Catalyst For Controversy Paul Carus Of Open Court:

Catalyst for Controversy Harold Henderson, 2009-03-10 I am not a common atheist I am an atheist who loves God Paul Carus The God of Science 1904 In the summer of 1880 while teaching at the military academy of the Royal Corps of Cadets of Saxony in Dresden Paul Carus published a brief pamphlet denying the literal truth of scripture and describing the Bible as a great literary work comparable to the Odyssey This unremarkable document was Carus s first step in a wide ranging intellectual voyage in which he traversed philosophy science religion mathematics history music literature and social and political issues The Royal Corps Carus later reported found his published views not in harmony with the Christian spirit in accordance with which the training and education of the Corps of Cadets should be conducted And so the corps offered the young teacher the choice of asking most humbly for forgiveness for daring to have an opinion of my own and to express it perhaps even promise to publish nothing more on religious matters or to give up my post I chose the latter There was thus no other choice for me but to emigrate and trusting in my own powers to establish for myself a new home His resignation was effective on Easter Sunday 1881 Carus toured the Rhine lived briefly in Belgium and taught in a military college in England to learn English well enough to thrive in the United States By late 1884 or early 1885 he was on his way to the New World Thriving in the United States proved more difficult than it had in England but before 1885 ended he had published his first philosophical work in English Monism and Meliorism The book was not widely read but it did reach Edward C Hegeler a La Salle Illinois zinc processor who became his father in law as well as his ideological and financial backer Established in La Salle Carus began the work that would place him among the prominent American philosophers of his day and make the Open Court Publishing Company a leading publisher of philosophical scientific and religious books He edited The Open Court and The Monist offering the finest view of Oriental thought and religion then available in the West and sought unsuccessfully to bring about a second World Parliament of Religions He befriended physicist philosopher Ernst Mach For eleven years he employed D T Suzuki who later became a great Zen Buddhist teacher He published more articles by Charles S Peirce now viewed as one of the great world philosophers in The Monist than appeared in any other publication Biographer Harold Henderson concludes his study of this remarkable man Whenever anyone is so fired with an idea that he or she can t wait to write it down there the spirit of Paul Carus remains as he would have wished active in the world Casting Faiths T.  The search for belief and meaning among nineteenth century intellectuals The nineteenth century s explosion of scientific theories and new technologies undermined many deep seated beliefs that had long formed the basis of Western society making it impossible for many to retain the unconditional faith of their forebears A myriad of discoveries including Faraday s electromagnetic induction Joule s law of conservation of energy Pasteur s germ theory Darwin s and Wallace s theories of evolution by natural selection and Planck s work on quantum theory shattered conventional understandings of the world that had been dictated by traditional religious teachings and philosophical systems for centuries Fictions of Certitude Science Faith and the Search for Meaning 1840 1920 investigates the fin de si cle search for truth and meaning in a world that had been radically transformed John S Haller Jr examines the moral and philosophical journeys of nine European and American intellectuals who sought deeper understanding amid such paradigmatic upheaval Auguste Comte John Henry Newman Herbert Spencer Alfred Russel Wallace Thomas Henry Huxley John Fiske William James Lester Frank Ward and Paul Carus all belonged to an age in which one world was passing while another world that was both astounding and threatening was rising to take its place For Haller what makes the work of these nine thinkers worthy of examination is how they strove in different ways to find certitude and belief in the face of an epochal sea change Some found ways to reconceptualize a world in which God and nature coexist For others the challenge was to discern meaning in a world in which no higher power or purpose can be found As explained by D H Meyer The later Victorians were perhaps the last generation among English speaking intellectuals able to believe that man was capable of understanding his universe just as they were the first generation collectively to suspect that he never would *The Correspondence of Charles S. Peirce and the Open Court Publishing Company, 1890-1913* Stetson J. Robinson,2022-09-06 This edition includes the letters exchanged between Charles S Peirce and the Open Court Publishing Company between 1890 and 1913 Open Court published more of Peirce s philosophical writings than any other publisher during his lifetime and played a critical role in what little recognition and financial income he received during these difficult yet philosophically rich years This correspondence is the basis for much of what is known surrounding Peirce s publications in *The Monist* and *The Open Court* two of the publisher s most popular forums for philosophical scientific and religious thought and is therefore referenced heavily in Peirce editions dealing partly or wholly with his later work including *The Essential Peirce* series and *Writings of Charles S Peirce* The edition provides for the first time a complete text of this oft cited correspondence with textual apparatus contextual annotation and careful replications of existential graphs and other complex illustrations By so doing this edition sheds critical light not only on Peirce and Open Court but also on the context relationships and concepts that influenced the development of Progressive Era intellectual history and philosophy **American Religious History** Gary Scott Smith,2020-12-07 A mix of thematic essays reference entries and primary source documents covering the role of religion in American history and life from the colonial

Silence, Music, Silent Music Nicky Losseff, 2017-07-05 The contributions in this volume focus on the ways in which silence and music relate contemplate each other and provide new avenues for addressing and gaining understanding of various realms of human endeavour The book maps out this little explored aspect of the sonic arena with the intention of defining the breadth of scope and to introduce interdisciplinary paths of exploration as a way forward for future discourse Topics addressed include the idea of silent music in the work of English philosopher Peter Sterry and Spanish Jesuit St John of the Cross the apparently paradoxical contemplation of silence through the medium of music by Messiaen and the relationship between silence and faith the aesthetics of Susan Sontag applied to Cage's idea of silence silence as a different means of understanding musical texture ways of thinking about silences in music produced during therapy sessions as a form of communication music and silence in film including the idea that music can function as silence and the function of silence in early chant Perhaps the most all pervasive theme of the book is that of

silence and nothingness music and spirituality a theme that has appeared in writings on John Cage but not in a broader sense in scholarly writing The book reveals that unexpected concepts and ways of thinking emerge from looking at sound in relation to its antithesis encompassing not just Western art traditions but the relationship between music silence the human psyche and sociological trends ultimately providing deeper understanding of the elemental places both music and silence hold within world philosophies and fundamental states of being Silence Music Silent Music will appeal to those working in the fields of musicology psychology of religion gender studies aesthetics and philosophy The Early Years of Mind Lukas M.
