Cases Of The Reincarnation Type:

European Cases of the Reincarnation Type Ian Stevenson, M.D.,2015-09-02 Many cultures accept that a person may die and then come back to life in another form but Westerners have traditionally rejected the idea Recently however surveys conducted in Europe indicate a substantial increase in the number of Europeans who believe in reincarnation and numerous claims of reincarnation have been reported This book examines particular cases in Europe that are suggestive of reincarnation The first section provides a brief history of the belief in reincarnation among Europeans The second section considers eight cases from the first third of the twentieth century that were not independently investigated but were reported and sometimes published by the persons concerned The third section covers 32 cases from the second half of the twentieth century that were investigated by the author Many of these cases involved either children who exhibited unusual behavior attributed to a previous life or adults who experienced recurrent or vivid dreams attributed to a previous life In the fourth section the author compares European cases suggestive of reincarnation with those of other countries and cultures

Twenty Cases Suggestive of Reincarnation Ian Stevenson,1980 Cases of responsive xenoglossy thus add to the evidence concerning the survival of human personality after death Cases of the Reincarnation Type Ian Stevenson,1980 **Cases of the reincarnation type** Ian Stevenson,1975 Irreducible Mind Edward F. Kelly,Emily Williams Kelly,2007 Practically every contemporary mainstream scientist presumes that all aspects of mind are generated by brain activity We demonstrate the inadequacy of this picture by assembling evidence for a variety of empirical phenomena which it cannot explain We further show that an alternative picture developed by F W H Myers and William James successfully accommodates these phenomena ratifies the common sense view of ourselves as causally effective conscious agents and is fully compatible with contemporary physics and neuroscience *Parapsychology* Etzel Cardeña,John Palmer,David Marcusson-Clavertz,2015-07-25 Many people have experienced such unusual phenomena as dreams that later seem to correspond with unforeseeable events thinking of a long lost friend just before he or she unexpectedly calls or the ability to feel the presence of deceased loved ones What many do not realize is that these types of experiences have been researched for more than a century by eminent scientists including Nobel laureates Most of these researchers have concluded that some of these phenomena do occur although we are far from explaining them to everyone s satisfaction This book is the first in almost 40 years to provide a comprehensive scientific overview of research in the field of parapsychology explaining what we know and don t know about so called psi phenomena such as telepathy precognition or psychokinesis Contributors evaluate the evidence for these phenomena accounting for factors such as selective memory wish fulfillment and incorrect methods or analyses in some cases offering psychological physical and biological theories Instructors considering this book for use in a course may request an examination copy here Spiritism and Mental Health Emma Bragdon,2013-02-15 An account of the philosophy theory practical applications and wider relevance of Spiritist therapies to be published in the English language It

explores how Spiritist centers and psychiatric hospitals are established and financed with specific examples from Brazil and the USA *Mind Beyond Brain* David E. Presti, 2018-10-02 Among the most profound questions we confront are the nature of what and who we are as conscious beings and how the human mind relates to the rest of what we consider reality For millennia philosophers scientists and religious thinkers have attempted answers perhaps none more meaningful today than those offered by neuroscience and by Buddhism The encounter between these two worldviews has spurred ongoing conversations about what science and Buddhism can teach each other about mind and reality In *Mind Beyond Brain* the neuroscientist David E Presti with the assistance of other distinguished researchers explores how evidence for anomalous phenomena such as near death experiences apparent memories of past lives apparitions experiences associated with death and other so called psi or paranormal phenomena including telepathy clairvoyance and precognition can influence the Buddhism science conversation Presti describes the extensive but frequently unacknowledged history of scientific investigation into these phenomena demonstrating its relevance to questions about consciousness and reality The new perspectives opened up if we are willing to take evidence of such often off limits topics seriously offer significant challenges to dominant explanatory paradigms and raise the prospect that we may be poised for truly revolutionary developments in the scientific investigation of mind *Mind Beyond Brain* represents the next level in the science and Buddhism dialogue

Contributions to Asian Studies Brill Academic Publishers, 1974-12-01 **Rebirth as Doctrine and Experience**

Francis Story, 2000-12-01 Francis Story's interest in cases of rebirth memories finally led him to assist Dr Ian Stevenson in tracing investigating and studying such cases in Sri Lanka Thailand and India The present book contains Story's essays on the theme of rebirth as well as case studies that he undertook in collaboration with Professor Stevenson the foremost American investigator of reported rebirth memories These case studies which make fascinating reading lend strong evidential support to the hypothesis of rebirth and thus help to illuminate the ultimate questions concerning human destiny after death *Karma and Rebirth* Gananath Obeyesekere, 2006-01-01 With *Karma and Rebirth A Cross Cultural Study* on the very first comparison of rebirth concepts across a wide range of cultures Exploring in rich detail the beliefs of small scale indigenous societies of West Africa Melanesia and North America Obeyesekere compares their ideas with those of the ancient and modern Indic civilizations and with the Greek rebirth theories of Pythagoras Empedocles Pindar and Plato His groundbreaking and authoritative discussion decenters the popular notion that India was the origin and locus of ideas of rebirth *Ghosts, Spirits, and Psychics* Matt Cardin, 2015-07-28 This fascinating work provides a complete overview of paranormal phenomena including the beliefs attitudes and notable figures who have attempted to explain defend or debunk the mysteries behind the unknown Recent interest in the paranormal as pop culture fodder belies its historical status as an important subject of cultural philosophical and scientific significance This book traces the trajectory of paranormal studies from its early role as a serious academic and scientific topic studied by mainstream scientists and eminent scholars to its

current popularity in books film and TV This compelling reference work details the experiences encounters and ideas that make up this controversial field of study The contributed entries examine the broad phenomena of the paranormal addressing the history of scientific investigations along with its contemporary media depictions to illustrate the evolution of cultural attitudes about the paranormal A selection of primary documents provides real life accounts and contributions from noted experts that explore the full scope of themes from spiritualism to poltergeists to astrology Accompanying images timelines quotations and sidebars make the content come to life and encourage alternative explanations of these events Beyond the Threshold Christopher M. Moreman, 2017-09-13 Beyond the Threshold introduces readers to afterlife beliefs and experiences in world religions The second edition has been revised and updated throughout including a new chapter on afterlife beliefs and practices in selected African traditions new research on the afterlife and near death experiences the addition of key words and definitions to each chapter and more Christopher M Moreman offers an introduction to afterlife beliefs in ancient cultures which are essential to understanding the roots of many modern ideas about death He examines the folklore and doctrines of major world religions including Judaism Christianity Islam Hinduism Buddhism Chinese religions and several African traditions He also discusses psychic phenomena across traditions such as mediums near death and out of body experiences and past life memories While ultimately the afterlife remains unknowable the second edition of this unique in depth exploration of both beliefs and experiences can help readers reach their own understanding of the afterlife and how to live **Illuminating the Narrow Gate** Karl R. Luther, 2022-01-17 Do you desire the truth about God our foremost religions the purpose of life and the future of our planet If so **Illuminating the Narrow Gate** will guide and empower you to fulfill your destiny of transcending the darkness and embracing an enlightened spirituality Blessed with astonishing insights and revelations this revolutionary book heralds a global awakening and the inevitable doom of institutional religion Volume II contains 15 appendixes that substantiate and enhance the revelations of Volume I Appendixes A Reincarnation and B Spirit Possession present scientific and clinical evidence that demonstrates the reality of those phenomena The next three appendixes are primarily dedicated to dating the Book of Daniel Leveraging the breakthrough of **Illuminating the Narrow Gate** s paradigm shift Appendix D Redirecting the Debate About Daniel decimates the prevailing scholarly conclusion that Daniel s prophecies were a hoax written in the 2nd century BCE Instead this book within a book proves they were penned as advertised in the 6th century BCE while debunking the fundamentalist view that the biblical book is inerrant The next six appendixes primarily present ancient history that demonstrates the fulfillment of prophetic passages from Daniel Four of them Appendix F The Beast With Ten Horns Appendix G Constantine the Great Appendix J The King of the End Times and Appendix K Understanding the 69 Sevens deliver the spine tingling details of how the future was foretold with stunning accuracy and precision for five centuries after the date when all scholars agree Daniel was on the historical record 160s BCE Appendix L The Catholic Church in the 20th Century shows that although the Church no longer champions crusades

sequesters Jews in ghettos or tortures and kills those who believe differently its underlying darkness has continued unabated The majority of this other book within a book details how the Vatican helped Benito Mussolini and Adolf Hitler gain dictatorial power and then made strategic alliances with them ignored their pre war crimes and assaults upon the Jews sanctioned their predatory aggression upon other nations and turned a blind eye to the Holocaust After illuminating the essence of the papal choices before and during World War II the appendix exposes the criminal nature of the Vatican s subsequent financial affairs It shows how the sudden death of Pope John Paul I in 1978 was most likely a blackmail enabled murder by the Vatican Bank s underworld partners After two short appendixes explain passages from Revelation the book concludes with Appendix O The Impact on Islam It shows how the book s insights are also inscribing the writing on the wall for Islam You don t need to purchase Volume II if you only want the book s core insights and revelations A PDF document of the end matter published in Volume II Endnotes Bibliography Index et al can be downloaded for free from the book s website to make Volume I a self standing book

Science, the Self, and Survival after Death Emily Williams Kelly, 2012-12-21 Ian Stevenson was a prominent and internationally known psychiatrist researcher and well regarded figure in the field of psychical research Science the Self and Survival after Death is the first book devoted to surveying the entirety of his work and the extraordinary scope and variety of his research He studied universal questions that cut to the core of a person s identity What is consciousness How did we become the unique individuals that we are Do we survive in some form after death Stevenson s writings on the nature of science and the mind body relationship as well as his empirical research demonstrate his strongly held belief that the methods of science can be applied successfully to such humanly vital questions Featuring a selection of his papers and excerpts from his books this collection presents the larger context of Stevenson s work and illustrates the issues and questions that guided him throughout his career

Life Before Life Jim B. Tucker, M.D., 2005-09-01 Explore the Compelling Evidence of Past Life Memories in Young Children For the past forty years doctors at the University of Virginia Medical Center have conducted groundbreaking research into young children s reports of past life memories Dr Ian Stevenson the founder of this work has always written for a scientific audience Now in Life Before Life Dr Jim B Tucker a child psychiatrist who currently directs the research shares these remarkable studies with the general public for the first time Children who report past life memories typically begin talking spontaneously about a previous life at the age of two or three Some recall the life of a deceased family member while others describe the life of a stranger They recount astonishing details about previous family members events and even the way they died Many of these children have birthmarks that match wounds on the deceased individual s body Dr Tucker and his colleagues have rigorously investigated more than 2 500 cases and their findings have been praised by the Journal of the American Medical Association as difficult to explain on any other grounds Life Before Life explores the various facets of this fascinating phenomenon presenting cases from all over the world that offer persuasive evidence of reincarnation This book has the potential to challenge and ultimately

transform our understanding of life and death Sharing these incredible stories in a straightforward scientific manner Dr Tucker invites readers to explore the evidence and reach their own conclusions about the significance of these extraordinary tales of past lives

Soul Mates Richard Webster,2001 Popular metaphysical author Webster explores every aspect of the soul mate phenomenon in his newest release After learning of examples of soul mates from the author s own practice and famous soul mates from history readers will learn how to recall their past lives and strengthen their relationship so it grows stronger and better as time goes by
