Harris, 2015-07-06 Excerpt from *Ancient Curious and Famous Wills*: Let's choose executors and talk of wills. And yet not so for what can we bequeath? Save our deposed bodies to the ground. An addition to the fifteen millions of books of which the world is now possessed demands an explanation, if not an apology. In my experience as a lecturer on the Law of Wills and in the practical administration of estates controlled by wills, in which I have been engaged for many years, it has been a subject of surprise to me that no one in America has seriously undertaken the collection of curious and famous wills. It has occurred to me that I might discharge the duty which every lawyer owes to his profession by making such a collection. The subject is very comprehensive and the material required has been obtained in most instances from the original records of Probate and Court Registers in various parts of the world by exhaustive research in libraries at home and abroad and by reference to magazine and newspaper files. It has been my effort to select from this collection the wills which appeared most interesting and entertaining. I recognize quite fully the wisdom of Lord Coke's remark that Wills and the construction of them do more perplex a man than any other learning and to make a certain construction of them exceedeth jurisprudentum artem. Perplexity has likewise beset me in an attempt to classify the wills in this work and place them under convenient and appropriate headings. It must not be forgotten that while all men may make wills and should do so, yet all men have not done

so It is a remarkable trait in human character that wills are for the most part postponed and that many men of wealth and distinction die without them So great a man as Abraham Lincoln left no will though he had a considerable estate General Grant also died intestate but his estate was small About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Ancient, Curious and Famous Wills**
