Teaching Undergraduate Science Linda C. Hodges,2023-07-03 This book is written for all science or engineering faculty who have ever found themselves baffled and frustrated by their undergraduate students lack of engagement and learning The author an experienced scientist faculty member and educational consultant addresses these issues with the knowledge of faculty interests constraints and day to day concerns in mind Drawing from the research on learning she offers faculty new ways to think about the struggles their science students face She then provides a range of evidence based teaching strategies that can make the time faculty spend in the classroom more productive and satisfying Linda Hodges reviews the various learning problems endemic to teaching science explains why they are so common and persistent and presents a digest of key ideas and strategies to address them based on the research she has undertaken into the literature on the cognitive sciences and education Recognizing that faculty have different views about teaching different comfort levels with alternative teaching approaches and are often pressed for time Linda Hodges takes these constraints into account by first offering a framework for thinking purposefully about course design and teaching choices and then providing a range of strategies to address very specific teaching barriers whether it be students motivation engagement in class ability to problem solve their reading comprehension or laboratory research or writing skills Except for the first and last chapters the other chapters in this book stand on their own i e can be read in any order and address a specific challenge students have in learning and doing science Each chapter summarizes the research explaining why students struggle and concludes by offering several teaching options categorized by how easy or difficult they are to implement Some for example can work in a large lecture class without a great expenditure of time others may require more preparation and a more adventurous approach to teaching Each strategy is accompanied by a table categorizing its likely impact how much time it will take in class or out and how difficult it will be to implement Like scientific research teaching works best when faculty start with a goal in mind plan an approach building on the literature use well tested methodologies and analyze results for future trials Linda Hodges message is that with such intentional thought and a bit of effort faculty can succeed in helping many more students gain exciting new skills and abilities whether those students are potential scientists or physicians or entrepreneurs Her book serves as a mini compendium of current research as well as a protocol manual a readily accessible guide to the literature the best practices known to date and a framework for thinking about teaching

Technologies in Biomedical and Life Sciences Education Harry J. Witchel,Michael W. Lee,2022-06-24 This contributed volume focuses on understanding the educational strengths and weaknesses of mediated content including media as a learning supplement in comparison to traditional face to face learning Each chapter includes research on and a broad brush summary of approaches

to combining life sciences education with educational technologies The chapters are organized into four main sections each of which focuses on a key question regarding the consequences of incorporating media into education In this regard the authors highlight how educational technology is both a bridge and barrier to student access and inclusivity Further they address the ongoing discussion as to whether students need to be present for lectures and on how having agency in their own learning can improve both retention and conceptual understanding To link the content to current events the authors also shed light on the impact that the COVID 19 pandemic is having on the continuity of educational programs and on the growing importance of educational technologies Consequently the book offers life science educators valuable guidance on the technologies already available and an outlook on what is yet to come

Parliament. House of Commons,2013 Sociology David M. Newman,2016-08-16 Adapted from David M Newman s best selling Sociology Exploring the Architecture of Everyday Life this briefer streamlined version continues to show students how to see the unfamiliar in the familiar inspiring them to think critically about their own lives and social

contexts As in the full text the author s approachable writing style and lively personal anecdotes make the Brief Edition a text that reads like a real book It uses the metaphors of architecture and construction to help students understand that society is not something that exists out there independently of themselves it is a human creation that is planned formed maintained or altered by individuals Rather than surveying every subfield in sociology the Brief Edition focuses on the individual and society the construction of self and society and social inequality in the context of social structures

Being Human in STEM Sarah L. Bunnell, Sheila S. Jaswal, Megan B. Lyster, 2023-07-03 For all STEM faculty chairs administrators and faculty developers who work to support students learning and thriving in STEM especially those students who have felt unwelcome and unsupported in their past STEM experiences this book offers sustainable strategies that are now being widely adopted to create inclusive environments in undergraduate STEM classes and programs Further this book presents a framework for partnering with students to collaboratively envision how STEM can be a space that fosters a sense of belonging for and promotes the success of all individuals in STEM This book presents the Being Human in STEM Initiative or HSTEM as a model for challenging the assumptions we make and how we communicate to students about who belongs and who can thrive in STEM This work arose out of a time of conflict at Amherst College A four day sit in protesting in support of the Black Lives Matter movement and bringing attention to related experiences of exclusion and marginalization that minoritized students experienced on campus What emerged from that conflict has been transformative for the college its students and for its faculty and staff In this book the authors share how the HSTEM course came into being offer a course overview readings and resources for developing an HSTEM course at your own institution provide recommendations for evaluating the multi level impact of inclusive change initiatives and profile models of how the HSTEM course has been adapted at colleges and universities across the country In addition to providing a road map for developing your own HSTEM course the authors articulate ways that you can make any course or institutional structure more inclusive through active listening and validation and through reflective practice and partnership to progressively make incremental and sustainable changes in STEM education Through listening and reflecting the model facilitates uncovering the disconnects that can impede inclusivity in our classrooms and laboratories While the authors offer a proven process and model for change originally motivated by the urgent need to respond to students demands they recognize that larger institutional culture shifts require the identification and commitment to common values a shared sense of purpose in the work of change and the provision of agency and resources to individuals tasked with making change happen How might we shift institutional STEM culture The HSTEM model provides one solution By reflecting on our own lived experiences and identities engaging with the literature on the factors that enhance and limit full inclusion in STEM and partnering with students to identify actionable ways to bring about sustainable change in our scientific communities we can all work towards creating a more inclusive and human STEM ecosystem Each chapter opens with a set of guiding reflective questions to help you connect these ideas frameworks and

strategies to your own teaching and institutional context While each chapter builds on the previous ideas and frameworks the book can also be used as a resource to identify a just in time strategy to address particular questions you may have about making your teaching more inclusive The appendices offer an array of Facilitator Guides each of which outlines a student endorsed exercise based on the pedagogical literature that can foster a sense of belonging and inclusion in your classrooms and laboratory spaces

Inside Education Stephen O'Brien, 2015-12-22 To learn more about learning what it is and how it works it is necessary to look inside education Inside Education takes the reader on a journey of four live education projects the first all Irish speaking mixed gendered multi faith primary school in the Republic of Ireland ideally suited to exploring learning identity an alternative post primary school for those who leave or are left behind by the formal education system also based in the Republic of Ireland and ideally suited to exploring personal learning an early college school that enables students to simultaneously sit their high school diploma and college exams based in Queens New York and ideally suited to exploring learning success and an adult education training centre that works with landless movement members based in Brazil and ideally suited to exploring learning power Using a critical ethnography approach each research narrative naturally unfolds enfolds to tell a more complete learning story All those interested in education are primed readers By re viewing their own learning outlook they may begin to advance deeper critical ideas and debates in education They may come to re represent education reminding public consciousness of its human stories as well as its curious intricate and powerful qualities And they may re discover other roads to raise a scholar Teachers educational researchers parents and guardians will be particularly interested readers Inside Education is a thought provoking challenging and revealing journey inside the world of education and learning Its exploration of school and classroom practices in a range of different settings provides important insights into how we learn a central aspect of our education system which remains overlooked and understudied In doing so it lays down a challenge to policy makers and educators everywhere to think differently about the way we learn and ultimately help students fulfil their real potential Carl O'Brien Chief Reporter for The Irish Times Inside Education is a stunning example of passionate scholarship that nonetheless refuses a redemptionist stance The ethnography captures people and contexts and draws the reader into the four sites of learning in fluent and lyrical prose This is facilitated by the extensive use of research notes deploying historical comparative literary artistic and scholarly sources Denis O'Sullivan Emeritus Professor of Education University College Cork Ireland

Assessment in Action Theresa Mickle, 2024-10-31 This essential resource shows teachers how to observe students at work and use those observations to inform classroom instruction It explores effective ways to collect evidence of student learning and guide them towards becoming active participants in the learning process Helping students understand and clarify what they know and how to use success criteria to guide their work is a key focus This practical book on assessment and feedback offers hands on tools to help students track document and articulate their learning These tools are designed to inform reflection and encourage conversation so students

can better explain question and refine their thinking Social Sciences Kath Woodward, 2021-12-30 Fully revised and updated the fourth edition of Social Sciences The Big Issues explores key debates about how we live our personal domestic and emotional lives at a time of enormous previously unimaginable change and disruption including a pandemic that locked down households and economies Since the third edition everyone's life has changed The pandemic at least temporarily stopped social life as we knew it and virtually forced governments to close down their economies This is where this edition of The Big Issues starts Staying at home posed a radical departure from routine life but reactions to Covid 19 have exposed the endurance of particular social relations especially inequalities which characterize societies worldwide A few of the new big issues covered in this edition include Changing selves and personal lives in light of racism and sexual and identity politics in a pandemic Changing patterns of consumption in relation to market production and what it means for climate change Changing intersections of citizenship migration and globalization in the context of the virus crossing borders and both the opportunities and sources of inequality involved Changing ideas about power politics and populism in the aftermath of Brexit Building on the strong foundation of this well loved text this fully revised fourth edition explores how big issues and social forces intersect to create both change and evidence of continuity especially of social inequalities It provides a clear accessible introduction to the ideas and approaches of the social sciences across a range of disciplines including sociology psychology and politics
