

INSTRUCTION MANUAL BILINGUAL

Utilities of the bilingual dictionary

In addition to the translation, a bilingual dictionary usually indicates the part of speech, gender, verb type, declension model and other grammatical clues to help a non-native speaker use the word.

A bilingual dictionary is a specialized dictionary used to translate words or phrases from one language to another.

In a dictionary you can:

1. Look up the meaning of an English word
2. Find the English translation of a word in your language
3. Check the spelling of a word
4. Check the plural of a noun or past tense of a verb
5. Find out other grammatical information about a word
6. Find the synonym or antonym of a word
7. Find out how to say a word
8. Find out about the register of a word
9. Find examples of the use of a word

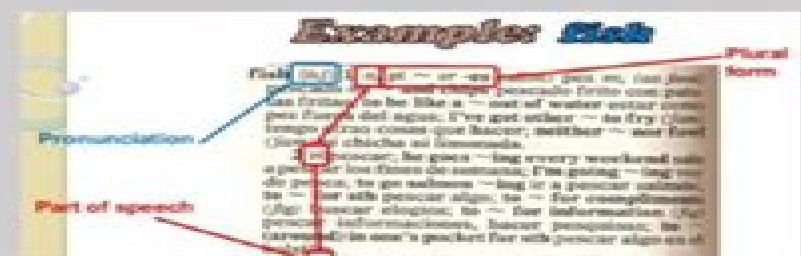

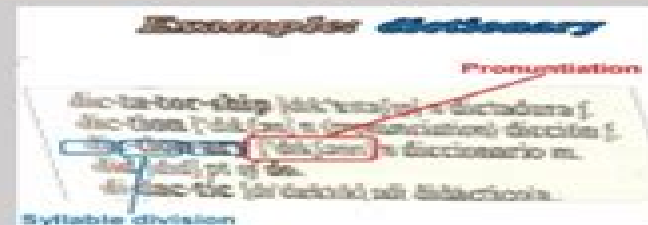

Guide words: these are located at the top of each page and indicate the first and last words on the page.

Input word: they are organized in alphabetical order in the body of the dictionary. they are usually highlighted in bold or with a different color than the meanings. Some dictionaries separate them into syllables.

Phonetic transcription: it usually appears immediately after the input word, it indicates to the reader the key to the correct pronunciation of the word, for this phonetic symbol are used that are in square brackets.

Grammatical functions: through abbreviations, the reader is made aware of the grammatical function of the word (n, s, n, adj, prep, conj) to determine precisely which of the meanings presented fits the context of the word, the reading.

Synonyms: depending on the dictionary, synonyms of the input word are presented, sometimes they can be in parentheses, as in one of the examples above.
