Corrections A Humanistic Approach:

Corrections Hans Toch,1997-01-01 This book is about the real world of prisons an important reference manual This anthology provides a coherent and powerful set of ideas about how prisons can be administered in a way that maintains hope meaning and respect for human dignity Seasoned professionals and criminal justice students alike should read this book it is an antidote to the cynicism of the 1990s **Handbook on Moving Corrections and Sentencing Forward** Pamela K.

Lattimore,Beth M. Huebner,Faye S. Taxman,2020-11-10 This volume addresses major issues and research in corrections and sentencing with the goal of using previous research and findings as a platform for recommendations about future research evaluation and policy The last several decades witnessed major policy changes in sentencing and corrections in the United States as well as considerable research to identify the most effective strategies for addressing criminal behavior These efforts included changes in sentencing that eliminated parole and imposed draconian sentences for violent and drug crimes The federal government followed by most states implemented sentencing guidelines that greatly reduced the discretion of the courts to impose sentences The results were a multifold increase in the numbers of individuals in jails and prisons and on community supervision increases that have only recently crested There were also efforts to engage prosecutors and the courts in diversion and oversight including the development of prosecutorial diversion programs as well as a variety of specialty courts Penal reform has included efforts to understand the transitions from prison to the community including federal led efforts focused on reentry programming Community corrections reforms have ranged from increased surveillance through drug testing electronic monitoring and in some cases judicial oversight to rehabilitative efforts driven by risk and needs assessment More recently the focus has included pretrial reform to reduce the number of people held in jail pending trial efforts that have brought attention to the use of bail and its disproportionate impact on people of color and the poor This collection of chapters from leading researchers addresses a wide array of the latest research in the field A unique approach featuring responses to the original essays by active researchers spurs discussion and provides a foundation for developing directions for future research and policymaking **Transforming Corrections** David Polizzi,Michael Braswell,2009 This

book is part of the Criminal Justice and Psychology Series Transforming Corrections offers an alternative perspective not easily found in the existing literature concerning the way in which individuals in the criminal justice system are understood and treated by those responsible for their care Intended as a supplementary text this collection will help to enhance the current conversation that is ongoing in the field of rehabilitative corrections The wide reaching focus of this collection is intended to provide a variety of alternative perspectives related to issues of theory correctional practice and offender treatment As such Transforming Corrections could be adopted in introductory courses in criminology and criminal justice as well as graduate courses more specifically focused on issues related to offender treatment and correctional administration A book subtitled Humanistic Approaches to Corrections and Offender Treatment manifestly does not mirror prevailing

practices in corrections nor reflect the dominant ethos of the times Such a book instead gives some of us heady sustenance and support in the goals that we secretly aspire to it gives us a sense of what might be achieved in the distant future and what might already have been accomplished The book is an invitation for us to hang in there and persevere If you are not quite burned out have not given up and are still fighting the odds the message of these chapters is you are not nearly as alone as you sometimes feel out there on your limb The reassuring fact is that there are enclaves of humanistic activity in correctional settings and as these experiments demonstrate their effectiveness they are bound to ensure the long term survival of the approach Hans Toch University at Albany SUNY from the Preface It is regrettable that a collection such as this is necessary in order to encourage those who wish to treat prisoners as human beings For this reason alone the book deserves a place in every library Summing Up Recommended Upper division undergraduates and above CHOICE Magazine

Latessa, Shelley J. Listwan, Deborah Koetzle, 2014-09-19 This book offers criminologists and students an evidence based discussion of the latest trends in corrections Over the last several decades research has clearly shown that rehabilitation efforts can be effective at reducing recidivism among criminal offenders However researchers also recognize that treatment is not a one size fits all approach Offenders vary by gender age crime type and or addictions to name but a few and these individual needs must be addressed by providers Finally issues such as leadership quality of staff and evaluation efforts affect the quality and delivery of treatment services This book synthesizes the vast research for the student interested in correctional rehabilitation as well as for the practitioner working with offenders While other texts have

addressed issues regarding treatment in corrections this text is unique in that it not only discusses the research on what works but also addresses implementation issues as practitioners move from theory to practice as well as the importance of staff leadership and evaluation efforts *The Changing Career of the Correctional Officer* Don A. Josi, Dale K.

Sechrest, 1998-03-10 This is an introductory text on the changing nature of correctional officer careers focusing on personnel management and organizational issues **The Future of Correctional Rehabilitation** Ronen Ziv, 2017-08-23 In the

aftermath of Martinson's 1974 nothing works doctrine scholars have made a concerted effort to develop an evidence based corrections theory and practice to show what works to change offenders Perhaps the most important contribution to this effort was made by a group of Canadian psychologists most notably Donald Andrews James Bonta and Paul Gendreau who developed a treatment paradigm called the Risk Need Responsivity RNR model which became the dominant theory of correctional treatment This approach was more recently challenged by a perspective developed by Tony Ward Shadd Maruna and others called the Good Lives Model GLM Based in part on desistance research and positive psychology this model proposes to rehabilitate offenders by building on the strengths offenders possess GLM proponents see the RNR model as a deficit model that fixes dynamic risk factors rather than identifying what offenders value most and using these positive factors to pull them out of crime Through a detailed examination of both models theoretical and correctional frameworks *The Future of Correctional Rehabilitation Moving Beyond the RNR Model and Good Lives Model Debate* probes the extent to which the models offer incompatible or compatible approaches to offender treatment and suggests how to integrate the RNR and GLM approaches to build a new and hopefully more effective vision for offender treatment A foreword by renowned criminologist Francis T Cullen helps put the material into context This book will be of much interest to scholars and students studying correctional rehabilitation as well as practitioners working with offenders Best Practices in Sexual Offender

Whitehead, Kimberly D.

Edwards, 2012-07-27 *Corrections Exploring Crime Punishment and Justice in America* provides a thorough introduction to the topic of corrections in America In addition to providing complete coverage of the history and structure of corrections it offers a balanced account of the issues facing the field so that readers can arrive at informed opinions
