Payne, Tamara Kear, Donna Bednarski, Norma Gomez, 2015-04-01 Chapter 1 focuses on professional issues in nephrology nursing and is a new addition to the Core Curriculum The first chapter places emphasis on nursing leadership and management All nephrology nurses are managers and leaders whether or not they maintain a management position All will

face ethical dilemmas all will be involved in providing a safe clinical environment all will take part in assessing quality care and all are expected to perform as a professional with an understanding of what that entails Chapter 2 concentrates on research and evidence based practice and what it means to nephrology nurses It offers information on sites where valuable statistics and further information can be obtained Chapter 3 explains the political process and the importance for all of us to get involved It is not as difficult as one might think Chapter 4 motivates the reader to prepare for emergencies As too many of us know emergencies and disasters do happen and having plans in place prior to the event can help lessen the residual impact

Core Curriculum for Nephrology Nursing Counts Caroline, Carol Motes Headley, Debra Hain, Donna Bednarski, Deborah Brommage, Elizabeth Wilpula, Eileen Peacock, 2015-04-01 As can be easily seen Module 2 contains assorted material to assist the nurse in understanding kidney disease the patient with kidney disease and interrelated topics Chapter 1 begins with an in depth review of genetics and genomics since many experienced nurses learned relatively little about the topic when in school The completion of the Human Genome Project catapulted genetic research that is already transforming health care and has great potential to continue this transformation It certainly includes nephrology care and requires that nephrology nurses be knowledgeable about the matter The chapter also covers anatomy physiology and pathophysiology Chapter 2 focuses specifically on chronic kidney disease and delivers a more detailed approach than the material presented in the previous chapter Chapter 3 provides a wide array of material to be considered when caring for an individual patient One of the new areas includes focus on the veteran Chapter 4 concentrates on nutrition and Chapter 5 addresses pharmacology It behooves every nurse to always stay abreast of changes regarding medications as this is one area that can change rapidly At all times be familiar with the package insert and consult with a pharmacist or other reliable source as needed The foundation of Chapter 6 is infection control practices and is another area where information can change rapidly Information from the Centers for Disease Control and Prevention CDC was used extensively as a resource

Core Curriculum for Nephrology Nursing Counts Caroline, Jean Colaneri, Clara Neyhart, Karen Robbins, Kim Deaver, Lucy Todd, Karen Schardin, 2015-04-01 This module includes in depth analysis of kidney transplantation hemodialysis vascular access peritoneal dialysis and home therapies

Core Curriculum for Nephrology Nursing Caroline Counts, 2015-04-01 Nephrology nurses take care of patients with kidney disease across the lifespan It is possible that the patient is still in the womb or could be quite elderly This module covers topics that are pertinent to both ends of the lifecycle In Chapter 1 the pediatric chapter the reader will find useful information on young patients with chronic kidney disease CKD complications of CKD in the young acute kidney injury treatments with kidney replacement therapies and the special nutritional and pharmacological needs of the youthful patient Helping adolescent patients transition to adult care is also addressed Chapter 2 focuses on the care of the older adult with kidney disease The aging process and the care of the older patient with kidney disease are addressed This is a patient population whose numbers are on the rise Unless nurses work strictly with pediatric

patients they will be delivering care to elderly patients The special considerations in caring for this patient population must be taken into account

Core Curriculum for Nephrology Nursing Caroline Counts, Helen Williams, 2015-04-01 Acute is described on MedicineNet.com as an illness with an abrupt onset that is often of short duration rapidly progressive and in need of urgent care Once the symptoms appear they can change or worsen swiftly Synonyms of acute include severe critical drastic dire dreadful terrible awful grave bad serious desperate and dangerous The nurses who work with patients with acute kidney injury AKI know these descriptions are accurate They also know that there is enough information to warrant a separate module devoted to AKI The work of Helen Williams who served as the module's editor is greatly appreciated This module offers information on managing an acute care program causes of AKI and the nutritional needs of the patient Hemodialysis water treatment peritoneal dialysis continuous renal replacement therapy CRRT slow low efficiency daily dialysis SLEDD and therapeutic apheresis are all topics addressed in this module There is also a new chapter that nurses in the chronic setting will find useful it addresses the patient who has a ventricular assist device VAD More patients with VADs are requiring dialysis yet there has been little published on this subject
