The Selected Correspondence of Aaron Copland Aaron Copland, 2008-10-01 This is the first book devoted to the correspondence of composer Aaron Copland covering his life from age eight to eighty seven The chronologically arranged collection includes letters to many significant figures in American twentieth century music as well as Copland s friends family teachers and colleagues Selected for readability interest and the light they cast upon the composer s thoughts and career the letters are carefully annotated and each published in its entirety Copland was a gifted and natural letter writer who revealed much more about himself in his letters than in formal writings in which he was conscious of his position as spokesman for modern music The collected letters offer insights into his music personality and ideas along with fascinating glimpses into the lives of such other well known musicians as Leonard Bernstein Carlos Ch vez William Schuman and Virgil Thomson *Aaron Copland and the American Legacy of Gustav Mahler* Matthew Mugmon, 2019 Although Aaron Copland 1900 1990 is often credited with creating an unmistakably American musical style he was strongly attracted to the music of Gustav Mahler Drawing extensively on archival and musical materials this is the first detailed exploration of Copland s multifaceted relationship with Mahler s music and its lasting consequences for music in America Matthew Mugmon demonstrates that Copland inspired by Mahler s example blended modernism and romanticism in shaping a vision for American music in the twentieth century and that he did so through his multiple roles as composer teacher critic and orchestral tastemaker Copland s career long engagement with Mahler s music intersected with Copland s own Jewish identity and with his links to such towering figures in American music as Nadia Boulanger Serge Koussevitzky and Leonard Bernstein

Basic Music Reference Alan Green, Michael J. Duffy, IV, 2012-11-01 Basic Music Reference is a quick start guide designed to introduce library employees to the basic tools and techniques involved in answering questions related to music As in every specialist subject area music has its own terminology but unlike most it also has a multitude of formats on paper and other materials as well as special notation and frequent use of foreign languages in titles and texts These features make it particularly difficult for library employees to answer users questions and thus a guide such as this one is essential Not all libraries with a music collection can afford to hire a music reference librarian Even libraries with such a specialist rely on support staff and student employees to answer questions when the music librarian is not available Whatever the scenario this volume will serve as a helpful training tool for library employees to learn about the basic music reference tools and to develop the techniques of greatest use when answering the most common types of music related questions
