Manufacturing: Engineering, Management and Marketing M. T. Lilly, 2015-09-09 In a developing country like Nigeria the available land is plentiful but is relatively more expensive in city areas like Abuja Lagos and Port Harcourt Hence to reduce cost land outside the cities is often sought In Nigeria labor is cheap per hour but it becomes more expensive as one moves toward the cities Nevertheless to reduce overall costs transportation costs should be reduced so the site of the factory should be close to a large market for its products In developed countries government policies influence significantly the locations of factories For instance factories are set up in high unemployment areas to comply with the national development policy for the country In Nigeria the sitting of a factory is often based on political rather than management considerations Therefore many government owned companies exist in economically nonviable locations for example the refinery and the fertilizer plant at Kaduna However private investors prefer to start companies in their own localities Reliable electricity supplies and an adequate transportation infrastructure are essential for most companies Unfortunately in Nigeria companies too often have to provide standby generators thereby increasing production costs This is one of the reasons why made in Nigeria goods tend to be more expensive than the corresponding imported ones despite far lower local labor costs This textbook which provides desirable service to students engineers managers and politicians covers an extensive range of topics that includes but not limited to essentials of management optimal maintenance of equipment financial management cost benefit analysis creative thinking entrepreneurship operation research queuing theory the factory environment depreciation replacement theory marketing automation and motivation

Lee, Marc J. Epstein, 2012-08-17 Advances in Management Accounting AIMA publishes well developed articles on a variety of current topics in management accounting that are relevant to researchers in both practice and academe As one of the premier management accounting research journals AIMA is well poised to meet the needs of management accounting scholars **A History of Management Accounting** Trevor Boyns, J. R. Edwards, 2013 There is growing interest in the history of accounting amongst both accounting practitioners and accounting academics This interest developed steadily from about 1970 and really took off in the 1990s However there is a lack of texts dealing with major aspects of accounting history that can be used in classrooms to inform new researchers and to provide a source of reference for established researchers The great deal of research into cost and management accounting in Britain published in academic journals over the last twenty years including the authors own contributions makes *The History of Cost and Management Accounting* an essential contribution to the field *Handbook of Management Accounting Research* Christopher S. Chapman, Anthony G. Hopwood, Michael D. Shields, 2011-09-14 Volume two of the *Handbooks of Management Accounting Research* consists of two groups of chapters The first draw together research that has focussed on particular management accounting practices The second set synthesise contributions to the literature that have been focussed within particular organisational contexts Volume two concludes with a review of research on how management accounting practice and research varies around the world Special pricing available if purchased as a set with Volume 1 Documents the scholarly management accounting literature Publishing both in print and online through Science Direct International in scope The Societal Relevance of Management Accounting Sven Modell, 2017-10-02 This book explores the relevance of management accounting research and practice for a range of broader societal phenomena related to corporate governance and regulation the creation and maintenance of markets and their concomitant social and political implications It also explores the theoretical and methodological implications of pursuing a research agenda exploring such phenomena in greater detail Containing a number of theoretical methodological and empirical contributions by leading management accounting scholars *The Societal Relevance of Management Accounting* seeks to advance novel research approaches that go beyond the traditional intra organisational focus that has long dominated management accounting research As such it seeks to enhance the relevance of management accounting research for a broader range of stakeholders

and interest groups in and around individual organisations This book was originally published as a special issue of
