological approaches have largely remained invisible to the public eye Current issues such as climate change droughts warfare violence famine and the effects of disease are media mainstays and are subjects familiar to bioarchaeologists many of whom have empirical data and informed viewpoints both for topical exploration and also for predictions based on human behavior in deep time The contributions in this volume will explore the how and where the data has been misused present new ways of using evidence in the service of making new discoveries and demonstrate ways that our long term interdisciplinarity lends itself to transdisciplinary wisdom We also consider possible reasons for bioarchaeological invisibility and offer advice concerning the absolute necessity of bioarchaeologists speaking out through social media
