United City, Divided Memories? Dirk Verheyen, 2010-02-03 *United City Divided Memories* focuses on the basic question of how Berlin today deals with three specific Cold War era legacies the presence of the four Great Powers the East German Stasi and the Berlin Wall Dirk Verheyen looks at monuments museums and memorial sites as illustrations of Berlin's struggle to craft an effective shared identity that ties together its western and eastern halves Verheyen's comprehensive and critical analysis is considered against the broader background of Germany's efforts at coming to grips with its dual twentieth century totalitarian past This book demonstrates that important elements of east west contrast linger and complicate the city's efforts at crafting a more definitively future oriented united identity *United City Divided Memories* will stimulate debate among German studies scholars as well as among those interested in German history and cultural studies *The most valuable asset of the Reich. 1. 1920 - 1932* Alfred C. Performing Peace and Friendship tells the story of how the Soviet Union succeeded in utilizing the World Festival of Youth and Students in its cultural diplomacy from late Stalinism through the early Khrushchev period Pia Koivunen discusses the evolution of the youth gathering into a Soviet cultural product starting from the first festival held in Prague in 1947 and ending with the Moscow 1957 gathering the latter becoming one of the most frequently referred moments of Khrushchev s Thaw By combining both institutional and grass roots perspectives the book widens our understanding of what Soviet cultural diplomacy was in practice re evaluates the agency of young people and provides new insights into the Soviet role in the cultural Cold War Koivunen argues that rather than simply being orchestrated rallies by the Kremlin bureaucrats the World Youth Festivals also became significant spaces of transnational encounters for young people who found ways to employ the event for overcoming the various restrictions and boundaries of the Cold War world *Transactions,*

Vietnamese Communists' Relations with China and the Second Indochina Conflict, 1956-1962 Ang Cheng Guan,2024-12-18 According to the final declaration of the 1954 Geneva Conference general elections were to be held in July 1956 that would lead to the reunification of North and South Vietnam The Geneva agreement was however doomed from the start as the South Vietnamese leaders did not subscribe to it and the leaders of the Communist North saw its value primarily as propaganda By 1956 it was obvious that reunification was impossible and the North Vietnamese looked to China for advice and assistance Based on Vietnamese Chinese American and British sources many only recently made available this work examines Sino Vietnamese relations in the early stages of the second Indochina conflict and reveals that the Hanoi government was remarkably in control of its own decision making The ^Afaustian Bargain Jonathan Petropoulos,2000-03-30 Nazi art looting has been the subject of enormous international attention in recent years and the

topic of two history bestsellers Hector Feliciano's *The Lost Museum* and Lynn Nicholas's *The Rape of Europa*. But such books leave us wondering: What made thoughtful, educated, artistic men and women decide to put their talents in the service of a brutal and inhuman regime? This question is the starting point for *The Faustian Bargain*. Jonathan Petropoulos's study of the key figures in the art world of Nazi Germany follows the careers of these prominent individuals who, like Faust, that German archetype, chose to pursue artistic ends through collaboration with diabolical forces. Readers meet Ernst Buchner, the distinguished museum director and expert on Old Master paintings who repatriated the Van Eyck brother's Ghent altarpiece to Germany; and Karl Haberstock, an art dealer who filled German museums with works bought virtually at gunpoint from Jewish collectors. Robert Scholz, the leading art critic in the Third Reich, became an officer in the chief art looting unit in France; and Kajetan Muhlmann, a leading art historian, was probably the single most prolific art plunderer in the war and arguably in history. Finally, there is Arno Breker, a gifted artist who exchanged his modernist style for monumental realism and became Hitler's favorite sculptor. If it is striking that these educated men became part of the Nazi machine, it is more remarkable that most of them rehabilitated their careers and lived comfortably after the war. Petropoulos has discovered a network of these rehabilitated experts that flourished in the postwar period, and he argues that this is a key to the tens of thousands of looted artworks that are still missing today. Based on previously unreleased information and recently declassified documents, *The Faustian Bargain* is a gripping read about the art world during this period and a fascinating examination of the intense relationship between culture and politics in the Third Reich.

Telling Lies about Hitler Richard J. Evans, 2002. Richard J. Evans worked on the historical evidence on behalf of the defence during the Irving libel trial. In *Telling Lies about Hitler*, the author discusses the importance of historical writing and the social role of historians in such trials.

Prussia in the Historical Culture of the German Democratic Republic Marcus Colla, 2022-09-08. No example demonstrates the fluidity of the past within the German Democratic Republic more powerfully than the history of the Prussian state. Initially attacked in East German official histories as the historical engine of German militarism and reaction, Prussia underwent a remarkable transformation in official and public memory from around the end of the 1970s. This was the so-called Prussia Renaissance, in which for the first time the East German state began to recognise and even celebrate figures from Prussian history who had not served a progressive agenda. But the Prussia Renaissance was also a political and cultural phenomenon with a wide public resonance. The Prussia Renaissance may have been a relatively short-lived phenomenon, but it evidently opened a deep vein in the historical memory of the German Democratic Republic that defied reduction to high politics alone. This book asks why. Using the case study of Prussia, Marcus Colla presents a multi-perspective approach to the way that a distinctive historical culture was constructed in the German Democratic Republic. It not only evaluates the roles played by political figures, historians, and cultural elites, but also heritage preservationists, exhibition curators, Heimat museums, television producers, novelists, and playwrights, and singers, the purveyors of what we

might more generally term popular culture In essence Colla poses four fundamental questions for our understanding of life politics and culture in communist East Germany how was history there made How was it understood How was it contested And how was it used The Most Valuable Asset of the Reich Alfred C. Mierzejewski,2003-06-19 The largest enterprise in the capitalist world between 1920 and 1945 the Deutsche Reichsbahn German National Railway was at the center of events in a period of great turmoil in Germany In this the second volume of his comprehensive history of the Reichsbahn Alfred Mierzejewski offers the first complete account of the national railway under Hitler s regime Mierzejewski uses sources that include Nazi Party membership records and Reichsbahn internal memoranda to explore the railway s operations finances and political and social roles from 1933 to 1945 He examines the Reichsbahn s role in German rearmament its own lack of preparations for war and its participation in Germany s military operations He shows that despite successfully resisting Nazi efforts to politicize its internal functions the Reichsbahn cooperated with the government s anti Semitic policies Indeed the railway played a crucial role in the Holocaust by supporting the construction and operation of the Nazi death camps and by transporting Jews and other victims to them
