Learning to Read, Learning Religion Britta Juska-Bacher,Matthew Grenby,Tuija Laine,Wendelin Sroka,2023-01-06 Catechism primers are inconspicuous but telling little books for children combining the teaching of reading skills and religious catechesis From the 16th to the 19th centuries they have been produced disseminated and used in huge numbers in many regions of the world in particular in Europe Remarkably similar texts appeared across the continent spanning confessional traditions that were in other respects highly divergent In different places and across the whole period different denominations used not only similar pedagogical and religious strategies but also shared the same formats and iconography This volume edited by scholars from Finland Germany Switzerland and the United Kingdom is the result of a collaborative transnational and interdisciplinary effort including education language teaching children s literature book history and religious studies With contributions on seventeen European countries and regions it sheds new light on a fascinating but largely neglected part of European cultural heritage and by establishing a comprehensive and authoritative summary of the field offers fresh impetus for further transnational research **A Thematic Access-Oriented Bibliography of Jesus's**

Resurrection Michael J. Alter,2019-12-31 The keystone of Christianity is Jesus s physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus s Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by

including sources that represent a diverse range of views theistic e g Christian Jewish Muslim etc agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find the one source accurately and with ease

has been known as catechesis systematic instruction in faith foundations including what we believe how we pray and worship
and how we conduct our lives For most evangelicals today however this very idea is an alien concept Packer and Parrett
concerned for the state of the church seek to inspire a much needed evangelical course correction This new book makes the
