Continental Divide The Values And Institutions Of The United States And Canada:

Continental Divide Seymour Martin Lipset, 2013-10-11 Seymour Martin Lipset's highly acclaimed work explores the distinctive character of American and Canadian values and institutions. Lipset draws material from a number of sources: historical accounts, critical interpretations of art, aggregate statistics and survey data as well as studies of law, religion and government. Drawing a vivid portrait of the two countries, *Continental Divide* represents some of the best comparative social and political research available.

The United States and Canada Paul J. Quirk, 2019-07-11 This edited volume presents an integrated comparative examination of the political systems of the United States and Canada with special attention to the effects of political institutions and their interaction with political values and other factors in policymaking. It explores in particular the differences between the American presidential or separation of powers system and the Canadian parliamentary system. It also considers a number of further institutional differences concerning federalism, bureaucratic leadership, judicial definitions of citizens' rights and others.

Nationalism and Social Policy Daniel Béland, André Lecours, 2008-08-07 Despite the recent proliferation of literature on nationalism and on social policy, relatively little has been written to analyse the possible interaction between the two. Scholars interested in social citizenship have indirectly dealt with the interaction between national identity and social programs such as the British NHS, but they have seldom examined this connection in reference to nationalism. Specialists of nationalism rarely mention social policy, focusing instead on language, culture, ethnicity and religion. The main objective of this book is to explore the nature of the connection between nationalism and social policy from a comparative and historical perspective. At the theoretical level, this analysis will shed new light on a more general issue: the relationships between identity formation, territorial politics and social policy. Although this book refers to the experience of many different countries, the main cases are three multinational states that is states featuring strong nationalist movements: Canada, Quebec, the United Kingdom, Scotland and Belgium, Flanders. The book looks at the interplay between nationalism and social policy at both the state and sub-state levels through a detailed comparison between these three cases. In its concluding chapter, the book brings in cases of mono-national states, i.e. France, Germany, Sweden and the United States, to provide broader comparative insight on the meshing of nationalism and social policy. The original theoretical framework for this research is built using insight from selected scholarship on nationalism and on the welfare state.

Canada in the World Richard Albert, David R. Cameron, 2018 Marking the Sesquicentennial of Confederation in Canada, this book examines the growing global influence of Canada's Constitution and Supreme Court on courts confronting issues involving human rights.

Routledge Handbook of Latin America in the World Jorge Domínguez, Ana Covarrubias, 2014-10-17 The *Handbook of Latin America in the World* explains how the Latin American countries have both reacted and contributed to changing international dynamics over the last 30 years. It provides a comprehensive picture of Latin America's global engagement by looking at specific processes and issues that link governments and other actors, social and economic, within

the region and beyond Leading scholars offer an up to date state of the field theoretically and empirically thus avoiding a narrow descriptive approach The Handbook includes a section on theoretical approaches that analyze Latin America s place in the international political and economic system and its foreign policy making Other sections focus on the main countries actors and issues in Latin America s international relations In so doing the book sheds light on the complexity of the international relations of selected countries and on their efforts to act multilaterally The Routledge Handbook of Latin America in the World is a must have reference for academics researchers and students in the fields of Latin American politics international relations and area specialists of all regions of the world

Through a Lens Darkly David M. Haskell,2009 Do journalists report more favourably on people that they like than on those they don t Canada s evangelicals think so For years they ve accused the country s news personnel of being prejudiced against them both personally and in their coverage However up to now the evangelicals charge of media bias has never been empirically examined This book puts that charge to the test An in depth survey of national news personnel accompanied by an extensive multi year examination of news coverage reveals how Canada s journalists feel about evangelicals how they report on evangelicals and how and when their feelings influence their reporting In the end this book concludes when the beliefs and actions of Canadian evangelicals directly clash with the heart felt convictions of Canadian national journalists the journalists are willing to abandon their professional objectivity and slant their stories against their ideological opponents In addition this book uses the media s treatment of evangelicals as a backdrop for the discussion of larger issues How the media construct the news how and why the media cover religion as they do whether journalistic objectivity exists at all and the affect media messages have on audiences is explored Also advice on how religious groups can overcome media bias is offered As the first book to apply the tools of quantitative research to the topic of religion and the news in Canada this book is groundbreaking However written with the lay reader in mind the theoretical underpinnings of the work and methodologies used are presented in accessible easy to understand terms This book will be of interest to all member of the evangelical community clergy and faith leaders and scholars of religion or mass communication This is response rather than reaction Intelligent balanced incisive and instructive At last such a book about such a subject from someone who understands evangelical Christianity as well as media Essential reading for everyone interested in both Michael Coren Author columnist and broadcaster David M Haskell Ph D is associate professor of journalism and contemporary studies at the Brantford campus of Wilfrid Laurier University

America in the United States and the United States in America Gabriel Moran,2018-08-28 America is five hundred years old the United States is less than half that age The term America was coined in 1507 to refer to a continent and a dream of a new world People in the United States especially government leaders have a serious problem of regularly speaking as if their country were America Author Gabriel Moran reflects on the use of the word America in the United States from its beginning to the present He cites numerous examples to show the importance of distinguishing between the United States and America The

result is a different way of perceiving and understanding the history of the United States This book is especially relevant to the current political division within the United States and some of the missteps in its foreign policy The failure to consistently distinguish between the nation of the United States and the continent and dream America underlies nearly every political cultural and economic problem that the country faces

A North American Free Trade Agreement Michael Hart, Centre for Trade Policy and Law, Institute for Research on Public Policy, 1990 This document discusses the challenge from Mexico the North American trade regime North American trade and investment patterns and issues and options for the future It also examines what is involved in a tripartite agreement

The Palgrave Handbook of Canada in International Affairs Robert W. Murray, Paul Gecelovsky, 2021-04-29 This book argues that Canada and its international policies are at a crossroads as US hegemony is increasingly challenged and a new international order is emerging The contributors look at how Canada has been adjusting to this new environment and resetting priorities to meet its international policy objectives in a number of different fields from the alignment of domestic politics along new foreign policies to reshaping its international identity in a post Anglo order its relationship with international organizations such as the UN and NATO place among middle powers management of peace operations and defense role in G7 and G20 climate change and Arctic policy development and relations with the Global South Embracing multilateralism has been and will continue to be key to Canada's repositioning and its ability to maintain its position in this new world order This book takes a comprehensive look at Canada's role in the world and the various political and policy variables that will impact Canada's foreign policy decisions into the future Chapter 22 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

Recent Social Trends in Canada, 1960-2000 Lance W. Roberts, Rodney A. Clifton, Barry Ferguson, 2005-08-15 The introduction summarizes and locates the major waves of change The authors then document each trend in relation to eighteen thematic groups that include age community women labour management stratification social relations the state mobilizing institutions social forces ideologies households lifestyle leisure education integration and attitudes and values

Celebrating Canada Raymond B. Blake, Matthew Hayday, 2018-01-01 In Volume 2 of Celebrating Canada Raymond B. Blake and Matthew Hayday bring together emerging and established scholars to consider key moments in Canadian history when major anniversaries of Canada's political social or cultural development were celebrated

Internationalizing the History of American Art Barbara S. Groseclose, Jochen Wierich, 2009 A collection of essays presenting international perspectives on the narratives and the practices grounding the scholarly study of American Art Provided by publisher

The American Anomaly Raymond A. Smith, 2018-12-07 *The American Anomaly* systematically analyzes the US political system by way of comparison with other countries especially other industrialized democracies It is organized into four sections respectively covering the constitutional order governmental institutions political participation and public policy Extended case studies and examples in each chapter draw on all the major regions of the world Thoroughly revised throughout the fourth edition includes Updates

to reflect events including the anomalous presidential election of 2016 the start of the unconventional presidency of Donald Trump and shifting partisan dynamics within Congress Coverage of recent political developments such as the Black Lives Matter and Antifa left wing groups the rise of the Alt Right and resurgent nationalism and youth led movements for immigration reform and gun violence prevention A newly developed chapter offering a comparative perspective on U S public opinion and mass media including social media includes a new case study focused on post Communist Russia and a chart on comparative freedom of the press The contextualizing of emerging political memes such as fake news alternative facts the deep state Brexit and MeToo Updates to examples from other countries including challenges to the European Union the aftermath of the Arab Uprisings recent political upheavals in Venezuela Zimbabwe South Korea and Brazil the global reassertion of Russian power and its possible manipulation of the US election and the steady growth of China s global military and economic role A substantive update to the domestic policy chapter in light of the return of unified Republican control in Washington DC and to the foreign policy chapter taking into account isolationist and unilateralist thinking in the Trump administration Updated tables and charts comparing major democratic political systems expanded further reading suggestions and revised discussion questions and Web based exercises throughout the book

Beyond Walls: Re-inventing the Canada-United States Borderlands Victor Konrad, Heather Nicol, 2016-12-05 September 11 2001 marked the beginning of a new era of security imperatives for many countries The border between Canada and the United States suddenly emerged from relative obscurity to become a focus of constant attention by media federal and state provincial governments on both sides of the boundary and the public at large This book provides a comprehensive examination of the Canada USA border in its 21st century form placing it within the context of border and borderlands theory globalization and the changing geopolitical dialogue It argues that this border has been reinvented as a state of the art technology steeped crossing system while the image of the border has been engineered to appear consistent with the friendly border of the past It shows how a border can evolve to a heightened level of security and yet continue to function well sustaining the massive flow of trade It argues whether in doing so the US Canada border offers a model for future borderlands Although this model is still evolving and still aspires toward better management practices the template may prove useful not only for North America but also in conflict border zones as well as the meshed border regions of the EU Africa s artificial line boundaries and other global situations

North American Borders in Comparative Perspective Guadalupe Correa-Cabrera, Victor Konrad, 2020-04-07 The northern and southern borders and borderlands of the United States should have much in common instead they offer mirror articulations of the complex relationships and engagements between the United States Mexico and Canada In *North American Borders in Comparative Perspective* leading experts provide a contemporary analysis of how globalization and security imperatives have redefined the shared border regions of these three nations This volume offers a comparative perspective on North American borders and reveals the distinctive nature first of the overportrayed Mexico U S

border and then of the largely overlooked Canada U S border The perspectives on either border are rarely compared Essays in this volume bring North American borders into comparative focus the contributors advance the understanding of borders in a variety of theoretical and empirical contexts pertaining to North America with an intense sharing of knowledge ideas and perspectives Adding to the regional analysis of North American borders and borderlands this book cuts across disciplinary and topical areas to provide a balanced comparative view of borders Scholars policy makers and practitioners convey perspectives on current research and understanding of the United States borders with its immediate neighbors Developing current border theories the authors address timely and practical border issues that are significant to our understanding and management of North American borderlands The future of borders demands a deep understanding of borderlands and borders This volume is a major step in that direction Contributors Bruce Agnew Donald K Alper Alan D Bersin Christopher Brown Emmanuel Brunet Jailly Irasema Coronado Guadalupe Correa Cabrera Michelle Keck Victor Konrad Francisco Lara Valencia Tony Payan Kathleen Staudt Rick Van Schoik Christopher Wilson Language and Politics in the United States and Canada Thomas K. Ricento, Barbara Burnaby, 1998-05-01 This volume critically analyzes and explains the goals processes and effects of language policies in the United States and Canada from historical and contemporary perspectives The focus of this book is to explore parallel and divergent developments in language policy and language rights in the two countries especially in the past four decades as a basis for reflection on what can be learned from one country's experience by the other Effects of language policies and practices on majority and minority individuals and groups are evaluated Differences in national and regional language situations in the U S and Canada are traced to historical and sociological demographic and legal factors which have sometimes been inappropriately generalized or ignored by ideologues The point is to show that certain general principles of economics and sociology apply to the situations in both countries but that differing notions of sovereignty state and nation ethnicity pluralism and multiculturalism have shaped attitudes and policies in significant ways Understanding the bases for these varying attitudes and policies provides a clearer understanding of the idiosyncratic as well as more universal factors that contribute to tensions between groups and to outcomes many of which are unintended The volume makes clear that language matters always involve issues of culture economics politics individual and group identities and local and national histories The chapters provide detailed analyses on a wide range of issues at the national state provincial and local levels in both countries The chapter authors come from a variety of academic disciplines education geography journalism law linguistics political science and sociology and the findings taken together contribute to an evolving interdisciplinary theory of language policy Routledge Handbook of Regionalism & Federalism John Loughlin, John Kincaid, Wilfried Swenden, 2013-07-18 Almost all states are either federal or regionalized in some sense It is difficult to find a state that is entirely unitary and the Routledge Handbook of Regionalism and Federalism necessarily takes in almost the entire world Both federalism and regionalism have been subjects of a vast academic literature mainly from political science but sometimes

also from history economics and geography This cutting edge examination seeks to evaluate the two types of state organization from the perspective of political science producing a work that is analytical rather than simply descriptive The Handbook presents some of the latest theoretical reflections on regionalism and federalism and then moves on to discuss cases of both regionalism and federalism in key countries chosen from the world s macro regions Assembling this wide range of case studies allows the book to present a general picture of current trends in territorial governance The final chapters then examine failed federations such as Czechoslovakia and examples of transnational regionalism the EU NAFTA and the African Union Covering evolving forms of federalism and regionalism in all parts of the world and featuring a comprehensive range of case studies by leading international scholars this work will be an essential reference source for all students and scholars of international politics comparative politics and international relations

American Political Scientists Glenn H. Utter, Charles Lockhart, 2002-10-30 This dictionary offers the only comprehensive collection of profiles of American political scientists each of whom contributed significantly to the intellectual development of American political science from its beginnings in the late 19th century to the present This second edition includes 22 new and 110 revised entries reflecting new scholarship that emerged during the 1990s Numerous experts helped the editors develop this consensus group of the 193 political scientists who have made the most important theoretical contributions over the years with attention to varied approaches and the different subfields Alphabetically arranged entries focus on the main ideas and major works by each scholar listing list the most important publications by and about the individual There are numerous cross references to show how the work of one scholar has influenced another in the discipline Appendices list the political scientists by degree granting institutions and by major fields A short bibliography points to important general readings about the profession A general index makes this major reference easily accessible for broad interdisciplinary research

Value Change in the Supreme Court of Canada Matthew E. Wetstein, C.L. Ostberg, 2017-01-01 Value Change in the Supreme Court of Canada is a groundbreaking analysis of the degree to which Supreme Court decisions reflect the changing values of society over the past four decades Focusing on three key areas of law environmental disputes free speech and discrimination cases Wetstein and Ostberg provide a revealing analysis of the language used by Supreme Court justices in landmark rulings in order to document the way that value changes are transmitted into the legal and political landscape Bolstered by a comprehensive and nuanced blend of research methods Value Change in the Supreme Court of Canada offers a sweeping analysis of pre and post Charter influences one that will be of significant interest to political scientists lawyers journalists and anyone interested in the increasingly powerful role of the Supreme Court

The Oxford Handbook of Canadian Politics John Courtney, John Childs Courtney, David Smith, 2010-04-29 The Oxford Handbook of Canadian Politics provides a comprehensive overview of the transformation that has occurred in Canadian politics since it achieved autonomy nearly a century ago examining the institutions and processes of Canadian government and politics at the local provincial and federal levels It analyzes all

aspects of the Canadian political system the courts elections political parties Parliament the constitution fiscal and political federalism the diffusion of policies between regions and various aspects of public policy
