exhibits both traditional and digital Externally the museum works in partnership with local communities and other agencies to make a real difference in response to societal challenges Black considers what this means for the management and structure of the museum emphasising that it is not possible to separate the development of a participative experience from the ways in which the museum is organised Museums and the Challenge of Change is highly practical and focused on initiatives that museums can implement swiftly and cheaply making a real impact on user engagement The book will thus be essential reading for museum practitioners and students of museum studies around the globe
