Olin Lecture Series in National Security and Defense Studies**, 1995 **Cases in International Relations** Donald M. Snow, 2022-02-24 Designed to complement the main themes of any introductory international relations course Snow's bestselling text presents original case studies that survey the state of the international system and look in depth at current issues The cases are extremely timely geopolitically diverse accessibly written and of high interest and salience amidst today's headlines Cases cover enduring concepts like sovereignty diplomacy and national interest to emerging concerns like foreign election interference the COVID pandemic cybersecurity and global climate change **Capital, the State, and War** Alexander Anievas, 2014-04-11 Tracing how the emergence of global capitalism gave rise to the Thirty Years Crisis **Uncivil Wars** Donald M. Snow, 1996 This work examines the pattern of internal or civil war that has emerged in the post Cold War world The book discusses how changes in the international system have encouraged the development of new internal wars and considers how the wars may affect the security of the larger global system **Distant Thunder** Donald M Snow, 2015-04-29 The main locu of instability conflict and violence in the post Cold War world is the periphery particularly the poorest regions of what used to be called the Third World Internal wars of secession struggles for power and chaos in failed or failing states are the dominant forms expressed in intercommunal or ethnic violence domestic and international acts of terrorism and increasingly essentially criminal insurgencies with no political objective This completely revised edition of Distant Thunder brings the problem of Third World conflict into the post Cold War era Now that the periphery is no longer the site of surrogate competitions between rival political economic systems when and how should the developed countries intervene in internal wars outside the compass of their traditional geopolitical interest and what can such intervention be realistically expected to accomplish The new edition shows how secessionist and ethnic conflicts terrorism and the drug trade fit into the context of international politics examines the post Cold War dynamics of political and economic decline state failure and the limits of interventionism includes case studies of the Shining Path of Peru and its degeneration from a Maoist type insurgency to a narco terrorist ring and the Somali crisis as examples of the difficulties of international intervention in internal wars **Contemporary African Politics** Bamidele A. Ojo, 1999-04-22 Contemporary African Politics presents a series of essays focusing on the transition to democracy in the countries of Africa The contributors use specific case studies to identify the problems and prospects of the search for democratic legitimacy in Africa **The Shape of the Future** Donald M Snow, 2016-07-01 Now in its millennial edition this popular text outlines an emerging international system that is both distinguishable from the past and stable enough to prevail into the new century Sure to provoke classroom discussion The Shape of the Future is an ideal supplementary text for a range of college courses on the contemporary world **The Issue of Political Ethnicity in Africa** E Udogu, 2018-02-06

This title was first published in 2001 The central characteristics of political ethnicity and its dysfunctional attributes in African politics is vexing to Africa's policy makers Moreover as a conflictive ideology in national and international politics many political actors would rather avoid it In the past nationalists have blamed ethnic chauvinists for fanning the embers of ethnicity but today they realize they may have underestimated its prominence in African politics *Global Television and the Shaping of World Politics* Royce J. Ammon, 2001-08-31 In 1995 United Nations Secretary General Boutros Boutros Ghali said of the Cable News Network CNN is the sixteenth member of the 15 member United Nations Security Council Scholars as well as diplomats have recognized the existence of a link between communications and diplomacy but up until now the implications of this relationship have been left unexplored This work examines the historic interconnectedness between communications and diplomacy how communications have historically determined the practice of diplomacy and how global television in particular can determine diplomatic outcomes under certain conditions This work also examines the ways in which today's broadcasting will shape foreign policy processes in the future and the future impact of global television in world politics *People and Politics* Mary Kate Hiatt, 2005 *The Ashgate Research Companion to Modern Theory, Modern Power, World Politics* Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation *People and Politics* Botterweck, 2000 **21st Century Political Science: A Reference Handbook** John T Ishiyama, Marijke Breuning, 2011 Offering full coverage of major subthemes and subfields within political science this reference handbook includes entries on topics from theory and methodology to international relations and institutions *Power and Law in International Society* Mark Klamberg, 2015-04-24 When studying international law there is often a risk of focusing entirely on the content of international rules i e regimes and ignoring why these regimes exist and to what extent the rules affect state behavior Similarly

international relations studies can focus so much on theories based on the distribution of power among states that it overlooks the existence and relevance of the rules of international law Both approaches hold their dangers The overlooking of international relations risk assuming that states actually follow international law and discounting the specific rules of international law makes it difficult for readers to understand the impact of the rules in more than a superficial manner This book unifies international law and international relations by exploring how international law and its institutions may be relevant and influence the course of international relations in international trade protection of the environment human rights international criminal justice and the use of force As a study on the intersection of power and law this book will be of great interest and use to scholars and students of international law international relations political science international trade and conflict resolution
