Said, Lena Meari, Doctor Nicola Pratt, 2015-05-14 Ever since the uprisings that swept the Arab world the role of Arab women in political transformations received unprecedented media attention The copious commentary however has yet to result in any serious study of the gender dynamics of political upheaval *Rethinking Gender in Revolutions and Resistance* is the first book to analyse the interplay between moments of sociopolitical transformation emerging subjectivities and the different modes of women s agency in forging new gender norms in the Arab world Written by scholars and activists from the countries affected including Palestine Egypt Tunisia and Libya this is an important addition to Middle Eastern gender studies

Waiting Navtej Dhillon, Tarik Yousef, 2011-09-01 Young people in the Middle East 15-29 years old constitute about one third of the region's population. Growth rates for this age group trail only sub-Saharan Africa. This presents the region with an historic opportunity to build a lasting foundation for prosperity by harnessing the full potential of its young population. Yet young people in the Middle East face severe economic and social exclusion due to substandard education, high unemployment and poverty. Thus the inclusion of youth is the most critical development challenge facing the Middle East today. *A Generation in Waiting* portrays the plight of young people, urging greater investment designed to improve the lives of this critical group. It brings together perspectives from the Maghreb to the Levant. Each chapter addresses the complex challenges facing young people in many areas of their lives: access to decent education, opportunities for quality employment, availability of housing and credit, and transitioning to marriage and family formation. This volume presents policy implications and sets an agenda for economic development, creating a more hopeful future for this and future generations in the Middle East. Selected contributors include Ragui Assaad, University of Minnesota; Brahim Boudarbat, University of Montreal; Jad Chaaban, American University in Beirut; Nader Kabbani, Syria Trust for Development; Taher Kanaan, Jordan Center for Public Policy Research and Dialogue; Djavad Salehi Isfahani, Wolfensohn Center for Development and Virginia Tech; and Edward Sayre, University of Southern Mississippi.

The Politics of Culture in the Shadow of Capital Lisa Lowe, David Lloyd, 1997-11-17 Coming from a broad cross section of academic disciplines and theoretical positions, this collection of essays questions and reworks Marxist critiques of capitalism that center on the West and which posit a uniform model of development. More specifically, *Media of the Masses* Andrew Simon, 2022-04-19 *Media of the Masses* investigates the social life of an everyday technology, the cassette tape, to offer a multisensory history of modern Egypt. Over the 1970s and 1980s, cassettes became a ubiquitous presence in Egyptian homes and stores. Audiocassette technology gave an opening to ordinary individuals, from singers to smugglers, to challenge state-controlled Egyptian media. Enabling an unprecedented number of people to participate in the creation of culture and circulation of content, cassette players and tapes soon informed broader cultural, political, and economic developments and defined modern Egyptian households. Drawing on a wide array of audio, visual, and textual sources that exist outside the Egyptian National Archives, Andrew Simon provides a new entry point into understanding everyday life and culture. Cassettes and cassette players, he demonstrates, did not simply join other twentieth-century mass media like records and radio; they were the media of the masses. Comprised of little more than magnetic reels in plastic cases, cassettes empowered cultural consumers to become cultural producers long before the advent of the Internet. Positioned at the productive crossroads of social history, cultural anthropology, and media and sound studies, *Media of the Masses* ultimately shows how the most ordinary things may yield the most surprising insights.
