Contemporary Feminist Thought:

Introducing Contemporary Feminist Thought Mary Evans, 2013-07-03 This introductory textbook offers a concise and lucid account of the main developments in contemporary feminist thinking and demonstrates the centrality of feminist thought to all areas of intellectual enquiry In a wide ranging discussion Evans argues that most accounts of the world since the Enlightenment have been constructed in terms of a distinction between the public and the private which excluded women Using both historical and more recent examples she examines the breadth and complexity of feminist thinking focusing on key themes such as the body representation engendering knowledge and the relationship between women and the state Evans argues that feminist thought seeks less to add to existing theory than to re theorize the social and symbolic worlds no contemporary account of these worlds she suggests is complete without a discussion of the implications of gender difference This book offers a clear and coherent guide to contemporary feminism for students of women s studies gender studies sociology social theory and literary theory
