Contours For Ritual:

Contours for Ritual Martha McFerren, 1988

Ingmar Bergman and the Rituals of Art Paisley Livingston, 2019-06-30

Through close readings of Bergman's famous and lesser known films as well as through study of his early stage productions, untranslated essays, interviews, and scripts, Paisley Livingston elucidates Bergman's rigorous critique of the violence, persecution, and deceit in modern culture. Bergman's focal point is the dilemma of the artist in society, the nature and value of his exchanges with the public. He envisions modern art in terms of its relation to a moribund tradition in its dependence on destructive and sterile ritual patterns; art has lost the power to influence the development of our lives. Bergman criticizes the vestiges of cult values in both popular and elite forms of art, from the idolatry of the star system to the aggressive primitivism of certain avant-garde experiments. Linking his innovations in film form to an investigation of the processes of social interaction, Bergman is able to confront the artist's relation to both the order and the disorder of culture.

Kings and Clans

David S. Newbury, 1991. Kings and Clans questions the assumption that clans, as traditionally defined by anthropologists and historians, are static structures that hamper political centralization. By reconstructing the history of kings and clans in Africa's Kivu Rift Valley at a time of critical social change, Newbury enlarges our understanding of social process and the growth of state power in Africa.

Making the Fascist Self Mabel Berezin, 1997

In her examination of the culture of Italian fascism, Mabel Berezin focuses on how Mussolini's regime consciously constructed a nonliberal public sphere to support its political aims. Fascism stresses form over content, she believes, and the regime tried to build its political support through the careful construction and manipulation of public spectacles or rituals, such as parades, commemoration ceremonies, and holiday festivities. The fascists believed they could rely on the motivating power of spectacle and experiential symbols. In contrast with the liberal democratic notion of separable public and private selves, Italian fascism attempted to merge the public and private selves in political spectacles, creating communities of feeling in public piazzas. Such communities were only temporary, Berezin explains, and fascist identity was only formed to the extent that it could be articulated in a language of pre-existing cultural identities. In the Italian case, those identities meant the popular culture of Roman Catholicism and the cult of motherhood. Berezin hypothesizes that at particular historical moments, certain social groups which perceive the division of public and private self as untenable on cultural grounds will gain political ascendancy. Her hypothesis opens a new perspective on how fascism works.

Prosody in Conversation Elizabeth Couper-Kuhlen, Margret Selting, 1996-07-11

The essays in this volume are all original contributions dealing in one way or another with the analysis of prosody, primarily intonation and rhythm, and the role it plays in everyday conversation. They take as their methodological starting point the contention that the study of prosody must begin with genuine interactional rather than pre-fabricated laboratory data. Through close empirical analysis of recorded material from genuine English, German, and Italian conversations, the prosody emerges here as a strategy deployed by interactants in the management of turn-taking and floor-holding in the negotiation of

conversational activities such as repair assessments announcements reproaches and news receipts and in the keying of the tone or modality of interactional sequences **Felix Culpa** Peter-Ben Smit,2021-11-01 In Felix culpa Ritual Failure and Theological Innovation in Early Christianity Peter Ben Smit argues that ritual developments were key to the development of early Christianity Focusing on rituals that go wrong he shows precisely how ritual infelicities are a catalyst for reflection upon ritual and their development in terms of their performance as well as the meaning attributed to them Smit discusses texts from the Pauline epistles and the Gospel of Mark and provides a chapter on Philo of Alexandria by way of contextualization in the Greco Roman world By stressing the importance of ritual the present book invites a reconsideration of all too doctrinally focused approaches to early Christian communities and identities It also highlights the embodied and performative character of what being in Christ amounted to two millennia ago **Shakespeare as Prompter** Murray

Cox,Alice Theilgaard,1994 Prompting is the thematic thread that pervades the pages of this book Its primary connotation is that of the prompter who is urgently called into action at moments of anxiety when narrative begins to fail The central dynamic issue concerns the amending imagination as a prompting resource which through creativity and the aesthetic imperative can be invoked in this therapeutic space when the patient through fear resistance or distraction is unable to continue with his story Psychotherapy can be regarded as a process in which the patient is enabled to do for himself what he cannot do on his own Shakespeare as the spokesman for all other poets and dramatists prompts the therapist in the incessant search for those resonant rhythms and mutative metaphors which augment empathy and make for deeper communication and which also facilitates transference interpretation and resolution The cadence of the spoken word and the different laminations of silence always call for more finely tuned attentiveness than the therapist unprompted can offer The authors show how Shakespeare can prompt therapeutic engagement with inaccessible patients who might otherwise be out of therapeutic reach At the same time they demonstrate that the clinical off stage world of therapy can also prompt the work of the actor in his on stage search for representational precision **Guide to the Study of Ancient Magic** David

Frankfurter,2019-03-19 In the midst of academic debates about the utility of the term magic and the cultural meaning of ancient words like mageia or khesheph this Guide to the Study of Ancient Magic seeks to advance the discussion by separating out three topics essential to the very idea of magic The three major sections of this volume address 1 indigenous terminologies for ambiguous or illicit ritual in antiquity 2 the ancient texts manuals and artifacts commonly designated magical or used to represent ancient magic and 3 a series of contexts from the written word to materiality itself to which the term magic might usefully pertain The individual essays in this volume cover most of Mediterranean and Near Eastern antiquity with essays by both established and emergent scholars of ancient religions In a burgeoning field of magic studies trying both to preserve and to justify critically the category itself this volume brings new clarity and provocative insights This will be an indispensable resource to all interested in magic in the Bible and the Ancient Near East ancient Greece and Rome

Wright, 2008 When books
 about Zen Buddhism began appearing in Western languages just over a half century ago there was no interest whatsoever in
 the role of ritual in Zen Indeed what attracted Western readers interest was the Zen rejection of ritual The famous Beat Zen
 writers were delighted by the Zen emphasis on spontaneity as opposed to planned repetitious action and wrote
 inspirationally about the demythologized anti ritualized spirit of Zen Quotes from the great Zen masters supported this
 understanding of Zen and led to the fervor that fueled the opening of Zen centers throughout the West Once Western
 practitioners in these centers began to practice Zen seriously however they discovered that zazen Zen meditation is a
 ritualized practice supported by centuries old ritual practices of East Asia Although initially in tension with the popular anti
 ritual image of ancient Zen masters interest in Zen ritual has increased along with awareness of its fundamental role in the
 spirit of Zen Eventually Zen practitioners would form the idea of no mind or the open and awakened state of mind in which
 ingrained habits of thinking give way to more receptive direct forms of experience This notion provides a perspective from
 which ritual could gain enormous respect as a vehicle to spiritual awakening and thus this volume seeks to emphasize the
 significance of ritual in Zen practice Containing 9 articles by prominent scholars about a variety of topics including Zen
 rituals kinhin and zazen this volume covers rituals from the early Chan period to modern Japan Each chapter covers key
 developments that occurred in the Linji Rinzai and Caodan Soto schools of China and Japan describing how Zen rituals mold
 the lives and characters of its practitioners shaping them in accordance with the ideal of Zen awakening This volume is a
 significant step towards placing these practices in a larger historical and analytical perspective The Sound of Salvation

Guangtian Ha, 2022-02-22 Winner 2023 Clifford Geertz Prize in Anthropology of Religion Society for the Anthropology of Religion The Jahriyya Sufis a primarily Sinophone order of Naqshbandiyya Sufism in northwestern China inhabit a unique religious soundscape The hallmark of their spiritual practice is the loud jahr remembrance of God in liturgical rituals featuring distinctive melodic vocal chants The first ethnography of this order in any language The Sound of Salvation draws on nearly a decade of fieldwork to reveal the intricacies and importance of Jahriyya vocal recitation Guangtian Ha examines how the use of voice in liturgy helps the Jahriyya to sustain their faith and the ways it has enabled them to endure political persecution over the past two and a half centuries He situates the Jahriyya in a global multilingual network of Sufis and shows how their characteristic soundscapes result from transcultural interactions among Middle Eastern Central Asian and Chinese Muslim communities Ha argues that the resilience of Jahriyya Sufism stems from the diversity and multiplicity of liturgical practice which he shows to be rooted in notions of Sufi sainthood He considers the movement of Jahriyya vocal recitation to new media forms and foregrounds the gendered opposition of male voices and female silence that structures the group's rituals Spanning diverse disciplines including anthropology ethnomusicology Islamic studies sound studies and media studies and using Arabic Persian and Chinese sources The Sound of Salvation offers new perspectives on the importance of sound to religious practice the role of gender in Chinese Islam and the links connecting Chinese Muslims to the broader Islamic world

Shea Watts, 2023-03-06 This dissertation explores the experiential contours of Pentecostalism as a liberative praxis The connection between Pentecostalism and social change is a burgeoning line of inquiry particularly in the Global South but this study focuses on the history of Pentecostalism in the US beginning with the production and circulation of the African American Spirituals Bringing theories of affect into conversation with ritual studies this interdisciplinary work traces personal stories and experiences from the author and examines them in light of Pentecostal traditions that stem from the Azusa Street Revival in Los Angeles California the birthplace of the Pentecostal movement William J Seymour's vision at Azusa was egalitarian and transgressed the societal boundaries and norms of race and gender in the early twentieth century Pentecostalism was and is informed by Black queer female and other voices often silent or rendered invisible Without this representation Pentecostalism is simply one tradition among many co-opted and appropriated for the ongoing colonial projects of the modern Western world Therefore this book explores Blackpentecostal tradition specifically The Fellowship of Affirming Ministries TFAM a predominately Black LGBTQ movement that integrates Pentecostal worship and theology with an inclusive liberative theology

Performance, Memory, and Processions in Ancient Rome Jacob A. Latham, 2016-08-16 The pompa circensis the procession which preceded the chariot races in the arena was both a prominent political pageant and a hallowed religious ritual Traversing a landscape of memory the procession wove together spaces and institutions monuments and performers gods and humans into an image of the city whose contours shifted as Rome changed In the late Republic the parade produced an image of Rome as the senate and the

people with their gods a deeply traditional symbol of the city which was transformed during the empire when an imperial image was built on top of the republican one In late antiquity the procession fashioned a multiplicity of Romes imperial traditional and Christian In this book Jacob A Latham explores the webs of symbolic meanings in the play between performance and itinerary tracing the transformations of the circus procession from the late Republic to late antiquity
