Cabell's Directory of Publishing Opportunities in Educational Technology and Library Science ,2007 **The Essentials of Ibadi Islam** Valerie J. Hoffman,2012-05-22 Ibadi Islam is a distinct sect of Islam neither Sunni nor Shi'ite that emerged in the early Islamic period and remains active today in small pockets of North Africa and as the dominant sect of Oman. Despite its antiquity it has often been misunderstood and remains little known. Seeking to redress this gap and to introduce this Islamic school to the non-Arabic speaking world, Hoffman offers the first book-length overview of Ibadi theology published in English. Beginning with a concise overview of Ibadi history, Hoffman delineates the movement's role in the development of Islamic thought, tracing its distinctive teachings and literary history. In the second section, she provides annotated translations of two complementary modern Ibadi theological texts. This unique volume elucidates Ibadi religious and political thought by allowing its tradition to speak for itself. *The Essentials of Ibadi Islam* gives readers, specialists and nonspecialists alike, a rare opportunity to understand the major teachings of Ibadi Islam. *APC Essentials of Forensic Medicine and Toxicology* Anil Aggrawal, *Essentials of Forensic Medicine and Toxicology* is an abridged version of the Textbook of Forensic Medicine and Toxicology. The book comprises chapters on thanatology, deaths from other causes, forensic psychiatry, forensic science, corrosive poisons, irritant poisons, and poisons acting on the brain and spinal cord. In addition, the book consists of several diagrams and illustrations to help understand the concepts better. This book is essential for forensic scientists.

Transforming Museums in the Twenty-first Century Graham Black,2012-03-12 In his book, Graham Black argues that museums must transform themselves if they are to remain relevant to 21st-century audiences, and this root and branch change would be necessary whether or not museums faced a funding crisis. It is the result of the impact of new technologies and the rapid societal developments that we are all a part of and applies not just to museums but to all arts bodies and to other agents of mass communication. Through comment, practical examples, and truly inspirational case studies, this book allows the reader to build a picture of the transformed 21st-century museum in practice. Such a museum is focused on developing its audiences as regular users. It is committed to participation and collaboration. It brings together on-site, online, and mobile provision and through social media builds meaningful relationships with its users. It is not restricted by its walls or opening hours but reaches outwards in partnership with its communities and with other agencies, including schools. It is a haven for families learning together. And at its heart lies prolonged user engagement with collections and the conversations and dialogues that these inspire. The book is filled to the brim with practical examples. It features an introduction that focuses on the challenges that face museums in the 21st century, an analysis of population trends and their likely impact on museums, boxes showing ideas, models, and planning suggestions to guide development, examples and case studies illustrating practice in both large and small museums, an up-to-date bibliography of landmark research, including numerous websites. Sitting alongside Graham Black's previous book, *The Engaging Museum*, we now have a clear vision of a museum of the future that

engages stimulates and inspires the publics it serves and plays an active role in promoting tolerance and understanding within and between communities

Greene, 2021-01-31 In the early 400s numerous Indian and Central Asian Buddhist meditation masters ch'an-shi traveled to China where they established the first enduring traditions of Buddhist meditation practice in East Asia The forms of contemplative practice that these missionaries brought with them and which their Chinese students further developed remained for several centuries the basic understanding of meditation ch'an in China Although modern scholars and readers have long been familiar with the approaches to meditation of the Chan Zen School that later became so popular throughout East Asia these earlier and in some ways more pervasive forms of practice have long been overlooked or ignored This volume presents a comprehensive study of the content and historical formation as well as complete English translations of two of the most influential manuals in which these approaches to Buddhist meditation are discussed the Scripture on the Secret Essential Methods of Chan Chan Essentials and the Secret Methods for Curing Chan Sickness Methods for Curing Translated here into English for the first time these documents reveal a distinctly visionary

form of Buddhist meditation whose goal is the acquisition of concrete symbolic visions attesting to the practitioner's purity and progress toward liberation Both texts are apocryphal scriptures Taking the form of Indian Buddhist sutras translated into Chinese they were in fact new compositions written or at least assembled in China in the first half of the fifth century Though written in China their historical significance extends beyond the East Asian context as they are among the earliest written sources anywhere to record certain kinds of information about Buddhist meditation that hitherto had been the preserve of oral tradition and personal initiation To this extent they indeed divulge as their titles claim the secrets of Buddhist meditation Through them we witness a culture of Buddhist meditation that has remained largely unknown but which for many centuries was widely shared across North India Central Asia and China
