Egyptian-Coptic Linguistics in Typological Perspective Eitan Grossman, Martin Haspelmath, Tonio Sebastian Richter, 2014-12-17 This volume presents the Egyptian Coptic language in cross linguistic typological perspective It is aimed at linguists of all stripes especially typologists historical linguists and specialists in Egyptian Coptic Afroasiatic languages or African languages Uniquely the contributions are written by both typologists and experts of Egyptian Coptic and typologists The former provide case studies dealing with particular aspects of the various phases of the Egyptian Coptic language e g COLLIER on conditional constructions while the latter situate Egyptian Coptic data in cross linguistic perspective e g those by GUELDEMANN and GENSLER The volume also includes an introductory section that includes an overview of the Egyptian Coptic language HASPELMATH a sketch of its sociohistorical setting GROSSMAN RICHTER its relationship with language typology RICHTER and the way in which Egyptian Coptic data should be presented to nonspecialists focusing on transliteration and glossing GROSSMAN HASPELMATH This is the first book to bring together language typology and the Egyptian Coptic language in an explicit fashion

The Oxford Handbook of Egyptology Ian Shaw, Elizabeth Bloxam, 2020-11-10 The Oxford Handbook of Egyptology offers a comprehensive survey of the entire study of ancient Egypt from prehistory through to the end of the Roman period It seeks to place Egyptology within its theoretical methodological and historical contexts indicating how the subject has evolved and discussing its distinctive contemporary problems issues and potential Transcending conventional boundaries between archaeological and ancient textual analysis the volume brings together 63 chapters that range widely across archaeological

philological and cultural sub disciplines highlighting the extent to which Egyptology as a subject has diversified and stressing the need for it to seek multidisciplinary methods and broader collaborations if it is to remain contemporary and relevant Organized into ten parts it offers a comprehensive synthesis of the various sub topics and specializations that make up the field as a whole from the historical and geographical perspectives that have influenced its development and current characteristics to aspects of museology and conservation and from materials and technology as evidenced in domestic architecture and religious and funerary items to textual and iconographic approaches to Egyptian culture Authoritative yet accessible it serves not only as an invaluable reference work for scholars and students working within the discipline but also as a gateway into Egyptology for classicists archaeologists anthropologists sociologists and linguists **Egyptian Things** Edward William Kelting, 2024 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more After the deaths of Antony and Cleopatra Rome finally took control of Egypt This occupation simultaneously facilitated and circumscribed the exchange of goods people and ideas along the paths carved across Rome s burgeoning empire In this book Edward Kelting sets out to recapture one of these systems of exchange the vibrant literary tradition known as Aegyptiaca or Egyptian things in which culturally mixed authors wrote about Egypt for a Greek and Roman audience These authors have been dismissed as not really Egyptian and their contemporary popularity has been ignored But as Kelting powerfully argues this genre in fact constitutes a vibrant intellectual tradition developed from heterogeneous influences but deeply engaged with Egypt s pharaonic past In contrast to usual narratives of Roman domination Kelting uncovers a complex project of political engagement and cultural translation in which Egyptians Greeks and Romans all participated *The African Mother Tongue and Mathematical Ideas* Abdul Karim Bangura, 2020-06-02 This book by renowned scholar Dr Abdul Karim Bangura combines linguistics and mathematics to show how and why African centred mathematical ideas can be a driving force in Africa s development efforts Bangura explores the concept that Africa has been the centre of the History of Mathematics for thousands of years as the civilizations that emerged across the continent developed contributions which would enrich both ancient and modern understanding of nature through mathematics However scholars and other professionals working in the field of mathematics education in Africa have identified a plethora of issues in carrying out their tasks This is highlighted by one of the most compelling arguments in the book which is that a major reason for these problems is the fact that the African mother tongues has been greatly neglected in the teaching of mathematics in the continent Bangura asserts that a change has to be made in order for Africa to benefit from the exceptional opportunities mathematics offer showing that even if there is a great body of work connecting linguistics and mathematics few analyses have been performed on the link between African languages and mathematics and the ones that have been made are not theoretically grounded on linguistics Thus the book begins by identifying the objects of study of linguistics and mathematics and delineates which ones they have in common Next since the object of study of

linguistics is language the nine design features of language are employed to examine each of the objects as it pertains to African languages After that mathematical ideas of sustainability and those of tipping points are suggested as means to help Africa's development efforts *The Oxford Handbook of the History of Mathematics* Eleanor Robson, Jacqueline Stedall, 2009 This handbook explores the history of mathematics addressing what mathematics has been and what it has meant to practise it 36 self-contained chapters provide a fascinating overview of 5000 years of mathematics and its key cultures for academics in mathematics historians of science and general historians **Hieroglyphs** Penelope Wilson, 2004-08-12 Hieroglyphs were far more than a language They were an omnipresent and all powerful force in communicating the messages of ancient Egyptian culture for over three thousand years used as monumental art as a means of identifying Egyptianness and for rarefied communication with the gods In this exciting new study Penelope Wilson explores the cultural significance of the script with an emphasis on previously neglected areas such as cryptography the continuing decipherment into modern times and examines the powerful fascination hieroglyphs still hold for us today ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable Texts from the Pyramid Age Ronald J. Leprohon, 2005 Strudwick's helpful introduction to the history and literature of this seminal period provides important background for reading and understanding these historical texts Like other volumes in the Writings from the Ancient World series this work will soon become a standard with students and scholars alike **BOOK JACKET** **New Data and New Methods in Afroasiatic Linguistics** Robert Hetzron, 2001 Aus dem Inhalt A Zaborski Robert Hetzron 1938 1997 Bibliography D Appleyard The verb to say as a verb recycling device in Ethiopian languages V Bla ek Etymologizing the Semitic cardinal numerals of the first decade L Edzard Adjektive und nominalisierte Relativsätze im Semitischen Versuch einer Typologie R J Hayward A further consideration of terminal vowels in Ometo G Hudson Amharic Epenthesis O Kapeliuk Some suprasentential constructions in Amharic G Khan The use of the indefinite article in Neo Aramaic R Kiessling South Cushitic links to East Cushitic M Lamberti The expression of prepositional phrases in Bilin D Morin Bridging the gap between Northern and Eastern Cushitic M Mous Basic Alagwa syntax F A Pennacchiotti I popoli dell Africa secondo Sa'id ibn al Bitriq J F Prunet B Chamora The canonical shapes of Gurage verbs R R Ratcliffe Analogy in Semitic morphology Where do new roots and new patterns come from J Rosenhouse Hebrew and Arabic personal names pronounced by native speakers of English Weitere Beiträge von H Satzinger H Stroemer M Tosco R Voigt A Zaborski T Zewi **Egypt and the Egyptians** Douglas J. illustrations many appearing here for the first time and extensive quotes from ancient letters hymns funerary texts and law codes enliven the text The result is a rare combination of up to date Egyptological and anthropological research giving the reader the most current and expansive examination of Egypt It is written for students and for the general reader interested in this ancient land and its people The extensive bibliography suggestions for further reading and glossary make this book an excellent resource for exploring any aspect of ancient Egypt **Egypt from Alexander to the Copts** Roger S.

Bagnall,Dominic W. Rathbone,2017-05-01 After its conquest by Alexander the Great in 332 bc Egypt was ruled for the next 300 years by the Ptolemaic dynasty founded by Ptolemy I one of Alexander s generals With the defeat of Cleopatra VII in 30 bc Egypt became a province of the Roman Empire and later of the Byzantine Empire For a millennium it was one of the wealthiest most populous and important lands of the multicultural Mediterranean civilization under Greek and Roman rule The thousand years from Alexander to the Arab conquest in ad 641 are rich in archaeological interest and well documented by 50 000 papyri in Greek Egyptian Latin and other languages But travelers and others interested in the remains of this period are ill served by most guides to Egypt which concentrate on the pharaonic buildings This book redresses the balance with clear and concise descriptions related to documents and historical background that enable us to appreciate the fascinating cities temples tombs villages churches and monasteries of the Hellenistic Roman and Late Antique periods Written by a dozen leading specialists and reflecting the latest discoveries and research it provides an expert visitor s guide to the principal cities many off the well worn tourist paths It also offers a vivid picture of Egyptian society at differing economic and social levels **“Did I Not Bring Israel Out of Egypt?”** James K. Hoffmeier,Alan R. Millard,Gary A.

Rendsburg,2016-05-19 The Hebrew Scriptures consider the exodus from Egypt to be Israel s formative and foundational event Indeed the Bible offers no other explanation for Israel s origin as a people It is also true that no contemporary record regarding a man named Moses or the Israelites generally either living in or leaving Egypt has been found Hence many biblical scholars and archaeologists take a skeptical attitude dismissing the exodus from the realm of history However the contributors to this volume are convinced that there is an alternative more positive approach Using textual and archaeological materials from the ancient Near East in a comparative way in conjunction with the Torah s narratives and with other biblical texts the contributors to this volume specialists in ancient Egypt ancient Near Eastern culture and history and biblical studies maintain that the reports in the Hebrew Bible should not be cavalierly dismissed for ideological reasons but rather should be deemed to contain authentic memories Revealing, transforming, and display in Egyptian hieroglyphs

David Klotz,Andréas Stauder,2020-07-06 This is the first synthesis on Egyptian enigmatic writing also referred to as cryptography in the New Kingdom c 1550 1070 BCE Enigmatic writing is an extended practice of Egyptian hieroglyphic writing set against immediate decoding and towards revealing additional levels of meaning This first volume consists of studies by the main specialists in the field The second volume is a lexicon of all attested enigmatic signs and values

Postclassical Greek Dariya Rafiyenko, Ilja A. Seržant, 2020-03-09 The language of Postclassical Greek is a somewhat neglected area of research despite the language of this period being well attested with a large number of different sorts of texts ranging from papyri and dialect inscriptions to literary texts by Hellenistic Roman and Byzantine writers These texts offer an extensive amount of data and are rather understudied in comparison with texts of the Classical period This volume aims to fill some of this void by offering an interdisciplinary approach to the language of the period As such it brings together contributions from disciplines including usage based linguistics theoretical syntax historical linguistics papyrology and palaeography sociolinguistics and research on multilingualism It is hoped therefore that the volume will appeal to a wide audience interested in exploring language development from several perspectives **Afroasiatic Studies in Memory of**

Robert Hetzron Charles G. Häberl, 2009-05-27 Robert Hetzron first organized the North American Conference on Afroasiatic Linguistics NACAL at the University of California Santa Barbara in 1973 and passed away only six months after it had completed a quarter century of annual meetings He would undoubtedly have been pleased to know that NACAL is still going strong and that ten years after his passing it attracted no fewer than thirty six scholars from the United States Canada and eight other countries who presented on topics near and dear to his heart such as phonology morphology syntax language contact classification subgrouping and the history of scholarship in languages such as Amharic Arabic Aramaic Egyptian Hebrew Omotic and others as well as the groups to which they pertain Since he established it NACAL has served a unique role among the meetings of learned societies in North America Only a handful of organizations worldwide hold annual meetings dedicated to Afroasiatic linguistics and NACAL is one of a very small number of venues where linguists from all sub disciplines and schools of thought meet to share their research NACAL is also an academic nexus a unique node at which graduate students at the beginning of their careers rub shoulders with the native speakers of the languages which they study and with the titans of their fields men and women of an almost legendary stature such as Hetzron himself This volume contains sixteen contributions from these scholars on a broad cross section of topics within the field of Afroasiatic linguistics

New approaches on Anatolian linguistics José Virgilio García Trabazo, Ignasi-Xavier Adiego, Mariona Vernet, Bartomeu Obrador-Cursach, Susana Soler, 2023-07-24 This volume brings together the culmination of philological and linguistic work undertaken by a wide range of experts in the Anatolian languages The research papers published here cover practically the entire linguistic and chronological spectrum of the Anatolian group of Indo European languages without neglecting important interactions with languages from other cultural environments among which the Semitic group stands out The publication can therefore be regarded as a valuable contribution to Anatolian and Indo European studies reflecting the persistent and sustained efforts of a group of researchers with a broad array of interests some of whom have many years of research behind them and are well known in the field They have now been joined by new scholars who enable us to foresee a promising future for our disciplines **Writing** Barry B. Powell, 2012-02-15 Writing Theory and History of the Technology of Civilization

traces the origins of writing tied to speech from ancient Sumer through the Greek alphabet and beyond Examines the earliest evidence for writing in Mesopotamia in the fourth millennium BC the origins of purely phonographic systems and the mystery of alphabetic writing Includes discussions of Ancient Egyptian Chinese and Mayan writing Shows how the structures of writing served and do serve social needs and in turn create patterns of social behavior Clarifies the argument with many illustrations

Orality and Literacy in the Demotic Tales Jacqueline E. Jay, 2016-06-10 In *Orality and Literacy in the Demotic Tales* Jacqueline E Jay extrapolates from the surviving ancient Egyptian written record hints of the oral tradition that must have run alongside it The monograph s main focus is the intersection of orality and literacy in the extremely rich corpus of Demotic narrative literature surviving from the Greco Roman Period The many texts discussed include the tales of the Inaros and Setna Cycles the Myth of the Sun s Eye and the Dream of Nectanebo Jacqueline Jay examines these Demotic tales not only in conjunction with earlier Egyptian literature but also with the worldwide tradition of orally composed and performed discourse
