Contesting Apartheid Donald R. Culverson, 2019-03-08 This book examines how U S citizen groups have been drawn to the issue to develop more comprehensive explanations of American connections to the production and distribution of wealth and poverty in southern Africa and to expand options for transnational citizen activism *Contesting Apartheid* Donald Culverson, 1999-07 Reveals how the American public became aware of racial conflict in southern Africa and eventually came to support sanctions which bypassed state and corporate decisionmakers and exerted direct pressure on South Africa to end apartheid *Gordian Knot* Ryan M. Irwin, 2012-09-07 Gordian Knot explores how African decolonization remade the international order of the mid twentieth century In looking closely at the apartheid debate the book shows the way South Africa s policies shaped the global conversation about rights and race and eroded Washington s influence at the United Nations Sharpeville Tom Lodge, 2011-05-12 On 21 March 1960 several hundred black Africans were injured and 69 killed when South African police opened fire on demonstrators in the township of Sharpeville protesting against the Apartheid regime s racist pass laws The Sharpeville Massacre as the event has become known signalled the start of armed resistance in South Africa and prompted worldwide condemnation of South Africa s Apartheid policies The events at Sharpeville deeply affected the attitudes of both black and white in South Africa and provided a major stimulus to the development of an international Anti Apartheid movement In Sharpeville Tom Lodge explains how and why the Massacre occurred looking at the social and political background to the events of March 1960 as well as the sequence of events that prompted the shootings themselves He then broadens his focus to explain the long term consequences of Sharpeville explaining how it affected South African politics over the following decades both domestically and also in the country s relationship with the rest of the world *Political Opportunities Social Movements, and Democratization* Patrick G. Coy, 2001-08-02 Presents a series of papers that discuss political opportunity and social movements This book includes case studies of specific social movements comparative case studies of social movements and comparative case studies of transnational issue networks To Bring the Good News to All Nations Lauren Frances Turek, 2020-05-15 When American evangelicals flocked to Latin America Africa Asia and Eastern Europe in the late twentieth century to fulfill their Biblical mandate for global evangelism their experiences abroad led them to engage more deeply in foreign policy activism at home Lauren Frances Turek tracks these trends and illuminates the complex and significant ways in which religion shaped America s role in the late Cold War world In To Bring the Good News to All Nations she examines the growth and influence of Christian foreign policy lobbying groups in the United States beginning in the 1970s assesses the effectiveness of Christian efforts to attain foreign aid for favored regimes and considers how those same groups promoted the imposition of economic and diplomatic sanctions on those nations that stifled evangelism Using archival materials from both religious and government sources To Bring the Good News to All Nations links the development of evangelical foreign policy lobbying to the overseas missionary agenda Turek s

case studies Guatemala South Africa and the Soviet Union reveal the extent of Christian influence on American foreign policy from the late 1970s through the 1990s Evangelical policy work also reshaped the lives of Christians overseas and contributed to a reorientation of U S human rights policy Efforts to promote global evangelism and support foreign brethren led activists to push Congress to grant aid to favored yet repressive regimes in countries such as Guatemala while imposing economic and diplomatic sanctions on nations that persecuted Christians such as the Soviet Union This advocacy shifted the definitions and priorities of U S human rights policies with lasting repercussions that can be traced into the twenty first century **Piero**

Gleijeses' International History of the Cold War in Southern Africa, Omnibus E-Book Piero Gleijeses,2013-12-01 This Omnibus E Book brings together Piero Gleijeses s two landmark books for the first time Visions of Freedom Havana Washington Pretoria and the Struggle for Southern Africa 1976 1991 During the final fifteen years of the Cold War southern Africa underwent a period of upheaval with dramatic twists and turns in relations between the superpowers Americans Cubans Soviets and Africans fought over the future of Angola where tens of thousands of Cuban soldiers were stationed and over the decolonization of Namibia Africa s last colony Beyond lay the great prize South Africa Piero Gleijeses uses archival sources particularly from the United States South Africa and the closed Cuban archives to provide an unprecedented international history of this important theater of the late Cold War Conflicting Missions Havana Washington and Africa 1959 1976 This sweeping history of Cuban policy in Africa from 1959 to 1976 is based on unprecedented research in African Cuban and American archives Among Gleijeses s many sources are Cuban archival materials to which he is the only non Cuban to ever have access Setting his story within the context of U S policy toward both Africa and Cuba during the Cold War Gleijeses challenges the notion that Cuban policy in Africa was directed by the Soviet Union **The Capitalist Mode**

of Power Tim Di Muzio,2013-08-15 This edited volume offers the first critical engagement with one of the most provocative and controversial theories in political economy the thesis that capital can be theorized as power and that capital is finance and only finance The book also includes a detailed introduction to this novel thesis first put forward by Nitzan and Bichler in their Capital as Power Although endorsing the capital as power argument to varying extents contributors to this volume agree that a new understanding of capital that radically departs from Marxist and Neoclassical theories cannot be ignored Offering the first application and appraisal of Nitzan and Bichler s theory chapters examine the thesis in the context of energy and global capitalization US Investment Banks trade and investment agreements between Canada the US and Mexico and multinational corporations in Apartheid South Africa Balancing theory methodology and empirical analysis throughout this book is accessible to new readers whilst contextualising and advancing the original theoretical debate The Capitalist Mode of Power will be of interest to students and scholars of International Relations Political Economy Globalization and Critical Theory *NGOs in Contemporary Britain* N. Crowson,M. Hilton,J. McKay,2009-04-22 Examining the history of social movements and non state socio political action this volume shows how Non Governmental Organisations NGOs have

proliferated in Britain since 1945 and how they have raised new political agendas revived associational life and arguably re politicized generations disillusioned with the politics of the ballot box *In Search of Power* Brenda Gayle Plummer, 2013 In *Search of Power* is a history of the era of civil rights decolonization and Black Power In the critical period from 1956 to 1974 the emergence of newly independent states worldwide and the struggles of the civil rights movement in the United States exposed the limits of racial integration and political freedom Dissidents leaders and elites alike were linked in a struggle for power in a world where the rules of the game had changed Brenda Gayle Plummer traces the detailed connections between African Americans involvement in international affairs and how they shaped American foreign policy integrating African American history the history of the African Diaspora and the history of United States foreign relations These topics usually treated separately not only offer a unified view of the period but also reassess controversies and events that punctuated this colorful era of upheaval and change **Radical Imagination, Radical Humanity** Rose Muzio, 2017-01-25 Provides firsthand accounts of militant Puerto Rican activists in 1970s New York City In this book Rose Muzio analyzes how structural and historical factors including colonialism economic marginalization racial discrimination and the Black and Brown Power movements of the 1960s influenced young Puerto Ricans to reject mainstream ideas about political incorporation and join others in struggles against perceived injustices This analysis provides the first in depth account of the origins evolution achievements and failures of El Comit Movimiento de Izquierda Nacional Puertorrique o one of the main organizations of the Puerto Rican Left in the 1970s in New York City El Comit fought for bilingual education programs in public schools for access to quality jobs and higher education and against health care budget cuts The organization mobilized support nationally and internationally to end the US Navy s occupation of Vieques denounced colonial rule in Puerto Rico and opposed US aid to authoritarian regimes in Latin America and Africa Muzio bases her project on dozens of interviews with participants as well as archival documents and news coverage and shows how a radical counterhegemonic political perspective evolved organically rather than as a product of a priori ideology The Future Almost Arrived Itai Nartzizenfeld Sneh, 2008 This book is a study of Jimmy Carter s career his approach to human rights his formulation of goals and his practices before during and after his presidency with a focus on the extent to which the promotion and protection of human rights influenced his actions at home and abroad Historians underestimate the uniqueness of the juncture in the 1970s when Carter missed an opportunity to change priorities in American diplomacy a misreading that might be explained by the disparity between Carter s agenda and the reality created by his administration s record This book identifies and examines how Carter s ambitious words and promising ideals did not translate into policy though his intentions were noble At a pivotal moment his administration adopted human rights as a tenet for foreign policy but Carter did not design imaginative guidelines or prescribe new practices to advance this theme The Future Almost Arrived illuminates how had Carter succeeded in recruiting senior staff to support and implement an innovative agenda the result might have been an overhaul of U S foreign

policy with human rights at its center which by improving his chances for re election would have changed the course of history

Appy, 2016-01-05 Christian G Appy explores how the Vietnam war was managed reported packaged and consumed the myths that were created why decisions were made who if anyone got left behind America s accountability for atrocities and how the real Vietnam syndrome has played out in popular culture and our foreign policy He reports across newspaper accounts TV coverage Pentagon stats and position papers memoirs movies novels and more to create a completely fresh account of the meaning of the war asking the hard questions

Grounds of Engagement Stéphane Robolin, 2015-08-30 Part literary history part cultural study Grounds of Engagement examines the relationships and exchanges between black South African and African American writers who sought to create common ground throughout the antiapartheid era St phane Robolin argues that the authors geographic imaginations crucially defined their individual interactions and ultimately the literary traditions on both sides of the Atlantic Subject to the tyranny of segregation authors such as Richard Wright Bessie Head Langston Hughes Gwendolyn Brooks Keorapetse Kgositsile Michelle Cliff and Richard Rive charted their racialized landscapes and invented freer alternative geographies They crafted rich representations of place to challenge the stark social and spatial arrangements that framed their lives Those representations Robolin contends also articulated their desires for black transnational belonging and political solidarity The first book to examine U S and South African literary exchanges in spatial terms Grounds of Engagement identifies key moments in the understudied history of black cross cultural exchange and exposes how geography serves as an indispensable means of shaping and reshaping modern racial meaning

The Americans Are Coming! Robert Trent Vinson, 2012-01-15 For more than half a century before World War II black South Africans and American Negroes a group that included African Americans and black West Indians established close institutional and personal relationships that laid the necessary groundwork for the successful South African and American antiapartheid movements Though African Americans suffered under Jim Crow racial discrimination oppressed Africans saw African Americans as free people who had

risen from slavery to success and were role models and potential liberators Many African Americans regarded initially by the South African government as honorary whites exempt from segregation also saw their activities in South Africa as a divinely ordained mission to establish Africa for Africans liberated from European empires The Jamaican born Marcus Garvey's Universal Negro Improvement Association the largest black led movement with two million members and supporters in forty three countries at its height in the early 1920s was the most anticipated source of liberation Though these liberation prophecies went unfulfilled black South Africans continued to view African Americans as inspirational models and as critical partners in the global antiapartheid struggle The Americans Are Coming is a rare case study that places African history and American history in a global context and centers Africa in African Diaspora studies **Flashpoint** Derek Charles Catsam,2021-08-28 Forty years ago a South African rugby tour in the United States became a crucial turning point for the nation's burgeoning protests against apartheid and a test of American foreign policy In Flashpoint How a Little Known Sporting Event Fueled America's Anti Apartheid Movement Derek Charles Catsam tells the fascinating story of the Springboks' 1981 US tour and its impact on the country's anti apartheid struggle The US lagged well behind the rest of the Western world when it came to addressing the vexing question of South Africa's racial policies but the rugby tour changed all that Those who had been a part of the country's tiny anti apartheid struggle for decades used the visit from one of white South Africa's most cherished institutions to mobilize against both apartheid sport and the South African regime more broadly Protestors met the South African team at airports chanted outside their hotels and courted arrests at matches which ranged from the bizarre to the laughable with organizers going to incredible lengths to keep their locations secret In telling the story of how a sport little appreciated in the United States nonetheless became ground zero for the nation's growing anti apartheid movement Flashpoint serves as a poignant reminder that sports and politics have always been closely intertwined No Easy Victories William Minter,Gail Hovey,Charles E. Cobb (Jr.),2008 African news making headlines today is dominated by disaster wars famine HIV Those who respond from stars to ordinary citizens are learning that real solutions require more than charity This book provides a comprehensive panoramic view of US activism in Africa from 1950 to 2000 activism grounded in a common struggle for justice It portrays organisations activists and networks that contributed to African liberation and in turn shows how African struggles informed US activism including the civil rights and black power movements **The Establishment Responds** K. Fahlenbrach,M. Klimke,J. Scharloth,L. Wong,2012-01-02 This volume fills this gap by examining the many ways in which political parties the business world foreign policymakers and the intelligence community experienced confronted and even actively contributed to domestic and transnational forms of dissent
