The Discoursal Use of Phraseological Units Elena Arsenteva,2021-10-22 The book is devoted to various problems of the discoursal use of phraseological units PUs It explores both core use and contextual use of such units as well as different types of PU modifications including addition deletion substitution cleft use phraseological pun and extended metaphor among others In addition the book also considers the translation of these modifications which often present a very serious issue

Politics of Abortion and Birth Control in Historical Perspective Donald T. Critchlow,2010-11-01 While there is extensive literature on the social history politics and legal aspects of birth control and abortion in the United States the history of family planning as a policy remains to be fully recorded This volume is intended to contribute to this history by examining birth control and abortion within a larger cultural policy and comparative framework The essays contained in this volume represent a variety of perspectives and scholarly interests In many instances the authors differ with each other as well as with the editor on fundamental points of historical interpretation They all however share a commitment to study the politics of population within a scholarly framework that emphasizes the importance of policy history for understanding past and contemporary problems

People Are No Damn Good Jimmy R. Watson,2022-04-21 Over thirty five years in the classroom and pulpit will give a person some perspective about homo ethicus the ethical human being In this intentionally non academic contribution to the moral pursuit Jimmy Watson offers personal anecdotes and reflections sardonic wit sarcastic humor and most importantly a wide array of information and laser beam insights into his chosen field of study He invites the reader to think deeply about the complexities and ambiguities of human nature and the discernment of good and evil from both secular and religious perspectives and encourages all of us to become the best damn people we can possibly be

Children's Lifeworlds Olga Nieuwenhuys,2005-06-22 Children s Lifeworlds examines how working children face the challenge of having to combine work with school in Kerala Moving beyond the usual concern with child labour and welfare to a critical assessment of the daily work routine of children this book questions how class and kinship gender and household organization state ideology and education influence and conceal the lives of children in developing countries Presenting an extraordinarily sympathetic and detailed case study of boys and girls work routine in a south Indian village this book shows children creating the visibility of their work The combination of personal experience quantitative data and in depth anthropological methods sheds light on the world of those who though they hold the future have been left in the dark

Radical Reproductive Justice Loretta Ross,Erika Derkas,Whitney Peoples,Lynn Roberts,Pamela Bridgewater,2017-10-16 Expanding the social justice discourse surrounding reproductive rights to include issues of environmental justice incarceration poverty disability and more this crucial anthology explores the practical applications for activist thought migrating from the community into the academy Radical Reproductive Justice assembles two decades of work initiated by SisterSong Women of Color Health Collective creators of the human rights based reproductive justice

framework to move beyond polarized pro choice pro life debates Rooted in Black feminism and built on intersecting identities this revolutionary framework asserts a woman s right to have children to not have children and to parent and provide for the children they have The book is as revolutionary and revelatory as it is vast Rewire **The Psychology of Today's Woman** Toni Bernay,Dorothy Cantor,2013-05-13 The sexual revolution oft discussed in the journalistic literature of recent years has brought in its wake a host of questions that are only beginning to be addressed How are women coping with real world challenges for which they may be ill prepared both socially and psychologically How successfully are they integrating old and new ego ideals in forging new identities Is their ostensible liberation actually making for a sense of integration and wholeness The Psychology of Today s Woman New Psychoanalytic Visions probes these and related questions from the standpoint of both developmental and therapeutic concerns Taking Freud s notion of female sexuality as a point of departure editors Bernay and Cantor have compiled a collection of original essays that reassesses traditional conceptions of female psychology Section I proffers new visions of femininity Section II and explores critical situations in the lives of contemporary women Section III A final section of the book of special interest to analysts and psychotherapists examines the various facets of the clinical treatment of women Collectively the contributors to this volume articulate a strong challenge to the deficiency model of female identity that has long dominated psychoanalytic theory More impressively still they offer constructive alternatives to the preconceptions of the past They converge in the belief that the richness and diversity of female experience cannot be encompassed in the overly simplified definitions and masculine analogizing of classical analysis Whether we investigate the status of masculinity and femininity as personality traits the relationship between nurturance and aggression in female identity or the meaning of normality and pathology in treatment situations we are very much in a realm of multiple truths in which the formulas of the past give little sense of the options of the present or the possibilities of the future

Issues in Urban Education ,1992 **Publication** United States. Welfare Administration,1965 Low-income Life Styles ,1967 **Rural Asian Women** Robert Orr Whyte,Pauline Whyte, Within the overall scope of a long term study being conducted at the Institute on rural development an advance summary is provided of the salient factors governing women s lives in the family and their role in production in monsoonal and equatorial Asia Reasons are suggested for major differences in the status of women in Southeast Asia as compared with those of South and East Asia Cultural factors influencing female education size of family activities in production and earning ability are discussed Actions necessary to meet the most pressing current and future needs of rural women are indicated **Reforming UK Public Policy Through Elected Regional Government** Malcolm J. Prowle,2022-08-12 This book takes an in depth look at the enormous challenges facing UK public services and considers what might be done to resolve them The authors are confident that more of the same over centralised approaches to public policy and so called levelling up policies will just not work Instead they argue for an application of radical measures involving the creation of elected regional governments in England similar to the devolved

arrangements in Wales Scotland and Northern Ireland The book comprises four distinct parts introduction and context the need for major reform policies for individual public services and cross cutting themes Following an introduction and discussion of the meaning of the terms public policy and public services the first part goes on to discuss at length the substantial challenges to public policy and public services The second part sets out the need for over arching reforms designed to address the issues discussed above namely the development of elected regional governments Each chapter in part three explores key themes concerning individual public policy areas and public services while part four discusses a number of themes which cut across all the public services already considered Although the book is focused on and is of great relevance within the UK it also has international appeal as many of the themes discussed will have resonance in other countries and the analysis of public policy in regional administrations will also be of interest in other jurisdictions It will appeal to students and academics in the fields of government and politics economics finance and accounting public administration public service management and social policy as well as policymakers practicing civil servants public service managers and elected representatives

Theoretical and Empirical Insights into Child and Family Poverty Elizabeth Fernandez, Anat Zeira, Tiziano Vecchiato, Cinzia Canali, 2015-06-04 This book brings together a range of theoretical and empirical perspectives on conceptualization measurement multidimensional impacts and policy and service responses to address child and family poverty It illuminates issues and trends through country level chapters thus shedding light on dynamics of poverty in different jurisdictions The book is structured into three sections The first includes introductory chapters canvassing key debates around definition conceptualization measurement and theoretical and ideological positions The second section covers impacts of poverty on specific domains of children s and families experience using snapshots from specific countries geographic regions The third section focuses on programs policies and interventions and addresses poverty and its impacts It showcases specific interventions programs and policies aimed at responding to children and families and communities and how they are or might be evaluated Cross national case studies and evaluations illustrate the diversity of approaches and outcomes

An Entrepreneurial Approach to Stewardship Accountability Raymond W. Y. Kao, Kenneth R. Kao, Rowland R. Kao, 2005 The continuation of global poverty is inextricably entwined with the fundamental philosophy of the market economy It is driven by the individual s neverending desire for profit leading to a critically imbalanced distribution of resources As an entrepreneurial initiative this book advocates a shift in the responsibility for relief of poverty away from the government to the private sector and in particular to corporate entities The concept of the residual is used as the cornerstone of business operations and wealth distribution Corporate decision makers while making proprietary decisions for resources allocation must assume stewardship responsibility and be accountable not just to financial investors but to all contributors of the

corporate entity **Same-Sex Cultures and Sexualities** Jennifer Robertson, 2008-04-15 This book demonstrates the centrality of sex gender and sexuality to theories of human behaviors and practices Moves beyond other lesbian and gay studies readers by presenting a broader view of the significance of studying same sex cultures and sexualities across cultures Offers readings from all four subfields of anthropology cultural biological linguistic and archaeological along with historical and applied anthropology Includes discussion of biotechnology and bioethics health and illness language ethnicity identity politics post colonialism kinship development and policymaking **The Sterilization Movement and Global Fertility in the Twentieth Century** Ian Robert Dowbiggin, 2008 Many would be surprised to learn that the preferred method of birth control in the United States today is actually surgical sterilization This book takes an historical look at the sterilization movement in post World War II America a revolution in modern contraceptive behavior Focusing on leaders of the sterilization movement from the 1930 s through the turn of the century this book explores the historic linkages between environment civil liberties eugenics population control sex education marriage counseling and birth control movements in the 20th century United States Sterilization has been variously advocated as a medical procedure for defusing the population bomb expanding individual rights liberating women from the fear of pregnancy strengthening marriage improving the quality of life of the mentally disabled or reducing the incidence of hereditary disorders From an historical standpoint support for free and unfettered access to sterilization services has aroused opposition in some circles and was considered a liberal cause in post World War II America This story demonstrates how a small group of reformers helped to alter traditional notions of gender and sexuality Categories and Contexts Simon Szreter, Hania Sholkamy, A. Dharmalingam, 2004-03-18 Throughout its history as a social science demography has been associated with an exclusively quantitative orientation for studying social problems As a result demographers tend to analyse population issues scientifically through sets of fixed social categories that are divorced from dynamic relationships and local contexts and processes This volume questions these fixed categories in two ways First it examines the historical and political circumstances in which such categories had their provenance and second it reassesses their uncritical applications over space and time in a diverse range of empirical case studies encouraging throughout a constructive interdisciplinary dialogue involving anthropologists demographers historians and sociologists This volume seeks to examine the political complexities that lie at the heart of population studies by focusing on category formation category use and category critique It shows that this takes the form of a dialectic between the needs for clarity of scientific and administrative analysis and the recalcitrant diversity of the social contexts and human processes that generate population change The critical reflections of each chapter are enriched by meticulous ethnographic fieldwork and historical research drawn from every continent This volume therefore exemplifies a new methodology for research in population studies one that does not simply accept and re use the established categories of population science but seeks critically and reflexively to explore test and re evaluate their meanings in diverse contexts It shows that for demography to

realise its full potential it must urgently re examine and contextualize the social categories used today in population research

Devices and Desires Andrea Tone,2002-05 From thriving black market to big business the commercialization of birth control in the United States In *Devices and Desires* Andrea Tone breaks new ground by showing what it was really like to buy produce and use contraceptives during a century of profound social and technological change A down and out sausage casing worker by day who turned surplus animal intestines into a million dollar condom enterprise at night inventors who fashioned cervical caps out of watch springs and a mother of six who kissed photographs of the inventor of the Pill these are just a few of the individuals who make up this riveting story Abortion Abolition Andrea Smith,2025-04-15 To quote Ruth Wilson

Gilmore Abolition is not absence it is presence It is the creation of new systems and relationships that renders a practice or institution unnecessary An abolition framework permits Christians to engage people across the current pro life versus pro choice divide and more effectively addresses the root causes of why there is abortion This book is not focused on espousing a particular political position regarding electoral politics Rather it seeks to evaluate some assumptions that give rise to people feeling trapped in various political dilemmas In interrogating these assumptions we create more political and theological space that might open a more effective way to promote the lives of unborn children their mothers and their communities

Fertility and Deprivation Janet Askham,2010-06-10 Originally published in 1975 this was the first survey carried out in Britain which examined in detail the relationship between poverty and fertility
